MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

HENRY E. CHAMBERLIN,
City Clerk.

MAYOR FRENCH'S FOURTH INAUGURAL ADDRESS.

JANUARY 27, 1914.

Gentlemen of the Board of Aldermen:

We have met here to-day to inaugurate a third administration under our new charter, and, I am happy to say, the fourth in which I am to be the chief magistrate of our city. At the beginning, I desire to express my deep appreciation of the honor conferred upon me by my selection for a fourth time as such chief magistrate. During my past administration, economy in the expenditure of the city funds has always been my watchword, to the end that the taxpayers of the city might be relieved as much as possible from the financial burdens necessarily placed upon them. I feel, as I have said in the past, that I have been fair and impartial to all in the way I have conducted the affairs of the city, striving always to do that which is for the best interests of all. That I have been independent all will admit, but my recommendations have been made in the spirit which tends to promote good municipal government. The fact that my recommendations have not generally been adopted and that I have been returned for the fourth time bears me out when I repeat again that the people of this city approve of the principles for which I have stood, and still desire my recommendations carried into effect.

The present city charter has had a fair trial and I think

there is a chance for improvement in it. Contrary to our expectations, the results have not been what they should have been. This, however, is not wholly due to the charter; I think the last board has not acted as wisely at times as it knew. Deception to a certain extent has been practiced upon the taxpayers. Politics, I am sorry to say, has not been entirely eliminated in the transaction of city affairs. I am strongly opposed to such political action, and I trust we shall not encounter it during the present administration.

Many cities have adopted forms of government similar to ours and from all reports they have been meeting with a marked degree of success. Undoubtedly this result is due to the election of non-partisan boards in the several cities, and this is what our city intended to accomplish when our present charter was adopted in 1910. I am sorry to say the attempt has been a failure.

Having called your attention to these things of a general nature, concerning which I think we are justified in finding some fault and which I hope to see changed in the future, I shall now make some recommendations which I trust will meet with your hearty approval.

And first I shall pass to a consideration in detail of the various departments of the city. In this connection I shall make such recommendations as seem to me to be valuable to the taxpayers who are entitled to our first consideration.

FIRE DEPARTMENT.

No city the size of Concord has a better fire department. The personnel of the department cannot be easily improved. From the chief down the men are steady, honest, competent and faithful, and are very efficient in

the discharge of their duties. In this department I think the city gets the worth of its money. During my past administration we have had several reports from the chief recommending motor driven apparatus. This recommendation I did not approve of, but during the last administration the Board of Aldermen thought differently and voted to purchase one piece of motor-driven apparatus at a cost of \$6,000, with the understanding that the Fire Department could be run cheaper than it was being run under the existing conditions. I thought differently. It was understood by the board that the appropriation for forage would be reduced by selling the two horses that were attached to the horse-drawn chemical. Those horses have been retained and three more permanent men added to the department. Therefore, the cost of the fire department in 1914 will exceed that of 1913. I am aware of the fact that horse-drawn fire apparatus is fast becoming a thing of the past, but I would not advise purchasing any more motor-driven apparatus at this time because our horse-drawn apparatus is in very good condition. I recommend the installation of a few more fire alarm boxes for the public safety.

In Penacook, Ward One, I think a saving to the taxpayers can be made by the purchase by the city of two horses for that district for use on the highways. These horses could be stabled at the fire station and do the work of sprinkling around the thickly inhabited part of the ward, thus saving to the taxpayers \$4.50 per day, the cost of a two-horse team, and also saving the \$200 per year now paid for the team used for fire department purposes. This I think is worthy of your consideration.

POLICE DEPARTMENT.

An efficient police department is necessary in every city for the safety of individuals and for the protection of property. Experienced men are much more effective as police officers than new ones can be. If, in the administration of city affairs, experience shall show that any official, whether in the police or any other department, is unfaithful or untrustworthy, so far as I have the power he will be held to a rigid accountability, and I shall deem it a personal favor to me if any person having a grievance on account of the actions of any of the police officers will forward to me his complaint in writing. I will attend to the matter at once, as this department is now directly responsible to the city government and is under the control of the mayor, who is its chief. The salaries of all the regular police officers are approximately one thousand dollars each per year, and for this amount I think the city is entitled to the services of able-bodied men and to their entire attention to the duties of the work.

LIGHTING STREETS.

Well lighted streets are a necessity for the safety and convenience of the public. Although the city is dependent upon one electric lighting plant to furnish its electric lighting, the service the city receives at the present time is equal to that in any other city in New England. The last contract for lighting our streets was made by the Board of Public Works. This contract is the best lighting contract that the city has ever obtained. These results were brought about by competition between the Concord Electric Co. and the Concord Light and Power Co., and on account of such competition the city

was enabled to make a contract with the Concord Electric Co., which will mean a saving to the city in ten years of approximately \$8,500.

I have in the past solicited the co-operation of the board in devising a means to bring about a reduction in the cost of gas. This has been accomplished to a slight extent. Much has been said in regard to the city owning its own gas plant. This I do not advise at this time, for I think the bonded indebtedness of the city is sufficient at present and the taxpayers are now carrying as heavy a burden as can be expected of them.

STREETS.

Good streets and sidewalks are necessary in all well-governed cities. Much work is being done and much money expended in building new and maintaining worn-out streets and sidewalks. It appears to me that the amount of money appropriated does not return its full value. In some sections of the city our highways extending to and connecting with the highways of adjoining towns do not compare favorably with the highways of our neighbors. It is common knowledge that some of the adjoining towns have better roads than the connecting roads from our city. I trust that during this administration the board will deem it advisable to see that the approaches to our city are cared for so that no criticism can be made in the future along these lines. I recommend at this time that a sufficient sum of money be appropriated to put South Main Street, North Main Street between Chapel and Pitman Streets, South State Street between Pleasant and Concord Streets, and the Pittsfield Road in proper condition. Steps should be taken to repair that part of the highway between Pleasant View and St. Paul's School.

I also recommend that more oil be put on our public streets and fewer of them sprinkled with water. I think it is the cheaper of the materials used and gives better satisfaction to the public. I hope that part of West Concord known as North State Street will be added to the sprinkling precinct so that those living on that street, and who now suffer a great deal on account of the dust caused by the large volume of automobile travel passing through that section, may get the relief due them.

PARKS.

Our parks are in much better condition than they have been for some years prior to 1913. For this our superintendent is deserving of much credit. Public playgrounds are much in demand these days and I wish in this connection to call your attention first to the John Kimball playground at the north end of the city. This playground is fast being put into proper shape so that in a few years it will be an ideal playground and one that the city may be proud of. I recommend that a sum of money be appropriated sufficient for the purpose of this playground. Seats should be more freely distributed in all our parks for the accommodation of the public. I trust during the administration of His Excellency Samuel D. Felker, as has been frequently recommended by me, that seats will be installed in the State House Park for the benefit of all who may visit our city. I think that an act of this kind would be appreciated by the many people who visit the state's capitol every year. Rollins Park, at the south end, is also worthy of your consideration, a most beautiful spot for a playground. A small sum of money was expended last year on this playground, but through the assistance of the Board of Public Works

and the superintendent of highways it was put in very good shape. I recommend that a sufficient sum of money be appropriated to make this an up-to-date playground.

SCHOOLS.

Too much cannot be said in regard to our public schools. The education of the youth of the city is one of the most important functions of city administration. Although more than one hundred thousand dollars is appropriated annually for schools we have no voice in this expenditure. This fact makes our duties less onerous, and as long as these funds are used as efficiently and honestly as at present we can have no possible ground for complaint. The schools are well managed. Liberal views are taught and various subjects are open to the pupil's choice. The high school and business course is proving a great benefit to the students and also to those who have occasion to employ help. Appreciating these facts, let us co-operate at all times to further the interests of our young people by lending our support to those who direct their education. Much criticism has been expressed against the Board of Education in the methods that were pursued in rebuilding on the Walker schoolhouse site. It had seemed to me a great saving could have been made by retaining the Walker School as it was and rebuilding on the Merrimack schoolhouse lot, knowing, as we do, that that building should be condemned on account of its unsanitary condition.

HOSPITALS.

It has been customary for years to make an annual appropriation of \$3,000 for the Margaret Pillsbury General Hospital. Since 1909 this hospital has had a restriction

placed upon it which has been a direct financial saving to the taxpayers of this municipality. Since this restriction was placed upon this appropriation the saving to the municipality has been approximately \$3,000, and I recommend that this appropriation continue with the same restriction. The Memorial Hospital on South Street is also worthy of the appropriation heretofore given it, and I recommend the appropriation of \$500 for this hospital. Both of these hospitals are doing excellent work among our worthy poor and deserve all the financial aid that the city can afford them.

SOLDIERS' RELIEF.

Those who fought and won the battle for emancipation of a race from chattel slavery deserve most generous treatment, and I trust all that is possible in this direction will be freely done for them. The William I. Brown Post, No. 31, of Penacook, and the Davis Post, No. 44, of West Concord, are furnished with suitable quarters by the city. Other cities throughout the state are giving free quarters to their G. A. R. posts, and I feel that the few members of the E. E. Sturtevant Post that remain with us are due for some consideration, and I recommend that their quarters be rented for them by the city.

FOR THE PUBLIC BENEFIT.

On several occasions my attention has been called to an idea that I trust will meet with the hearty approval of all. It is a public comfort station for men, women and children. Almost every city in the land maintains a station of this sort. I have looked forward during my past administrations to see some member of our several boards introduce an ordinance on this particular subject, and I recommend for your approval the erection of a

public comfort station. I think this would be a direct benefit to all and is worthy of your consideration.

HEALTH.

Since the establishment of this department on its present basis the sanitary condition of the city has greatly improved and to-day our city ranks second in healthiness and cleanliness among the cities of the United States. There is little danger of any contagious disease gaining a strong foothold here. My attention has been called very recently to the matter of diseased meat being sold in our city. This subject is very important and deserves our immediate attention. We all recognize the importance of this branch of the city government and its very efficient management. I especially commend it for its efforts to see that the inhabitants of the city are furnished with milk produced under sanitary conditions. In this connection I am glad to say that all plumbing is examined by and taken charge of by our sanitary officer.

TAXATION.

No more important office exists in the city than that of the Board of Assessors. Every citizen should bear his just proportion of the public tax. The property assessed by them amounts to \$20,482,846 in value. Equalization of taxation is all the people demand and that is what they are entitled to have. Some people try to evade their proportional part of the tax. This is done in making out their inventories and forgetting to do it properly. I think our Board of Assessors are men who are fearless in the discharge of their duties and have accurate judgment on property values, and I recommend that they discharge their duties in the same fearless manner as in the past.

LEGAL DEPARTMENT.

The affairs of the legal department of the city are in first class shape. Several suits against the city have been disposed of by the payment of small sums appropriated by the Board of Aldermen.

LABOR.

The laborers of our city are worthy of all our consideration. I do not think that American citizens are given any preference as the ordinance prescribes. I think this matter is worthy of your attention. It is an established fact that almost every corporation in the city gives to their employees a half-holiday weekly during the summer months. The city gives to its officers in the city building Saturday afternoons during the months of June, July and August with pay, and I recommend the passage of an ordinance providing for a weekly half-holiday for all men employed by the city who are designated as laborers.

NEW CHARTER AMENDMENTS.

I think the charter should be amended to some extent, namely: 1. The abolishing of the office of ward alderman. 2. The election of the superintendent of streets by the people.

Much has been said in regard to the mayor's salary not being sufficient. I think the salary of the mayor is sufficient and shall oppose any legislation that will raise the salary of that office; but I am honest when I say that I think the salary of the superintendent of streets is excessive and should be reduced by the Board of Public Works to \$1,600, the same as it was before the adoption of the new charter. I think an act of this kind would be greatly appreciated by the taxpayers, the people whom you were elected to represent.

BOARD OF PUBLIC WORKS.

Under our new charter the highway department was practically abolished and the work placed under the supervision of the Board of Public Works. The charter provides that "The Board of Public Works hereby established shall have full charge, direction and control of the construction, reconstruction, maintenance, repair and improvement of public streets, highways, bridges, sewers and drains, sidewalks, of the sprinkling of streets, and of the collection and disposal of garbage." Section 33 provides that the board "shall, as early as practicable in each year, submit to the Board of Aldermen or its Committee of Finance a detailed estimate in writing of the appropriations required for that year for the purposes referred to" in sections 31 and 32. Sections 31 and 32 do not empower the Board of Public Works to raise money without first notifying the Board of Aldermen, and when the Board of Public Works fixed the superintendent of highway's salary at \$1,600 per year that matter went to the Board of Aldermen for their approval, and was adopted. Later in the year 1913 the Board of Public Works raised the salary of the superintendent of streets \$200 and no ordinance has as yet been presented to the Board of Aldermen raising said sum, but this sum has been paid to the superintendent of streets out of a balance that remained in the appropriation for roads and bridges. This had been appropriated for such work as is prescribed in section 31 of the charter. That part of the charter was violated when the superintendent of streets was paid \$150 per month with no funds legally appropriated for that purpose, and I trust that the Board of Aldermen will see that nothing of this nature occurs during the years 1914-1915.

CONCLUSION.

In conclusion I ask for your faithful co-operation in conducting the business of the city without fear, prejudice or jealousy. The task before us should cause you all to stop and consider carefully what your attitude will be during the next two years. You are the directors of a large corporation with assets worth more than twenty millions of dollars. The taxpayers are the stockholders who have selected you to represent them. Into your hands has been entrusted the management of the affairs of this municipality. Time, patience and fidelity will be demanded in the performance of your duties. In this way alone shall we do our duty and perform the service expected of us. When you leave this hall you will go out as public servants sworn to the faithful performance of the trust reposed in you by the people. Let it not be said that you have failed in your duty to your fellow-citizens, to yourselves and to humanity.

ORDINANCES AND RESOLUTIONS

Passed During the Year Ending January 12, 1914.

CITY OF CONCORD—ORDINANCES.

AN ORDINANCE IN AMENDMENT OF CHAPTER 18, SECTION 28 OF THE REVISED ORDINANCES RELATING TO FIRE DEPARTMENT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That chapter 18, section 28 of the Revised Ordinances be amended as follows: Strike out of the sixteenth line of said section the words "Six hundred dollars," and insert in place thereof the words one thousand dollars so that said clause as amended shall read, "Pioneer Steamer Company No. 3, one thousand dollars."

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 24, 1913.

AN ORDINANCE IN AMENDMENT OF CHAPTER 41, SECTION 14 OF THE REVISED ORDINANCES RELATING TO SALARY CITY ENGINEER.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That chapter 41, section 14 of the Revised Ordinances be amended as follows: Strike out of said section the words "sixteen hundred dollars" and insert in place thereof the words "eighteen hundred dollars" so that said section as amended shall read: The city engineer shall receive in full for his services the sum of eighteen hundred dollars per year, payable monthly.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 24, 1913.

AN ORDINANCE IN AMENDMENT OF CHAPTER 19, SECTION 1 OF THE REVISED ORDINANCES RELATIVE TO LIGHTING PRECINCTS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That section 1 of chapter 19 of the Revised Ordinances be hereby amended by adding thereto the following "also the following described territory: commencing at a point in the center of the Merrimack River under the Loudon bridge, on Bridge Street; thence easterly by Bridge Street to the westerly line of land of Henry C. Champigny; thence southerly by the westerly line of said Champigny land and the westerly line of land formerly of Rand and Stevens, as shown on a plan recorded in Merrimack County Registry, vol. 209, page 324, to its southwesterly corner; thence easterly by the southerly line of said land to land of Ira W. Arlin; thence southerly, westerly, southerly and easterly by the westerly, northerly, westerly and southerly lines of said Arlin land to the northwesterly corner of land of David J. Adams; thence southerly on the westerly line of said Adams land to his southwesterly corner; thence easterly by said Adams' southerly line to South Pembroke Street; thence northeasterly across said street to the southwesterly corner of the State Camp Ground; thence easterly by its southerly line to its southeasterly corner; thence northerly on its easterly line to the northerly line of Buchanan Street, as shown on above mentioned plan; thence easterly on the northerly line of said Buchanan Street to the Branch Turnpike, so called; thence northeasterly on said Turnpike to Canterbury Street, so called, as shown on above mentioned plan; thence northerly by said Canterbury Street to the northeasterly corner of Jones Park, so called, on North Pembroke Street; thence northerly on the easterly line of said Jones Park and said easterly line extended to the center line of the Loudon Road; thence westerly by the center line of said Loudon Road to the easterly line of land of Bernice H. Frost; thence northerly on the easterly line of said Frost land to its northwesterly corner; thence westerly on the northerly line of all lots on the northerly side of Loudon Road to the northwesterly corner of George L. Green land; thence southerly and easterly by said Green's westerly and southerly line to the Loudon Road; thence westerly by Loudon Road and Bridge Street to the westerly line of land of Henry C. Champigny.

"Said precinct shall include, in addition to the territory within the aforesaid limits, all lots, with their inhabitants, abutting on Bridge

Street, from the center of the Merrimack River to its junction with the Loudon Road," so that said section as amended shall read as follows:

Section 1. A lighting precinct in the city proper, as authorized by the act of the legislature entitled "An act in amendment of the charter of the city of Concord," approved June 27, 1857, is hereby fixed and established as follows:

Said lighting precinct shall embrace all the territory together with its inhabitants, within the following described limits, to wit:

Beginning at a point in the center of the Merrimack River at the Pembroke Bridge, so called; thence southerly along the center line of said river to the point where the line between Concord and Bow intersects said line; thence westerly by said town line to the Turkey River; thence northerly along the center line of said Turkey River to Clinton Street; thence westerly by the center line of Clinton Street to the Silk Farm Road; thence northerly by the Silk Farm Road to the road on the southerly side of the Orphans' Home; thence westerly by said road and the Stickney Hill Road to the westerly line of land of William W. Flint; thence northerly and easterly by said Flint's westerly and northerly lines to the land of Saint Paul's School; thence northerly by the westerly line of land of said school to the old road leading from Concord to Hopkinton; thence westerly by the Hopkinton Road to the road leading to Penacook Lake; thence easterly by the Hopkinton Road to the easterly line of land of Charles A. Fowler and the westerly line of land of Saint Paul's School (on the northerly line of the new road); thence northerly and easterly by the westerly and northerly lines of said school lands to Fiske Road; thence across said Fiske Road to the northwesterly corner of the land of said school; (on the easterly side of Fiske Road) thence easterly and southerly by the northerly and easterly lines of said school lands to the land of Susan E. Mercer; thence easterly by said Mercer's northerly line and the northerly line of land of Emma C. Willecox to the northeasterly corner of said last mentioned land; thence southerly by the easterly line of said Willecox land to land of the heirs of Mary S. Chesley; thence northerly and easterly by the westerly and northerly lines of said Chesley land to land of John K. Tibbits; thence northerly by said Tibbits' westerly line and the westerly line of land of Saint Paul's School to the southwest corner of land of J. B. Weeks; thence northeasterly by said Weeks' southerly line to the northeasterly corner of land of Saint Paul's School; thence southerly by the easterly line of said school's land to land of the heirs of Frank Coffin; thence northerly

by the westerly line of said Coffin land to land of Little and Day; thence northerly and westerly by the westerly and southerly lines of said Little's and Day's land to the Little Pond Road; thence northerly across said road to the southwesterly corner of land of Arthur N. Day; thence northerly by the westerly line of said Day's land to land of John C. Buckley and others; thence westerly by said Buckley's southerly line to land of John Jordan; thence northerly by said Jordan's easterly line to land of the New England Granite Company; thence northerly and easterly by said company's westerly and northerly lines to North State Street; thence easterly across said street to the ravine near the residence of the late Asa Gay; thence easterly by said ravine to the Merrimack River; thence southerly by said river to the point begun at; also the Pembroke Road from Pembroke bridge to the top of Black Hill; also the following described territory: commencing at a point in the center of the Merrimack River under the Loudon bridge, on Bridge Street; thence easterly by Bridge Street to the westerly line of land of Henry C. Champigny; thence southerly by the westerly line of said Champigny land and the westerly line of land formerly of Rand and Stevens, as shown on a plan recorded in Merrimack County Registry, vol. 209, page 324, to its southwesterly corner; thence easterly by the southerly line of said land to land of Ira W. Arlin; thence southerly, westerly, southerly and easterly by the westerly, northerly, westerly and southerly lines of said Arlin land to the northwesterly corner of land of David J. Adams; thence southerly on the westerly line of said Adams land to his southwesterly corner; thence easterly by said Adams' southerly line to South Pembroke Street; thence northeasterly across said street to the southwesterly corner of the State Camp Ground; thence easterly by its southerly line to its southeasterly corner; thence northerly on its easterly line to the northerly line of Buchanan Street, as shown on above mentioned plan; thence easterly on the northerly line of said Buchanan Street to the Branch Turnpike, so called; thence northeasterly on said turnpike to Canterbury Street, so called, as shown on above mentioned plan; thence northerly by said Canterbury Street to the northeasterly corner of Jones Park, so called, on North Pembroke Street; thence northerly on the easterly line of said Jones Park and said easterly line extended to the center line of Loudon Road; thence westerly by the center line of said Loudon Road to the easterly line of land of Bernice H. Frost; thence northerly on the easterly line of said Frost land to its northwesterly corner; thence westerly on the northerly line

of all lots on the northerly side of Loudon Road to the northwesterly corner of George L. Green land; thence southerly and easterly by said Green's westerly and southerly line to the Loudon Road; thence westerly by Loudon Road and Bridge Street to the westerly line of land of Henry C. Champigney.

Said precinct shall include, in addition to the territory within the aforesaid limits, all lots, with their inhabitants, abutting on Bridge Street, from the center of the Merrimaek River to its junction with the Loudon Road.

Passed March 24, 1913.

SECT. 2. There shall be raised in like manner the sum of forty-eight thousand five hundred two and 50-100 dollars (\$48,502.50) for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one half of the income from the sale of lots and the income derived from the care of lots and grading, which sums shall be deposited by the superintendent, or others receiving them, in

the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder, in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the public library in the purchase of books the amount collected for fines.

SECT. 5. This ordinance shall take effect upon its passage.

Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct the sum of twenty-seven hundred seventy-eight and 40-100 dollars (\$2,778.40) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund.....	\$1,100.00
For the payment of interest that may become due on precinct bonds	280.00
For repairs and maintenance of sewers in said precinct...	1,398.40

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT IN WARD ONE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct in Ward 1 the sum of five hundred dollars (\$500) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For sprinkling streets..... \$500.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city, the sum of fifty-five hundred dollars (\$5,500) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For sprinkling streets..... \$5,500.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF ST. PAUL'S SCHOOL SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within St. Paul's School sewerage precinct, the sum of five hundred sixty dollars (\$560) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund.....	\$500.00
For the payment of interest that may become due on precinct bonds	15.00
For repairs and maintenance of sewers in said precinct..	45.00

SECT. 2. This ordinance shall take effect upon its passage.
 Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE EAST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord sewerage precinct, the sum of one hundred seventeen and 50-100 dollars (\$117.50) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund.....	\$100.00
--	----------

For the payment of interest that may become due on pre-
cinct bonds \$17.50

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO
BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN
THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINAN-
CIAL YEAR.

*Be it ordained by the Board of Aldermen of the City of Concord, as
follows:*

SECTION 1. There shall be raised, and there is hereby ordered to
be raised, on the polls and ratable estates within the sewerage pre-
cinct of said city, the sum of seventy-four hundred forty dollars
(\$7,440) to defray the necessary expenses and charges of said pre-
cinct for the ensuing financial year, which shall be appropriated as
follows:

For repairs and construction.....	\$4,500.00
For interest on bonds.....	2,940.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO
BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN
THE LIMITS OF THE GARBAGE PRECINCT FOR THE ENSUING FINAN-
CIAL YEAR.

*Be it ordained by the Board of Aldermen of the City of Concord, as
follows:*

SECTION 1. There shall be raised, and there is hereby ordered to
be raised, on the polls and ratable estates within the garbage precinct
of said city, the sum of seven thousand dollars (\$7,000) to defray

the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the collection of garbage and refuse matter in said precinct \$7,000.00

SECT. 2. This ordinance shall take effect upon its passage. Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE LIGHTING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the lighting precinct of said city, the sum of eighteen thousand eight hundred dollars (\$18,800) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For lighting streets..... \$18,800.00

SECT. 2. This ordinance shall take effect upon its passage. Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE EAST CONCORD LIGHTING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord lighting precinct, the sum of five hundred thirty-five dollars (\$535)

to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For lighting streets within said precinct..... \$535.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct, the sum of eight hundred sixty-five and 50-100 dollars (\$865.50) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of interest that may become due on precinct bonds	115.50
For the payment of bonds.....	500.00

SECT. 2. This ordinance shall take effect upon its passage.
Passed March 24, 1913.

AN ORDINANCE AUTHORIZING THE BOARD OF ASSESSORS TO EMPLOY CLERICAL ASSISTANCE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the board of assessors are hereby authorized to employ additional clerical assistance in the office of said board, the expense of the same not to exceed four hundred dollars (\$400) per

annum and to be charged to the account of incidentals and land damages.

SECT. 2. This ordinance to take effect upon its passage.

Passed April 14, 1913.

AN ORDINANCE TO EXTEND THE WATER PRECINCT IN WARD ONE.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the water precinct as heretofore existing be extended to embrace all the territory, together with the inhabitants, within the following described limits, to wit: Beginning at a point on the Borough Road where the westerly line of land of the heirs of the late Martha J. Morrill intersects said road; thence westerly by the Borough Road to the easterly line of land of the heirs of the late Alonzo Elliott; thence southerly by the easterly line of said Elliott land to land of Lewis D. Nevers; thence westerly on a line 350 feet southerly from the Borough Road and parallel with said road to the westerly line of land of Belina Clouette; thence northerly by said Clouette's westerly line to the Borough Road; thence northwesterly across the Borough Road to the westerly line of land of Isaac Clouette; thence northerly by said Clouette's westerly line to the "Outlet," so called; thence easterly by said "Outlet," to the westerly line of land of the heirs of the late Martha J. Morrill; thence southerly by said westerly line of the Morrill land to the Borough Road at the point of beginning.

SECT. 2. This ordinance shall take effect upon its passage.

Passed June 9, 1913.

AN ORDINANCE IN AMENDMENT OF CHAPTER 18 OF THE REVISED ORDINANCES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That section 28 of chapter 18 of the Revised Ordinances be, and hereby is, amended by striking out after the words

“assistant engineer at Penacook” the words twenty-five and inserting in place thereof the words seventy-five.

SECT. 2. This ordinance shall take effect upon its passage.

Passed July 14, 1913.

AN ORDINANCE RELATING TO THE REGULATION OF STREET TRAFFIC.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

ARTICLE 1. DEFINITIONS.

SECTION 1. The word “vehicle” herein shall include horses hitched to vehicles, horses ridden or led, motor vehicles of all kinds, bicycles, tricycles propelled by hand, and everything on wheels or runners except street cars and light carriages for the conveyance of children.

SECT. 2. The word “horse” herein shall include all domestic animals.

SECT. 3. The word “driver” herein shall include the rider or driver of a horse, the rider of wheels and the operator of a motor vehicle.

ARTICLE 2. VEHICLES IN MOTION.

SECTION 1. A vehicle except when passing a vehicle ahead shall keep to the right and as near the right curb as possible.

SECT. 2. Vehicles meeting shall pass each other to the right.

SECT. 3. A vehicle overtaking another vehicle shall, in passing, keep to the left, but it shall not leave the line on the right unless there is a clear way to advance on the left.

SECT. 4. A vehicle turning to the right into another street shall turn the corner as near to the curb as practicable.

SECT. 5. A vehicle turning to the left into another street shall pass to the right of and beyond the street's intersection before turning.

SECT. 6. A vehicle crossing from one side of the street to the other shall do so by turning to the left so as to head in the same direction as the traffic on that side of the street and shall not make the turn at a street intersection.

SECT. 7. Slow moving vehicles shall keep as close as possible to

the curb on the right so as to allow faster moving vehicles free passage on the left.

SECT. 8. No person having charge of a vehicle shall allow the same to come within ten feet of any vehicle in front of him when approaching and passing over a crossing where a pedestrian is about to cross.

SECT. 9. The driver or person having charge of any vehicle, before turning the corner of any street or turning out or starting from or stopping at the curb line of any street, shall first see that there is sufficient space free from other vehicles so that such turn, stop or start may be safely made, and shall then give a plainly visible or audible signal.

SECT. 10. No vehicle shall stop with its left side to the curb on Main Street between Freight and Center Streets, or on Pleasant, Warren, School, Capitol, Park and Center Streets between Main and State Streets.

SECT. 11. When a horse drawn vehicle is backed up to the curb, the horse or horses shall be turned so as to stand as near parallel with the sidewalk as possible and headed in the general direction of travel for the side of the street on which the vehicle is standing.

SECT. 12. Unless in an emergency or to allow another vehicle to cross its path, no vehicle shall stop in any public street or highway of this city except close to the curb line.

SECT. 13. No vehicle shall be allowed to stand within five feet of a fire hydrant.

SECT. 14. In approaching or passing a street railway car which has been stopped to allow passengers to alight or to embark the driver of every motor vehicle shall slow down, and, if it be necessary for the safety of the public, he shall bring said vehicle to a full stop.

ARTICLE 3. SIGNALS, NOISES AND SMOKE.

SECTION 1. Every driver of a vehicle shall, in slowing up or stopping, give a signal to those behind by raising a whip or hand vertically.

SECT. 2. In turning while in motion or in starting to turn from a stand-still, a signal shall be given by the driver of the vehicle about to be turned by raising a whip or hand indicating the direction in which the turn is to be made.

SECT. 3. Ample warning shall be given by voice or uplifted hand before backing, and while backing unceasing vigilance must be exercised by the person driving any vehicle.

SECT. 4. Vehicles must stop so as not to interfere with or prevent the passage of pedestrians at crossings.

SECT. 5. The police department shall control all traffic in the streets or highways. All vehicles and cars shall stop and start immediately on signal given by any police officer.

SECT. 6. (Extract from Motor Vehicle Law, section 12.) Upon approaching any intersecting way or a curve or corner in a way every person operating a motor vehicle shall slow down and give timely signal with his bell, horn or other device for signalling; provided, that in the thickly settled parts of a city or town no bell, horn or other device for signalling shall be sounded so as to make an unreasonable noise, except in the case of fire and police department vehicles; and provided further, that no operator or chauffeur of any motor vehicle shall on any way permit any unreasonable amount of smoke to escape from said motor vehicle, nor shall any operator or chauffeur on any way permit said motor vehicle to make any unnecessary noise, by cutting out the muffler, or otherwise.

ARTICLE 4. RIGHT OF WAY.

SECTION 1. Police, fire department, United States mail vehicles, ambulances, funeral processions and emergency repair wagons of public service corporations shall have the right of way in any street and through any procession, and nothing in these rules shall apply to said vehicles.

SECT. 2. A person driving or controlling a vehicle waiting at the curb shall promptly give place to a vehicle about to take on or let off passengers.

ARTICLE 5. CARE IN DRIVING; CONDITION AND TREATMENT OF HORSES.

SECTION 1. No person shall drive or conduct any vehicle in such condition or so loaded as to be likely to cause delay in traffic, or accident or injury to man, beast or property.

SECT. 2. No person shall carry or cause to be carried on any vehicle in any public street a load the weight of which exceeds six tons unless such load consists of an article which cannot be divided, and then only in accordance with a permit from the police department.

SECT. 3. No person shall drive a horse not in every respect fit for use and capable for the work on which it is employed and free from lameness and sores and vices or disease likely to cause delay in traffic or accident or injury to persons or property.

SECT. 4. No person shall ill-treat, overload, overdrive or cruelly or unnecessarily beat any horse.

SECT. 5. No person shall steal a ride upon any vehicle or street car, and no person shall ride upon the rear of any vehicle without the consent of the person in charge thereof.

SECT. 6. Any police officer in uniform, in his discretion, may remove any horse or vehicle left upon any street not in the apparent charge of any driver or other person, or which is in violation of any of these regulations, to another place on said street or from such street to another street or to the city yard or to a garage or stable and there leave the same.

ARTICLE 6. STREET CARS.

SECTION 1. No street car shall stand in the intersection of streets.

SECT. 2. Drivers of street cars shall not pass the intersection of State and Pleasant Streets without audible warning, nor at a speed greater than ten miles an hour, and shall not enter the intersection of Warren and Merrimack Streets at any speed which would prevent such driver from bringing his car to a full stop, in emergency, before reaching the center line of the intersection of said streets.

ARTICLE 7. PENALTIES FOR VIOLATION.

SECTION 1. Except as otherwise provided in the Motor Vehicle Law of the state, any person violating any of the provisions herein contained shall be liable to a penalty not to exceed ten dollars for the first offence, or not to exceed twenty dollars for any subsequent offence.

SECT. 2. Complaints against any person violating any of the provisions herein contained may be made at police headquarters or to any police officer.

SECT. 3. Copies of this ordinance may be obtained at police headquarters.

SECT. 4. The city clerk shall publish the provisions of this ordinance in accordance with the requirements of section 15 of the Motor Vehicle Law of the state.

SECT. 5. All ordinances inconsistent herewith are hereby repealed.

SECT. 6. This ordinance shall take effect upon its passage except as to Article 6, section 1, which section shall take effect September 1, 1913.

Passed July 14, 1913.

AN ORDINANCE DEFINING THE THICKLY SETTLED PARTS OF THE CITY OF CONCORD FOR THE PURPOSE OF PREVENTING THE DESTRUCTION OF GRAY SQUIRRELS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the territory within the lighting precincts of the city of Concord, East Concord, West Concord and Penacook (Ward 1) of said city and also all territory in and eighty rods on either side of all highways, private roads and lanes and all parks, groves, cemeteries and commons and all territory within eighty rods therefrom be, and hereby is, defined as the thickly settled part of the city of Concord within the meaning of Session Laws of 1913, chap. 174, relating to the protection of gray squirrels.

SECT. 2. Any person taking, killing, selling or offering for sale any gray squirrels within the territory above defined shall be fined ten dollars for each gray squirrel so taken, killed, sold or offered for sale.

SECT. 3. This ordinance shall take effect upon its passage.

Passed October 14, 1913.

AN ORDINANCE IN AMENDMENT OF SECTION 2, CHAPTER 21 OF THE CITY ORDINANCES RELATING TO THE GARBAGE PRECINCT.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That section 2 of chapter 21 of the City Ordinances relating to the garbage precinct be amended by adding after the word "road" in the thirtieth line the words "also Foster Street, Prospect Street, Granite Avenue, Curtis Avenue, Perkins Court, and all property abutting on the east side of North State Street to the Concord & Claremont Railroad crossing."

SECT. 2. This ordinance to take effect January 1, 1914.

Passed December 29, 1913.

RESOLUTIONS.

A RESOLUTION RELATIVE TO THE CUTTING OF THE WOOD AND TIMBER ON THE CITY LOT IN WARD 3.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the wood and timber on the city lot, so called, in Ward 3, said to be infested with gypsy moths, be cut and marketed or otherwise used for the benefit of the city, under the direction of a committee of four which shall consist of the mayor, and one member of the committee on lands and buildings of the board of aldermen, one member of the committee on lands and buildings of the board of park commissioners, to be appointed by the mayor, and the superintendent of water-works.

SECT. 2. That said committee be, and hereby is, authorized to enter into a contract with suitable persons in the name of the city for the operation of said lot.

Passed February 3, 1913.

A RESOLUTION AMENDING A RESOLUTION PASSED DECEMBER 16, 1912, EXEMPTING THE NEW ENGLAND BOX COMPANY FROM TAXES DURING A PERIOD OF TEN YEARS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a resolution passed December 16, 1912, exempting the New England Box Company from taxation during a period of ten years be amended by adding after the words "in the erection" the words "and equipment," so that said resolution as amended shall read as follows:

Whereas the New England Box Company, incorporated under the laws of the state of Maine, desires to locate its factory and carry on its business in the city of Concord, provided sufficient inducements are given it by the city government:

That if the New England Box Company will locate and establish

its business in this city and will expend not less than \$50,000 in the erection and equipment of a factory to carry on said business, said factory and the real estate upon which the same is located and the machinery therein and the capital necessary in conducting said business shall be exempted from all taxation for a period of ten years from April 1, 1913.

Passed February 3, 1913.

A RESOLUTION RELATING TO PLEASANT VIEW.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That it would be conducive to the best interests of the city, and a furtherance of the feeling of friendship and good will entertained herein by the citizens hereof toward the memory of that distinguished citizen, the late Mrs. Mary Baker G. Eddy, to have preserved the late residence of said Mrs. Eddy, called Pleasant View, substantially intact, as a lasting monument to her, and

SECT. 2. That a copy of this resolution be sent to the trustees of the Christian Science Church of Boston.

Passed March 10, 1913.

A RESOLUTION APPROPRIATING \$500 TO SETTLE THE CASE OF CAROLINE F. STICKNEY V. CITY OF CONCORD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of \$500 be, and the same is, hereby appropriated out of any money in the treasury not otherwise appropriated for the purpose of settling the suit of *Caroline F. Stickney v. The City of Concord*.

SECT. 2. This resolution shall take effect upon its passage.

Passed March 24, 1913.

A RESOLUTION AUTHORIZING THE PAYMENT OF THE AMOUNTS DUE THE OPERATORS OF THE WOOD AND TIMBER ON THE CITY LOT, SO CALLED.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the mayor and superintendent of water-works be, and hereby are, authorized to determine the amounts due the operators of the city wood lot, so called, and

SECT. 2. That said amounts when so determined shall be paid to said operators and charged to the account of incidentals and land damage.

SECT. 3. This resolution shall take effect upon its passage.

Passed March 24, 1913.

A RESOLUTION APPROPRIATING THE SUM OF FOUR THOUSAND DOLLARS FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of four thousand dollars (\$4,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for incidentals and land damages.

Passed May 12, 1913.

A RESOLUTION ACCEPTING THE GIFT OF AN ORNAMENTAL FOUNTAIN BY THE PENACOOK WOMAN'S CLUB.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the offer of the Penacook Woman's Club of Penacook, New Hampshire, of an ornamental fountain to be placed on the grass plot in Washington Square in the said village of Penacook be accepted.

SECT. 2. That in accepting this gift it is understood that the city does not obligate itself to maintain said square in any other manner than it is at present maintained.

Passed May 12, 1913.

A RESOLUTION APPROPRIATING MONEY FOR THE PURCHASE OF LAND TO BE ADDED TO JOHN KIMBALL PLAYGROUND.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a sum of money not to exceed one hundred seventy-five dollars (\$175) be, and hereby is, appropriated for the purchase of lot No. 18, on plan 219, recorded in the Merrimack County Registry of Deeds, said lot to be added to and to become a part of the John Kimball Playground.

Passed June 9, 1913.

A RESOLUTION APPROPRIATING MONEY FOR THE USE OF THE MAYOR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two hundred dollars (\$200) be, and hereby is, appropriated for necessary expenses and supplies for the mayor's office. The same to be expended under the direction of the mayor and charged to the account of incidentals and land damages.

Passed June 9, 1913.

A RESOLUTION FOR THE PURCHASE OF LAND TO BE ADDED TO THE PLAYGROUND SOUTH OF ROLLINS PARK.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on lands and buildings be, and hereby is, authorized to procure by purchase the tract of land adjoining the playground below Rollins Park, between Bow Street and Broadway, and known as the Emerson lot, at a cost not to exceed three hundred fifty dollars (\$350); the deed to be approved by the city solicitor; and said sum to be charged to the account of incidentals and land damages.

Passed June 9, 1913.

A RESOLUTION APPROPRIATING MONEY FOR THE BENEFIT OF THE MILITARY ORGANIZATIONS IN THE CITY OF CONCORD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one hundred dollars be hereby appropriated for the use of Company C, 1st Infantry, N. H. N. G., the sum of one hundred dollars for the use of Company E, 1st Infantry, N. H. N. G., and the sum of fifty dollars for the use of the Hospital Corps. N. H. N. G., now stationed in the city of Concord, and that the said sums be paid by warrant of the mayor to the commanding officers of the said organizations respectively at any time, on demand, after the passage of this resolution.

Passed June 9, 1913.

A RESOLUTION APPROPRIATING TWO HUNDRED DOLLARS TO PAY FOR THE BUILDING OF AN IRON FENCE AT OLD FORT CEMETERY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two hundred dollars be, and is hereby, appropriated out of any money in the treasury not otherwise appropriated for the building of an iron fence on the north side of the Old Fort Cemetery on Shawmut Street in Ward 2, said fence to be erected under the supervision of the mayor and committee on Pine Grove Cemetery.

Passed June 9, 1913.

A RESOLUTION APPROPRIATING ELEVEN HUNDRED EIGHTY-SIX AND 96-100 DOLLARS (\$1,186.96) TO PAY FOR REAL ESTATE SOLD TO THE CITY OF CONCORD FOR UNPAID TAXES FOR THE YEAR 1912.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of eleven hundred eighty-six and 96-100 dollars (\$1,186.96) be, and the same hereby is, appropriated out of any

money in the treasury not otherwise appropriated to pay the amount due the city of Concord for real estate purchased at the tax collector's sale of real estate for the unpaid taxes for the year 1912.

Passed June 9, 1913.

A RESOLUTION PROVIDING FOR A SPECIAL COMMITTEE ON TRAFFIC RULES FOR THE CITY OF CONCORD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the mayor be, and hereby is, authorized to appoint a committee of not more than five, one member of which shall be the mayor, for the purpose of inquiring into the advisability of drafting a code of traffic rules for the city of Concord, which committee shall report a draft of such a code if it deems the same necessary.

Passed June 9, 1913.

A RESOLUTION PROVIDING FOR A DISCOUNT ON TAXES PAID PRIOR TO JULY 20, 1913.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That a discount of 2% shall be allowed on all taxes assessed for the year 1913 which are paid on or before the twentieth day of July, 1913.

Passed June 9, 1913.

A RESOLUTION APPROPRIATING MONEY FOR THE PURCHASE OF AN AUTO COMBINATION CHEMICAL ENGINE AND HOSE WAGON.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum necessary, not to exceed six thousand dollars (\$6,000), be, and hereby is, appropriated out of any money in the treasury not other appropriated, for the purchase of an auto combination chem-

ical engine and hose wagon. Said sum to be expended under the direction of the committee on fire department.

Passed July 14, 1913.

A RESOLUTION RELATING TO AN INCLINED FLOOR IN THE AUDITORIUM.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on lands and buildings are hereby authorized and directed to employ the services of an architect to draw plans and specifications for an inclined floor in the Auditorium and to ask for sealed bids for the construction of the same with the right to reject any or all of said bids.

Said committee shall respectively, after the completion of the plans and after the obtaining of bids, report, and submit the same to the mayor.

Passed July 14, 1913.

A RESOLUTION APPROPRIATING THE SUM OF ONE THOUSAND DOLLARS FOR THE SUPPORT OF CITY POOR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one thousand dollars (\$1,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for the support of city poor.

Passed July 14, 1913.

A RESOLUTION APPROPRIATING THE SUM OF FIVE THOUSAND DOLLARS FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of five thousand dollars (\$5,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for incidentals and land damages.

Passed July 14, 1913.

A RESOLUTION APPROPRIATING THE SUM OF ONE THOUSAND DOLLARS FOR PRINTING AND STATIONERY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one thousand dollars (\$1,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for printing and stationery.

Passed July 14, 1913.

A RESOLUTION APPROPRIATING MONEY FOR THE CONCORD DISTRICT NURSING ASSOCIATION.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of three hundred dollars be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, for aid to the Concord District Nursing Association.

Passed August 11, 1913.

A RESOLUTION APPROPRIATING FIVE HUNDRED DOLLARS (\$500) FOR THE USE OF BLOSSOM HILL CEMETERY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of five hundred dollars (\$500) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the use of Blossom Hill Cemetery.

SECT. 2. This resolution shall take effect upon its passage.

Passed August 11, 1913.

A RESOLUTION APPROPRIATING FOUR HUNDRED DOLLARS FOR AN INCLINED FLOOR IN THE AUDITORIUM.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of four hundred dollars (\$400) be, and the same is

hereby, appropriated for an inclined floor in the Auditorium; the amount to be expended under the direction of the committee on lands and buildings and charged to the account of incidentals and land damages.

Passed August 11, 1913.

A RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO ERECT VOTING BOOTHS IN THE SEVERAL WARDS OF THE CITY AND APPROPRIATING MONEY THEREFOR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on lands and buildings be, and hereby is, authorized to confer with the supervisors of the several wards of the city and provide necessary voting booths; and that so much as may be necessary of the sum of \$700 be appropriated therefor and charged to the account of incidentals and land damages.

Passed September 17, 1913.

A RESOLUTION APPROPRIATING ONE HUNDRED TWENTY-FIVE DOLLARS TO SETTLE THE CASE OF HEMPHILL V. CONCORD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one hundred twenty-five dollars be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purpose of settling the case of *Hemphill v. Concord*.

Passed October 14, 1913.

A RESOLUTION APPROPRIATING ONE HUNDRED SEVENTY-FIVE DOLLARS TO SETTLE THE CASE OF HIBBARD V. CONCORD.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of one hundred seventy-five dollars be, and the same hereby is, appropriated out of any money in the treasury not other-

wise appropriated for the purpose of settling the case of *Hibbard v. Concord*.

Passed October 14, 1913.

A RESOLUTION APPROPRIATING THE SUM OF FIVE THOUSAND DOLLARS FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of five thousand dollars (\$5,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for incidentals and land damages.

Passed November 10, 1913.

A RESOLUTION APPROPRIATING MONEY FOR GASOLINE PUMP AT CENTRAL FIRE STATION.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the committee on lands and buildings is hereby authorized to expend the sum of one hundred twenty-six and 19-100 dollars (\$126.19) for the installation of a gasoline pump at Central Fire Station; said sum to be charged to the account of incidentals and land damages.

Passed December 8, 1913.

A RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of six thousand one hundred twelve and 21-100 dollars (\$6,112.21) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay outstanding claims as follows:

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected in December, 1910, for one year, and biennially thereafter in November, beginning in the year 1911.

**REPORT OF THE BOARD OF EDUCATION OF UNION
SCHOOL DISTRICT FOR THE YEAR
ENDING MARCH 31, 1914.**

To the Citizens of Union School District:

The work of the past year has been carried on under peculiar difficulties by reason of the overcrowding of the elementary schools, made necessary by the abandonment of the old Walker school. In spite of these drawbacks, however, it has gone on satisfactorily, and the largest number of scholars ever in our schools have been handled with really surprising success in their cramped quarters. With the completion of the new Walker school, the district will be better equipped than for many years past to care for its continually increasing supply of pupils.

The work and needs of our schools are reviewed in detail in the report of the superintendent, which deserves most careful study and consideration by every intelligent citizen. From that report it will be seen that our schools are not merely holding their own, but are making continual and marked progress in adapting the courses and methods of instruction to the varied and changing needs of all classes of our community.

More and more those in charge of our public schools are realizing the folly and injustice of so shaping the educational system as to adapt it solely to the requirements of that very small fraction of our pupils who are to have the benefit of a college education. In the past it has generally been the rule that the mass of our high school pupils, the country over, were pursuing courses of study which, while of course possessing real cultural value, seemed to have no close and vital relation to and offer no adequate preparation for the work which they were to take up at the com-

pletion of their school course. The high school curriculum, to fulfil its true function, must be a development upward from the elementary schools, and must afford sufficient variety to accommodate itself to all the reasonable requirements of the community which it serves. The aim should be so to arrange the courses and methods of instruction as to make it evident to all intelligent parents that the high school offers something which their children ought to have. The remarkable increase in the attendance at our high school, in recent years, indicates that the efforts made in this direction have met with a gratifying measure of appreciation.

In order further to increase the unification of our entire school system, the jurisdiction of the superintendent has during the past year been so extended as to cover the entire high school as well as the elementary schools, and methods of instruction which have met with conspicuous success in lower grades are to be extended, of course with necessary modifications, throughout the entire course. This change, which affords numerous occasions for misunderstandings and friction, has been accomplished with the utmost harmony and good feeling, and in a manner reflecting the highest credit upon all affected by it.

Our schools are not perfect,—the perfect school has yet to be found, but it is our aim to make them as adequate instruments for meeting the educational needs of the district as is possible with the means at our disposal. In carrying out this purpose, we recognize that we are an integral part of the educational system of the state, and will endeavor in every reasonable and possible way to act in harmony with the policies adopted by the State Department of Public Instruction.

One practice has during the past year caused great inconvenience and injury to our schools, notably to the high school. Our teachers are engaged by a contract in writing, signed by them, in which they agree that they will

not resign during the year to accept a position elsewhere. Early in the year a teacher asked that his resignation be allowed, in order that he might accept a very attractive offer from a school in another state. An efficient substitute being secured, the board accepted the resignation. This action seems to have been regarded as a precedent, and since that time several other teachers in the high school have resigned, and have informed the board that if their resignations were not accepted they would go, notwithstanding their contract. In one case we were informed by the teacher that the Board of Education of the place to which she was going had been told of the form of her contract, and had said that they did not care anything about the contract. All these teachers have gone to Massachusetts cities. It is indeed a remarkable thing that those who have been deemed fit to be put in charge of the education of the young in respectable cities should be willing to induce teachers to break their solemn engagements, or should even be willing to accept teachers who would break them. That such could be the case would be incredible were it not for the fact that we have had several such experiences during the present year. Under the circumstances, we must do all in our power to protect our schools from the demoralization consequent upon frequent changes in the teaching force. No teacher is obliged to sign a contract with the district. All who hereafter do so will be given clearly to understand that under no circumstances will they be allowed to resign to accept positions elsewhere, unless the board are of the opinion that the severance of their relations with the district will be for the benefit of our schools. If hereafter a teacher leaves Concord during the school year to take a position elsewhere, the public can understand, either that he has been faithless to his agreements, or that his departure is due to the judgment of the board that our schools will do better with some one else in his place. We know that we do

not pay as large salaries as are paid in some Massachusetts cities. But teachers are glad to contract for them in June. They must be prepared to stand by their contracts in January.

With the few unpleasant exceptions above referred to, the teaching force of the district has shown the highest measure of loyalty and devotion. Concord has an exceptionally fine body of teachers. Only those who have observed the work of schools in less fortunate places can rightly estimate their superior quality. Acting under the zealous and efficient oversight of our superintendent, they are doing for our children a very fine work, which the board and, we are sure, our citizens generally, most highly appreciate.

Respectfully submitted,

EDWARD C. NILES,
DENNIS E. SULLIVAN,

Board of Education.

REPORT OF THE COMMITTEE ON BUILDINGS AND REPAIRS.

To the Board of Education:

The report of your committee each year is made with the idea of keeping you in touch with the general condition of the buildings and grounds. Much public revenue can be wasted by allowing buildings to run down. The money appropriated for repairs we believe to have been expended with reasonable care and judgment. Work involving unusually large expenditures has been let out by contract to the lowest bidder. There exists a difference of opinion about the wisdom of such a course, but it seems to be the best plan for a public corporation to pursue. We find that conscience regarding the fulfilment of such contracts is quite elastic, but we have tried to be strict in adhering to the terms in order to be just to all other bidders. The most important items of work done are enumerated as follows:

Painting the entire interior of the high school.

Painting the zinc trimmings of the Morrill school.

Replacing the old Magee furnaces of the Franklin school with new Stone-Underhill heaters.

Rebuilding the dry cremating closets in the Harriet P. Dame school.

Establishing two new cooking rooms, one each in the Parker and the high schools.

A new urinal for the boys' basement in the Franklin school.

Many of the ceilings in the different school buildings need renewing.

The ventilators of the Harriet P. Dame school should be remodeled so as to prevent the rain and snow from beating in and injuring the interior.

Electric lights should be installed in the Parker school.

Many of the school grounds are being used by people who take short cuts to their destination. The yards are fast becoming eyesores to all. Measures should be taken to protect these grounds from such trespass. Those which are badly used are the Parker, Cogswell and Kimball yards.

A detailed statement of the work done in each building follows:

CHANDLER SCHOOL.

Wood and iron work in basement painted. New book shelves. New basketball racks. New doors to girls' closets. Repairs to boiler. Sink removed. Plastering repaired. Wash bowl repaired. Inside of doors painted. New valve for boiler. Blow-off cock repaired.

EASTMAN SCHOOL.

Windows repaired, glass set. New grates to furnaces.

MORRILL SCHOOL.

Wiring built over to conform to law. Motor wired. Smoke pipe cleaned. Drinking fountain repaired. New muffler to gasoline engine. Outside zinc trimmings painted.

RUMFORD SCHOOL.

May poles. New batteries. Pipe in boys' basement repaired. Furnaces cleaned.

DEWEY SCHOOL.

New book shelves. Floors to teachers' room varnished. Soiled places in walls renewed. Plastering repaired.

New awnings. Kindergarten rings painted. Window-sills painted. Rug cleaned.

FRANKLIN SCHOOL.

New urinal. Bulkhead repaired. New post. New sills for windows in cold-air room. New furnaces entire. New awnings. Seats in closets repaired. Basement walls painted. New pipes in place of frozen trap.

TAHANTO SCHOOL.

New float for flush box. Furnaces cleaned and repaired. Drinking fountain repaired.

KIMBALL SCHOOL.

New valleys on roof. Grates to boilers repaired. Valves to radiators reseated. Fence repaired. Teachers' room varnished. New drinking fountains. New curtains. New tube for boiler.

GARRISON SCHOOL.

Roof repaired. New acripyre. Furnaces cleaned. Radiators in outer halls detached.

PARKER SCHOOL.

Vestibule repaired. New screens. Chairs repaired. Basement door repaired. Hat racks made. Cooking room painted. Flag pole painted. New cooking plant. Boilers packed. New manhole. New valves. Radiator valves renewed. New pipes. Radiators repaired. Water pipes repaired. Coat racks placed in dressing room.

HARRIET P. DAME SCHOOL.

Slate roof repaired. Broken sash renewed. Outside steps repaired. Flag pole painted. Leak in roof repaired. New dry closets. Plastering repaired.

MERRIMACK SCHOOL.

Kindergarten rings painted. Flush-box repaired. Closet seats repaired. Furnace repaired. Plastering patched.

PENACOOK SCHOOL.

New acripyre. Bulkhead repaired. Furnace cleaned. Basement walls painted.

HIGH SCHOOL.

Copper roof repaired. Five new drinking fountains. New birch floor for cooking room. Cooking room painted. New outfit for cooking room. Radiators bronzed. Tables finished. Boiler packed. Fire-boxes relined. New hot-water boiler. New sink and piping for cooking room. Entire interior of the building repainted. New curtain for hall.

COGSWELL SCHOOL.

Furnaces cleaned. Basement walls painted. Basement floors concreted. Bulkhead painted.

Respectfully submitted,

OMAR S. SWENSON,
HARRY H. DUDLEY,
DENNIS E. SULLIVAN,

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District:

LADIES AND GENTLEMEN,—The vital forces which promote and maintain the efficiency of a public school system are many. This efficiency can be measured quite accurately by the number of pupils which are called into the schools, the character and breadth of work offered by the curriculum of studies, the professional preparation of the teaching corps, the progressive aims of administration, and the public will. Educational growth is a clear reflection of the public will. People usually get what they demand. The intercommunication of municipalities is so common and quickly accomplished that civic pride elects to equal if not exceed the opportunities offered by neighboring places. The idea so common in the past that “whatever is right” no longer concerns the thinking public of this twentieth century. Inquiry and research are becoming so keen that nobody can safely shut his eyes and say in regard to public education that because, as of old, a noun still continues a noun and two and two still make four, modern methods and adjustments of educational courses are wrong. These things are not to be dismissed without consideration, nor should the public purse-strings be pulled so tightly as to render impossible the adoption of new rational ideas. It is my privilege each year to call public attention to the larger horizon of the educational world that it may know action is not confined to our local boundaries, that a distinct world movement in educational work is a tremendous force, and that we shall be remiss in our duties if we contribute nothing to it. One of these world movements is along the lines of manual and domestic arts, England furnishing a most noteworthy example of relative advance, perhaps the greatest in the history of education. An-

other, vocational training, must gain its success by the way it is applied in public education. If its application is the outgrowth of the scheme of corporate power to increase the supply of skilled workmen primarily for its own pecuniary gain, the plan will not only fail but in the meanwhile will promote unwholesome conditions during the period of child life which should be devoted solely to general development.

In our own country we note with satisfaction the growing activity of the National Department of Education. Within the year much matter has been sent out bearing upon the following subjects: "The Economy of Time in Education," "School Hygiene," "Comparison of Our Own Educational System with That of Foreign Countries," "Sanitary Schoolhouses," "Reorganization of School Playgrounds," "Special Features in Public School Systems," "Economy in School Expenditures," "Organized Health Work in Schools," "Agriculture in the Public Schools," "Industrial Education," "Open Air Schools" and "The Reorganization of Secondary Schools."

I am giving very briefly a few of the important items:

The average area of school grounds in one city is four acres.

Another city purchased seven acres for a city playground. The school board not having the funds to equip it properly, the public school pupils raised \$4,000 for the purpose by public subscription.

One city reorganized its system for the employment and promotion of its teachers by classifying them according to experience, preparation and success rather than by experience alone. The result appears in the unusually large number who attend summer schools, normal schools and colleges.

The "six-hour-a-day" plan is being adopted quite largely.

The "class sponsor" idea for high schools has gained prominence.

Medical inspection for public schools has revealed the following:

Of the 20,000,000 school children in this country 15,000,000 have physical defects which are a menace to good health; 400,000 have organic heart disease; 1,000,000 have now or have had tuberculosis of the lungs; 1,000,000 have spinal curvature or other moderate deformities; 1,000,000 have defective hearing; 5,000,000 have defective vision; 5,000,000 suffer from mal-nutrition; 6,000,000 have enlarged tonsils or enlarged cervical glands; 10,000,000 have defective teeth, which injure the general health; several millions have a combination of these diseases.

Out of this movement is growing a wider diffusion of knowledge about the condition of school children.

The "open air school" idea proves to be a success wherever it is tried. Not only are these schools good for sick, ill-nourished and tuberculous children but also for the pupils who are in normal health. There is a growing number of people in Concord who are interested in a trial of this scheme in our schools. It could be done without much additional expense in the Walker building.

These are but a very few of the subjects that occupy the thoughts of leading educators, but they serve to reassure us in the knowledge that progress in education measures up with that in other lines of civic improvement.

ATTENDANCE.

COMPARATIVE TABLE.

	1912	1913	Increase	Decrease

No very unusual manifestations in school attendance have been in evidence this year. The annual increase in the total number of pupils is slow, not troubling present accommodations to such an extent as to cause anxiety. The high school attendance is large for a city of this size and it is with no little satisfaction that we note our favorable standing as shown in circular No. 6 sent out by the State Department of Public Instruction. In comparison with other cities of the state having twenty thousand or more population, Concord High School ranked first in per cent. of pupil enrollment based upon the whole number attending in all the schools, and sixth when compared with all the other cities and towns in the state. This good showing may be fairly ascribed to the new scheme of grading, to the practicability and flexibility of the course of study, and to the working of the laws governing labor.

During the summer the old Walker building, erected in 1873, was dismantled to make way for the more commodious structure now in process of construction. This brought about the perplexing problem of accommodating about one hundred fifty pupils more in the Chandler, Kimball, Dewey, Franklin, Merrimack and Tahanto build-

*No school in West Concord this year.

ings, which was not accomplished without much inconvenience to parents, teachers and pupils. I am indebted to them for the generous spirit and kindly forbearance with which this situation was received. It is expected that the new Walker building to be opened in the fall will furnish ample accommodations for many years. During the coming year the new box manufactory at the north end will be put in operation and at the south end undoubtedly a number of employees in the railroad shops will be taken to other places, but these changes will not, in all probability, alter the present conditions to any great extent.

THE LABOR LAWS.

During the year eighty-three employment certificates have been issued from this office and the labor laws have been strictly and faithfully enforced. When not viewed through the eyes of political prejudice, these laws may be said to work great good to the schools and to the child population of the state. While it is to be regretted that their enforcement causes some apparent injustice and creates some conditions that seem illogical and harsh, nevertheless we must bear in mind that no such laws can ever be enacted whose enforcement will be satisfactory to all.

NIGHT SCHOOL.

This school began November 17, 1913, and ended January 27, 1914. The average attendance for the first week was $66\frac{1}{4}$, and for the last week 29. The average for the highest room for the first week was $25\frac{3}{4}$, for the last $9\frac{1}{2}$. The average of the lowest room for the first week was $40\frac{1}{2}$, for the last $19\frac{1}{2}$. Extraordinary efforts were

made to secure a large attendance. In addition to the usual advertising, the efforts of Mr. Clark of the Railroad Y. M. C. A. were enlisted and to him most cordial thanks are due for valuable assistance. Two concerts were given to the school on successive Thursday nights in the hope that they might prove to be a stimulus for increasing the attendance, but the plan failed because many did not care to stay after hours as it made the day too long. In connection with this feature, I extend thanks to Miss Florence Little, Miss A. L. Bean and Mr. C. S. Conant for their contributions in a musical way.

No school was asked for in West Concord this year and therefore none was begun. Your attention is called to the following statistics:

SUMMARY.

	Males	Females	Total
Whole number attending,	82	22	104
Average membership,			55.148
Average daily absence,			13.72
Average daily attendance,			41.42
Age of youngest pupil,			15
Age of oldest pupil,			42
Average age,			23

ROLL OF HONOR.

Vincent Ottobriano, Lony Stotleos, Jim S. Stotleos, Constantin Mamos, Sotalos Martin.

NATIONALITIES.

Swedish, 14; Armenian, 3; Canadian, 18; Finnish, 8; American, 7; Italian, 9; Albanian, 7; Russian, 6; Turkish, 14; Greek, 12; Polandish, 2; Irish, 4.

HIGH SCHOOL.

GROUP I.

This group, made up of the last three years of the school curriculum located in the high school building, is larger than ever before in point of pupil enrollment. With the advent of eight-five new pupils at the beginning of the second semester and the graduation of only six, the capacity of the building is severely taxed. The attendance now has reached 446, the largest number ever registered in the school under the prevailing scheme of grading. Next June sixty will graduate and in the fall between one hundred twenty and one hundred fifty new pupils will enter, which, with the usual number of withdrawals will certainly result in an attendance of over 475. That the building will be crowded is plainly evident. After next year, the number of graduates will approximate the number of new pupils and a normal attendance will result which can be used safely for future calculations.

In the fall the principal was requested to make unusual efforts along the following lines: General discipline, general morale and general scholarship. Noticeable improvements have been made. The school maintains a corps of cadets, a school paper *The Volunteer*, and the athletic activities usually attached to schools of this grade. There are five distinct courses of study: Course I (college preparatory); II, Academic; III, Commercial; IV, Mechanic Arts (boys); V, Domestic Arts (girls).

The enrollment in these courses is as follows:

Course	Boys	Girls	Total
I,	115	161	276
II,	38	58	96
III,	82	185	267
IV,	152	152
V,	81	81
	<hr/>	<hr/>	<hr/>
	387	485	872

PREPARING FOR COLLEGE.

Class	Boys	Girls	Total
M,	11	9	20
N,	10	15	25
O,	3	1	4
P,	4	5	9
Q,	14	6	20
R,	19	1	20
S,	10	2	12
T,	8	4	12
U,	4	2	6
V,	10	4	14
	93	49	142

From this tabulation it appears that out of 872 pupils only 142 or 16+ per cent. intend entering college, leaving the remaining 730 pupils or 83+ per cent., after graduation, to enter upon the various duties of life. For 500 pupils we are maintaining courses III, IV and V. It would seem that many, approximately 80, are taking courses I and II largely for sentiment with no particular end in view, others probably with the delusion that a serviceable education can be gained in no other way.

COURSE I.

Latin and Greek are not now demanded for entrance into college. This fact coupled with the absolutely dead and dry methods of handling the subjects is responsible for their slow elimination from the requirements of the secondary schools. The number now taking Greek in this school is five, which would be increased to seven if classes of one student each were allowed to be formed. The number electing Latin remains about the same as in former years. It is probable that this number may grow

if the rational method of teaching it in the early years is followed throughout the course.

COURSE II.

Course II is really supplementary to Course I, the only difference being in the substitution of one subject for another, and as a distinct course it has little or no significance.

COURSE III.

The idea of this course is to make everything practicable. The continuity of the work has been badly broken by a change of instructors. No matter how much superior the succeeding teacher may be to the one retiring, a break in method and manner during the working period is bound to be keenly felt and should be obviated in the future.

COURSE IV.

The interest in this course for mechanic arts increases year by year, and much work apart from the schedule is done whenever the students get time for it.

COURSE V.

This course of domestic arts for girls is in full operation through class R. Its aims and accomplishments are fully set forth under domestic arts elsewhere in this pamphlet.

Pupils who are fitting for college are given the best attention possible with the conditions which prevail. To some extent individual work is done outside the class recitation. I am quite sure that the segregation of these students, as far as possible, holding them strictly account-

able for the requirements made by the colleges and divorcing all others from such, would bring results worth any additional expense that might be incurred. The failure of students to pass the examinations of the college board may or may not show the quality of work done in a high school. If the student of average ability is recommended for examination and fails after four years of preparation, then it may be assigned to poor teaching and school management.

The best test of efficiency in our high school from the point of college preparation is the fact that since 1906 over one hundred students have entered the various colleges directly from this school.

There are now enrolled in these institutions nearly sixty from Concord, or over twenty per cent. of its graduates have entered college. Returns on file show that, with but two or three exceptions, all have done satisfactory work. Beyond the initial class standing in college, a high school should not be held accountable for the failure of its graduates because the question of environment and the peculiar features of college life may undo their preparation, however excellent it may have been.

ENGLISH.

The English teaching in public schools is under severe criticism from the press of the country. Possibly much of this would be declared unjust if weighed carefully according to the conditions under which the teachers labor. Some of it is just, however, and steps are being taken to correct various faults that are manifest. Vitality in the work is to be brought about through the medium of debates, oral compositions, speeches at imaginary banquets, group work with reports, and dramatizations (in part for the recitation room, in the whole for the hall).

Last year one division in group work composed two

novels, one play and a set of tableaux based on the "Idylls of the King." Guide-books, post-cards, maps of journeys and other forms of illustration are used. Pupils taking Sohrab and Rustum are now preparing the book for delivery before the class. This department needs a combination projector and reflectroscope and I recommend the purchase of one. The lantern owned by the school is made for slides only. The school is now preparing "Cricket on the Hearth" (Dickens) to be given at the end of the term. I cannot commend too strongly the productions of such plays. It is not too much to expect of this school that it produce plays representing the best features of the course in English literature.

STUDY HOURS.

The severe occupation of the building makes it impossible to reserve any rooms for study alone. Considerable work with deficient pupils is done by the teachers in the afternoon. Next year attempts will be made to divorce study from the recitation rooms and to have the study periods more carefully supervised.

STUDY OF GENERAL METHOD.

I regret to report that no movement has yet been made toward having teachers' meetings for the study and discussion of general method. Leaving this to the discretion of each teacher might produce some good, but it can never accomplish what may be gained from interchange of ideas and general discussion coming from an organized body.

LATIN.

In class O a trial is being made of sight reading without review with a short drill on syntax at the beginning

of each recitation. One period a week is given to Latin prose composition.

THE TEACHING FORCE.

There is evidence of a willingness to receive suggestions, to do extra work, and to take an interest in the welfare of the individual pupil. The lack of professional ethics, disregard of honor and the lawlessness which some teachers have shown in breaking solemn contracts between themselves and this district finds its equal only in the spirit displayed by the school boards who have urged them to do so and employed them in the face of contract breaking. Steps are being taken to relieve teachers from much of the drudgery of teaching in order that they may give more attention to their profession. Any system that imposes duties upon a teacher which it takes seven days a week to perform, defeats the object for which it is done and violates individual rights which we are bound to respect.

EQUIPMENT.

The entire seating capacity of the building is now 479. The general equipment is sufficient for carrying on the work. During the summer vacation the entire interior of the building was decorated and now presents an attractive, restful appearance. A new curtain and desk are being made for the hall and an additional room for domestic science was fitted up in the basement.

Many new books have been placed in the library. This leads me to ask that this room be placed in the constant charge of some one who has skill in the care and arrangement of libraries. I am quite sure it can be done without much extra expense.

GENERAL PROGRESS.

I believe the school to be gaining in efficiency and that it compares favorably with other secondary schools conducted under similar conditions. The work of many students is of high order. On the whole there are perhaps too many of average standing, which shows a lack of variation in effort. This can be remedied only through the medium of vitality in recitation caused by life, interest and professional study by the teacher.

Distinct gain has been made in the following particulars: Confining notices of social and athletic activities to the bulletin boards in the hall; observing more closely the bounds beyond which the pupils must not go at recess; working with the home in special cases; reduction of tardy marks.

THE PARKER SCHOOL.

GROUP II.

The purposes with which this school has been conducted and the results achieved are those of former years.

It exemplifies methods of instruction in a modern way. This results in eliminating largely the waste of school time and in maintaining remarkable proficiency in school work. Throughout the entire first semester the building was so badly crowded as to forbid exercises in physical drill which have always formed a distinct feature here. The room of the Board of Education had to be used for recitations.

The usual observance of parents' night took place in the winter term. The pupils conducted an exposition of school work, and an introductory hour was given to dramatizations in English, Latin and French, essays, oral compositions, and music in the hall which was filled with

the parents of the pupils. These exercises were brought to a close with a short address by Hon. H. C. Morrison, State Superintendent of Public Instruction.

Much thought is being given to close correlation of studies so that they may more nearly approach to real life—a plan which arouses energy and interest in the pupil causing him to love his work and strive to his utmost to accomplish it. During the fall term the school began the *six-hour-a-day* plan. The success of this scheme was evident from the beginning as shown by the following results:

A more rational arrangement of study and recitation periods.

A more careful supervision of the studies by the teacher.

A reduction of home study to a reasonable minimum.

A better and easier accomplishment of the work.

The home dinner more fully realized.

A stronger interest shown by the pupils.

A better general scholarship.

The more I study the working of this scheme the better I like it, and I am free to say that for any school which calls its pupils from very long distances it is the best arrangement with which I have had experience, and stands as one of the most desirable steps taken for improving the education of high school pupils. I would recommend it for all schools where extraordinary conditions call for it.

THE CHANDLER, GARRISON AND EASTMAN SCHOOLS.

Whatever has been said about the Parker School is true to a degree of these.

The Chandler School is model in its teachers, school spirit and accomplishments. The conduct of the work upon the departmental plan rounds out more fully the

work in this line begun in the Kimball and the Rumford schools. The methods in use are as distinctly modern and effective and the discipline all that can be desired. The school has a distinct reputation for fine work and entertains many visitors from other towns, but is badly handicapped for want of sufficient room.

Under these conditions the teachers are to be commended for their freedom from complaint.

THE ELEMENTARY SCHOOLS.

I commend to your notice the general excellence of the work done in this group. Each teacher is furnished at the beginning of the year with a typewritten course of study from which she may gain an idea of the amount of work to be done and the general method to be employed. The steps in the various studies are intended to be logically successive resulting from many conferences between the teachers and the superintendent. Beginning with the fifth grade the superintendent gives tests twice each year. These are subject to revision in joint meetings of the teachers and superintendent before they are given to the pupils.

The teachers of each building meet at least once in two weeks to discuss work in connection with their schools and also to pursue the study of some work in pedagogy of acknowledged merit. The results of these meetings are very noticeable in improving the general conduct of the schools. Such gatherings are not only of great educational value to the schools but decidedly economical for the district.

May I be permitted also to call your attention to the great advances being made in many subjects through specific methods in handling them. This is true especially in geography and history and to a great extent in all the other branches. Much thought is now being given

to the proper teaching of the art of spelling both in the oral and the written forms. We hope this eventually may be apparent in increased efficiency in the higher grades. The results of the Palmer system of penmanship are fairly satisfactory in legibility and eminently so in regard to speed in execution.

MORRILL SCHOOL OF MANUAL TRAINING AND MECHANIC ARTS.

ENROLLMENT.

The entire enrollment has been less this year than last, but that of the mechanic arts classes has been larger. The following table shows the growth of the mechanic arts classes:

September, 1908,	10
“ 1909,	27
“ 1910,	56
“ 1911,	71
“ 1912,	93
“ 1913,	110
February, 1912,	96
“ 1913,	99
“ 1914,	128

In February 75 new class K boys were admitted.

EQUIPMENT.

The following equipment was installed during the year:
 One 5½ horse-power electric motor in place of the old 2 horse-power.
 One proof press for printing shop.
 Twenty-four new quick-action vises in room 3.
 One 1 11-16" shaft in place of old 1 3-16" shaft.

Twelve new tables in the drawing-room. These were made entirely by the school and twelve more are being built.

Needed for next year:

Six new lathês for wood-turning.

Four new forges.

One universal grinder.

One gas forge.

WOOD-WORKING.

A large amount of furniture has been made—fifty-eight pieces in all, representing a value of \$800 intrinsically and much more educationally. This is additional to the work of the curriculum.

MACHINE SHOP.

The interest in machine work may be estimated from the fact that seventeen boys of the sophomore class work regularly afternoons doing a part of the junior requirements in advance.

In addition to the regularly scheduled work the following pieces have been made: Four 18 H. P. engines, two 6 H. P. and one 3 H. P. and two bench emery grinders.

PRINTING.

Not quite so much has been accomplished, as a smaller number of boys have elected this work. Eight are taking printing as a special.

The department has turned out the following work during the year from February 13, 1913, to February 12, 1914:

Superintendent's Office.

- 4,000 Programs.
- 100 Postals.
- 500 Truant officer's reports.
- 3,000 Promotion cards.
- 1,000 Reports of pupils leaving school.
- 200 Applications to Dewey Training school.
- 1,150 Prize speaking tickets.
- 35 Postal cards.
- 500 Delivery slips.
- 400 Parker school programs.
- 10,000 Parker school luncheon tickets.
- 1,000 Election cards.
- 4,400 Parents' excuse slips.
- 500 Notices of receipts.
- 500 Study hour slips.
- 2,400 Memorial Day envelopes.
- 500 Postal cards, Board of Education.
- 500 Receipt slips.
- 1,200 Notices of Teachers' course.
- 1,100 Tickets for Teachers' course.
- 2,000 Registration slips.
- 200 Invitations to school musical.
- 28,000 Cards for Parker school.

High School.

- 200 Programs for graduation.
- 1,200 Program cards.
- 400 Ballots for *Volunteer*.
- 500 Blank ballots.
- 1,000 Registration cards.
- 1,000 Traders' National Bank drafts.
- 300 Election cards.
- 300 Tickets for interscholastic debate.
- 800 Programs for interscholastic debate.

- 4,000 Study slips.
- 8,300 Recitation slips.
- 5,000 Geometry papers.
- 100 Lists of graduates.
- 3,500 Library cards.
- 1,000 Letterheads.
- 5,000 Library slips.
- 500 Billheads.
- 800 Programs for dramatic club.
- 600 Programs for debate.
- 300 Tickets for indoor dual meet.
- 300 Tickets for indoor class meet.
- 50 Invitations for High School Club.
- 500 Programs for graduation.
- 100 Letterheads for High School Club.

Morrill School.

- 200 Invitations to visit Morrill school.
- 500 Program cards.
- 1,600 Daily cards.
- 1,600 Registration cards.
- 2,400 Daily cards.
- 1,000 Invitations to mid-year exhibit.
- 2,000 Reports of pupils absent.
- 1,000 Outline of wood-working course.
- 1,000 Invitations to June exhibit.
- 100 Letterheads.
- 500 Receipts for dues, N. H. Man. Training Club.
- 100 Return envelopes, N. H. Man. Training Club.
- 1,000 Letterheads for Morrill school.

DRAWING.

The improvement in this department is decided. Pupils have to work with great diligence to reach the standard. A number of boys are taking drafting as an elective.

INDUSTRIAL CLASS.

The class was discontinued at the end of the semester in January principally for lack of room. This is a matter of regret because some boys will lose from one to two years of school life on this account. Over 70% of those who have graduated have gone to work at trades the rudiments of which were learned in this school. In the future provision may be made for such pupils to take certain lines of regular school work in the public day school and also extra work in manual training at this school.

Work Done by This Class.

Sleeveboard for sewing school.

Repaired two doors at Chandler school.

Made shelf for Runford school.

Repaired five drawing tables for high school.

Took off storm doors, Dewey school.

Put on awnings, Dewey school.

Made board for cooking school.

Removed double windows, Tahanto school.

Removed double windows, H. P. Dame school.

Made two table tops, Kimball school.

Planed thirty bread boards, cooking school.

Made and fitted board for cupboard, cooking school.

Put up blackboard for cooking school.

Put up curtain pole for cooking school.

Repaired screen for Dewey school.

Repaired desk cover for high school.

Repaired two chairs for high school.

Put on storm windows at H. P. Dame school.

Repaired steps, H. P. Dame school.

Cut hole in window sash, Chandler school.

Took off awnings for Dewey school.

Put on storm windows, Dewey school.
Took off awnings for Franklin school.
Repaired umbrella stand, high school.
Made umbrella stand, high school.
Made fifteen drawers for card file, Morrill school.
Moved bank in business department, high school.

TEACHERS.

Several changes in the teaching force have occurred within the year. Mr. Hamill was retired at the end of the spring term. Mr. Kempton went to Dover, N. H., Mr. Chellman went to Pittsburgh, Pa., Mr. Brock, who formerly taught here, was employed, and Mr. Gove enrolled as a student assistant, a scheme which has become an established policy here. The time of the teachers is fully taken up, each one having a regular room and held responsible for its care.

NEW IDEAS.

A new dark-room has been built for special work in photography. A course of lectures pertaining to this work will be given by the principal during this semester.

A reading room and library ought to be added to contain books and current periodicals closely related to the lines of work done here. The moral effect upon the schools would be decidedly helpful as boys who otherwise might drift into places very much less desirable could be induced to spend their afternoons here from 3 to 5 o'clock supplementing their school work by additional reading.

DOMESTIC ARTS.

HIGH SCHOOL.

Cooking—Group II.

Classes M, N, O, P receive instruction in cooking from Miss Adams at the cooking room in the Parker school. During the first semester classes from the Chandler school were taught at this place by Miss Buttrick. At the end of the spring term Miss Helen A. Harrington, who had taught here for a number of years, resigned to accept a position in the northwest. So many girls were electing domestic arts that it was found necessary to employ not only a regular instructor of cooking but also an additional teacher in the high school who could handle the various branches required. Miss Marion B. Adams, of Dorchester, was chosen to succeed Miss Harrington and Miss Marian Buttrick, of Arlington, Mass., was elected for the high school work. The course calls for a teacher who can carry the following subjects: Household mechanical appliances, household sanitation, physiology and hygiene, home nursing, invalid cookery. In addition to the first two branches Miss Buttrick has handled the special classes in cooking and in English.

The work in cooking has been marked by an interest and progress noticeable in many ways. Several girls are making bread for their respective homes, taking pride in the privilege and responsibility accorded them. The class note-books have much more nearly approximated models of neatness and accuracy. The largest number in any class is reported as twenty-six. Fifteen is an ideal number, but it is doubtful if we can be assured of not exceeding it. Last year the numbers were larger than this. At the parents' night in the Parker school the students furnished samples of their work in bread making in the form of loaves, biscuits, Parker House rolls; also, coffee

and lemon jellies, snow pudding, plain and caramel custards, Spanish cream, and plain, sponge and frosted cakes. During the first two weeks of the first semester the following canning was done by the pupils for various people:

- 50 glasses of grape marmalade, with raisins and nuts.
- 6 glasses of grape jelly.
- 30 glasses of spiced grape.
- 20 glasses of crab-apple jelly.
- 2 jars of preserved crab-apple.
- 25 jars of ripe tomatoes.
- 34 jars of preserved peaches.
- 4 jars of picalilli.
- 12 jars of preserved pears.

The housekeeping features of the course have received special attention throughout the year.

The Work of Group I.

The first class to be given this work is enrolled now as class R. It has finished household mechanical appliances and is now taking up household sanitation. Specific method has been outlined for this work to be carried out by the teacher. The work is made as practicable as possible including all forms of illustration, trips to plants, etc. In class Q two lessons a week in household chemistry are given. The special classes of this school in cooking are handled by Miss Buttrick.

MUSIC.

The first three semesters of this work are given over to musical theory and melody writing. The girls of class Q became so proficient that they have done creditable work in composing original, two-part songs. Following this comes work in harmony, and then a study of music for

the home. A Victor horn machine has been purchased for the work to demonstrate the various forms of music appreciation.

SEWING.

The character of the work done in the elementary schools has varied little from that of previous years in method of performing it or in general content.

THE DOMESTIC ARTS CLASSES.

Remarkable improvement is noted in the work of the pupils in classes S, T. These girls started this work two years ago in class O. The gain is noticeable in the amount of garment making. At this writing there are 70 working on dresses and another class begins in a few weeks; 130 girls are working on undergarments. In addition to this those of Q and R classes make their spring and their winter hats. The results of the second trial were greatly superior to those of the first and the improvement is steady and sure.

This department, as well as that of cooking, labors under the disadvantage of having a room too small for its work. If larger and more convenient quarters could be had, the amount of work turned out by the pupils would be increased. The work must be made to correlate quite closely with that of the art department when household decoration is begun.

The exhibition at the end of the year displayed 25 finished kimonos, 40 dresses, and besides the usual model work from the elementary schools, a great variety of undergarments and embroidery.

An exhibition of class work was held on parents' night at the Parker school.

ART.

There are now six classes in the domestic arts course in which sixty-five pupils are enrolled. All the different requirements are being fulfilled. Correlation of dress design and millinery is being carried on in connection with sewing. The history and appreciation of art are being attempted with more or less success. The most useful scheme of accomplishing this remains to be worked out, and will probably be done by its transfer to the history department of the high school, a rearrangement of the order in which it is to be taken up, and by the selection of some text suitable for such work.

The call for the domestic arts class may be known from the fact that with the course but half in operation sixty-five girls are taking it.

The value of this course is not well understood by the parents in general. If a girl is not to take a college course, become a teacher, doctor, lawyer, or a commercial worker, but the mistress of a home, then this course in domestic arts is the one to be chosen. Its prime object is to improve home conditions so that home influence may resume its one time position of being the most powerful factor in sustaining and upbuilding our republican form of government. During the coming year a circular will be printed and sent to the homes in Concord setting forth this course as ideal in its conception, in its make-up, and in its execution. I believe its conception combines more of the cultural with the practical than any other course ever offered in the public schools.

THE TRAINING SCHOOL.

The purposes, scope of work, excellence of instruction and results remain about the same as heretofore. Entrance to these classes is now confined to graduates from

high school courses I and II. The numbers taking training do not vary much from year to year and on graduation they invariably find positions if they seek them. The graduates of this school, through the established rule of the Board of Education, eventually find places in our city schools, meanwhile they are quite well scattered over the country and are always welcomed wherever they may be. The seniors give invaluable assistance to the various schools in the capacity of instructors for backward and deficient pupils.

DRAWING.

The requirements of the domestic arts classes made so great demands upon the time of Miss Stalker that it was found necessary to employ Miss Mary A. Jones as an assistant. Miss Jones seems to have the same measure of success in this work that she did as a regular teacher, which was always worthy of high commendation. Her duties are confined mainly to the first five years. The arrangement already shows its effects in more even sets of drawings, increased interest and confidence among the teachers. Miss Stalker's work is confined to the training classes, seventh year classes and the domestic arts classes.

An exhibition of drawing was held at the Parker school in June and was worthy of the high appreciation bestowed upon it.

The cover design and the title page of this report were designed and drawn by Eva Campbell, '16, and Hazel Jones, '16, respectively, pupils of the domestic arts course.

MUSIC.

The standard of music instruction in our schools has never been higher and I doubt very much if a place can be found where it is so well scheduled as a distinct element in a public school course. This is shown by a keen interest in all musical matters.

There are three good choruses, one in the Chandler school, one in the Parker school and an unusually large one in the high school. There is also an orchestra of merit made up of pupils as follows: High school, 8; Parker school, 5; Chandler school, 6; a total of nineteen members. Rehearsals are held Mondays in the afternoon and the pupils receive credit for this work. The instrumentation is as follows: Seven first violins, six second violins, one viola, two 'cellos, one cornet, one drums and bells, one piano.

This orchestra played before the Concord Musical Club on the sixth of January at a public debate and at two afternoon musicals in the high school hall. I recommend that some of the instruments be purchased and held as property of the district. These would include double bass, viola, trombone and tympani. The work of the elementary schools is constructive and well carried out. The instructor gives special mention to the results attained by the pupils of the Rumford and Penacook schools, asks for chromatic pitch-pipes, and arrangements that will allow more pupils to take chorus singing during the first period in the high school.

KINDERGARTENS.

Owing to crowded conditions the Tahanto kindergarten was given up. The work of these quite essential parts of our school system has been good. The attendance has shown a slight increase. There is a growing movement in the country to make kindergartens a part of the regular system as they should be. The value of this preliminary training has been demonstrated by a long continued existence against the most trying and often uncompromising influences. There has never been a time when they were so generally accepted as they are to-day, due wholly to the spread of the purposes of the instruction, a widening

field of operation, and the steadfastness of their adherents. It is well for Concord that it has this work antecedent to that of the regular schools. The age limits are now from four to six years, which are quite reasonable. The entering age of the primary schools is five years. This is one year younger than is the case in many other places. I recommend that the kindergarten ages be fixed by regulation from four to six years and that the entering age of the primary grades be made six years instead of five.

EVENTS OF THE YEAR.

The John and Molly Stark Societies, Children of the Republic, of the Rumford school, held an open meeting for the D. A. R. on June 6, 1913.

The annual English prize essay contest was held on Saturday, May 4, 1913.

On March 31, 1913, the pupils of the girls' industrial class of the Chandler school furnished a lunch for some members of the Board of Education and the superintendent of schools, six in all, for a total cost of \$0.967. Another lunch was also prepared by one of the cooking classes for seven people for \$1.123. A detailed account of these menus may be found in Appendix I to this report.

Health day was observed by all the schools. The following people spoke at the various schools:

- Dr. Bugbee, high school, girls.
- Dr. Graves, high school, boys.
- Dr. Metcalf, Parker school.
- Dr. Amsden, Rumford school.
- Dr. Hoyt-Stevens, Merrimack school.
- Dr. Day, Kimball school.
- Dr. George Clarke, Dewey school.
- Dr. Wilkins, Penacook school.
- Dr. Kerr, Chandler school.

Dr. Sprague, H. P. Dame school.

Mr. Wallace Purrington, Garrison school.

Miss Mollie Smith, R. N., Franklin school.

Miss Elizabeth R. Murphy, R. N., Rumford, Kimball, Tahanto, Penacook, Cogswell and Eastman schools.

The annual exhibitions of handwork were held at the close of the spring term at the Morrill manual training school; sewing, cooking and drawing at the Parker school.

The Daughters of the American Revolution offered two prizes of \$6 and \$4, respectively, for the two best essays on "The Patriotism of To-day," open to all members of the high school, group I. The contest is to take place at the close of this term.

Rev. Robert Marshall, of Dartmouth College, gave talks to the pupils of the high and the Parker schools on November 17, 1913.

Appropriate exercises were held in all the schools in observance of Columbus Day, Washington's Birthday, Christmas Day, Health Day and Memorial Day.

The second annual pageant of folk dances was held at White Park on June 10, 1913. The program, which included representations from all the elementary schools and kindergartens in the city, was more varied than the preceding one, and was faultlessly carried out to the satisfaction of the thousands of people who witnessed it. It is a matter of regret that we cannot have one this year. The unusual tax placed upon some teachers on account of the giving up of the Walker school will not admit of it. If the schools had the services of one who could direct a strong course in physical culture, including such features as this, I believe the general health and poise of the pupils would be greatly improved.

ECONOMY OF SCHOOL TIME.

The amount of time formerly lost by pupils of the high and Parker schools in going to and from a central cooking room has been obviated by establishing a new cooking room in each building. Such loss will be further reduced when the Walker school building is occupied, facilities for cooking and sewing being well provided for. It may prove desirable, eventually, to establish a manual training room in the basement of the Rumford school building for the accommodation of the Rumford boys and those of the south end parochial schools.

Aside from this one source of economic waste permit me to call your attention to the time lost by closing school for divers reasons. Our allotted school year is thirty-eight weeks in length. The following statement gives a definite idea of conditions which prevail not only here but to a greater or less extent in all other cities:

Days Lost.	Partial Day Losses.
Labor Day,	1 Exercises for Columbus Day.
Columbus Day,	1 Exercises for Washington's
State Teachers' Association,	1 Birthday.
Thanksgiving recess,	2 Exercises for Memorial Day.
New Year's Day,	1 Exercises for Christmas Day.
End of first semester,	1 Exercises for Folk Games.
Washington's Birthday,	1 Exercises for Health Day.
Merrimack Valley Teachers'	
Association,	2
Fast Day,	1
Memorial Day,	1
Last day of year,	1
	—
	13

A loss of three weeks' school time would surely result from the above tabulation without counting one sessions

and no sessions on account of inclement weather. In view of this we are asked to do in thirty-eight weeks that for which Massachusetts cities are allowed forty. Certainly some plan should be devised by which all or a part of this time shall be restored. I wrote somewhat at length in my last report about the misuse of periods allotted to recitation. This waste was much more noticeable in the old days than now. The floggings, wrangles and other unseemly practices have virtually passed away and, through professional training of teachers, have given place to a friendly relation between teacher and pupil, improved methods of teaching and a more earnest desire in the pupil to attend school. The amount of time saved for school work by the elimination of such useless practices can be answered best by noting a greater amount of work done, much better, in four years less time than it was when "barring out" and red pepper practices were in vogue. There still remains with a few the tendency to use the recitation time for disciplinary matters which would better be handled at some other time and in some other way. The recitation period has a more dignified function and should not suffer from such encroachments. It may be of value to direct your attention to the waste in forcing a curriculum of studies upon unwilling, abnormal and lazy pupils. All these different types obtain in all schools and Concord is no exception. The unwilling is being educated by injunction, either from parental decision or by public statute, often both. The abnormal is in school either because his parent is unwilling to admit of his being so or because he is too poor to send his child to an institution maintained specially for such children. The lazy pupil is there usually because he has no liking for hard work and wishes to prolong his school life for no other reason. He is the most undesirable of all for he offers no example that is commensurate with his ability, continually misleads his parents, and does more real harm

to the school than the others combined. He is constantly troublesome but always within the limit, always attracting followers and evading, as far as possible, the school regulations. Many of these pupils are capable of taking a high standing but care to gain only a passing mark. Pupils struggling the best they can for creditable work, yet attaining hardly mediocrity, deserve vastly more than do these capable idlers who seek to defeat the purpose for which man was created—to work. My deductions are drawn from long personal experience, the testimony of teachers and admissions of the pupils themselves. The one great function of all school systems should be to provide its pupils with enough of that which they seek to evade—hard work.

In closing this report, I wish to testify to the great concern of the Board of Education for the upbuilding of our schools, the readiness to consider new ideas and to adopt measures for bringing them about.

I am pleased to credit the corps of teachers with being responsible for the largest measure of success which may have been realized during the past busy year. With the same earnest concern we hope to return to the public, another year, a still better account for the money expended in maintaining their schools.

Respectfully submitted,

L. J. RUNDLETT,

Superintendent.

APPENDIX I

APPENDIX I.

CONCORD, N. H., September 25, 1913.

To the Board of Education of Union School District:

I submit herewith the third semi-annual report of the condition of the schools under the reorganization scheme inaugurated in 1910.

FINANCIAL.

The deductions under this head are based somewhat upon estimates, but they are made with conservatism and result largely from comparisons and the combined judgment of business men, teachers and others.

Bond issue which would have been incurred for enlarging new high school building,	\$30,000
Interest on same for three years at 3½ per cent.,	3,150
Current expenses,	4,500
Rooms discontinued,	1,950
Additional tuition,	688
Graduation expenses,	3,000
	<hr/>
	\$43,288

The average cost per pupil has been reduced as may be seen from the following table:

	High School.	Elementary Schools.	Average.
1909-1910 (old plan),*	\$33.14	\$14.76	\$23.95
1910-1911 (new plan),	29.28	15.80	22.54
1911-1912 (new plan),	26.24	14.09	20.28
1912-1913 (new plan),†	28.09	18.03	23.06‡

Decrease in average cost per pupil over old plan, \$0.89.

Increase in average cost per pupil over last year,† \$2.78.

* This year the high school four years and elementary schools eight years.

† Increase due to raising the salaries of teachers by about \$6,000.

‡ The average cost per pupil under the old plan of salary schedule would have been \$21.35 or \$2.60 less than under 1910.

THE TUITION RECEIPTS.

	High School.	Elementary Schools.
1909-1910,	\$1,577.39	\$576.66
1910-1911,	1,863.37	453.97
1911-1912,	2,301.31	454.90
1912-1913,	3,603.24	603.92
Increase in 3 years,	2,025.85*	
Increase in 3 years,		27.26
Net increase in 3 years,	\$2,053.11.†	

TEACHERS.

It is all-important that the equipment of the teaching force be kept up to the standard. The upper grades have suffered heavily because many teachers were induced to take positions elsewhere by the offer of larger salaries. This had a bad effect upon the general standing of the school. The recruiting force for classes M and N has been drawn from the ranks of the elementary teachers who have taken and are now taking courses in standard summer schools. The state requires study of at least two summers for certification for these grades. These teachers usually prove to be efficient for this work because their grade experience supplemented by extended study renders their services particularly desirable just at this point in the course. It is quite necessary that the teachers of group I should become quite familiar with the character of the work done in group II so that they may shape their methods of instruction toward uniformity in carrying on the thorough work of these schools. Concerted harmony of spirit and work is all essential toward maintaining the high standard which we require.

* This increase is due partly to raising the rate of tuition from \$45 to \$55, so that under the former rates these should read *\$1,575.67, †\$1,602.92.

GENERAL SCHOLARSHIP.

The general efficiency of school work under the prevailing plan is evidenced through personal observation and tabulated results. A careful inspection of the tabulations given herewith shows a general gain over last year and a very decided gain over 1910, the last year under the old plan.

The number of pupils attaining a mark of A— or better was .06 per cent. larger than last year.

The number of pupils attaining a mark of B— or better was .43 per cent. less than last year.

The number of failures was 25 less than last year.

The number of pupils leaving school for good was 54, the same as last year.

By comparisons from various sources I can say with the utmost confidence that general scholarship of the schools has attained a much higher standard than it did under the old scheme of grading. For instance, comparing the results attained by the school of 1909-1910, the last year under the old scheme, with that of the last year's class, 1912-1913, we find the high school (4 years) under the old scheme averaged 76.15 per cent. That of last year averaged 80.77 per cent. Assuming the pupils to be of the same ability this shows that the average scholarship has increased 4.62 per cent. If my memory serves me correctly, I believe the school of 1909-1910 was superior in native ability to last year's class.

BY CLASSES.

	1909-'10.	1912-'13.	Increase.	Decr'se.
Senior class average for year,	78.66%	81.10%	2.44%	
Junior class average for year,	77.48	76.23		1.25
Soph. class average for year,	78.56	82.09	3.53	
Fresh. class average for year,	69.91	83.69	13.78	
	-----	-----	-----	-----
	76.15	80.77	19.75	1.25

What is particularly significant in the above table is the fact that the freshman class of last year, a class inferior in natural endowment to the one of 1910, showed a gain of 13.78 per cent. in scholarship. This can be ascribed to nothing but its isolation from the upper classes, its divorced attention from athletics, and not the least to the superior teaching it was fortunate to receive.

The work of the elementary schools shows gain in some respects and a loss in others. There is a loss of .58 per cent. over last year in A— pupils and a loss of .94 per cent. in B— pupils. The number of failures is 14.42 per cent. less than last year. As a general thing the results are about average.

ATTENDANCE.

The growth in high school attendance may be ascribed to four different things. The improvement in laws regarding compulsory attendance at school, the enrichment of the courses of study, the improvement in methods of teaching, and the general effect of the system of regrading.

	1909-1910	1912-1913
Whole number attending the high school (4 yrs.),	467	615
Per cent. of whole number enrolled attending high school (4 yrs.),	16.42	21.76
Whole number attending high school (5 yrs.),	677	867
Per cent. of whole number enrolled attending high school (5 yrs.),	23.81	30.67

Another significant fact is that the number leaving school has shown a very decided decline. This may be justly ascribed largely to the present system of grading. From the following table one may note improvement in nearly every item, the greatest being shown in the freshman class,

which is segregated from the three highest years of the high school.

	No. pupils.	No. left school.	Per cent. of whole number.	Increase.	Decrease.
High School (4 yrs.).					
1909-1910,	481	64	13.30		
1912-1913,	607	53	8.73		4.57
<i>Senior Class.</i>					
1909-1910,	64	3	4.68		
1912-1913,	85	4	4.70	.02	
<i>Junior Class.</i>					
1909-1910,	96	9	9.37		
1912-1913,	100	9	9.00		.37
<i>Sophomore Class.</i>					
1909-1910,	143	23	16.08		
1912-1913,	174	21	12.07		4.01
<i>Freshman Class.</i>					
1909-1910,	178	29	16.27		
1912-1913,	248	19	7.66		8.61

GROWTH OF HIGH SCHOOL (AVERAGE MEMBERSHIP).

1910,	2,843	757*	457	26.62	16.07
1909,	2,856	644*	372	22.54	13.02
1908,	2,877	583*	350	20.26	12.16
1907,	2,886	541*	340	18.74	11.73
1906,	2,846	532*	322	18.69	11.31
1905,	2,839	509*	307	17.92	10.81
1904,	2,908	490*	285	16.85	9.80

* Under the old scheme of grading.

TABLE SHOWING VARIATIONS IN THE AVERAGE AGE OF PUPILS.
GRADES.

YEAR.	1	2	3	4	5	6	7	8	9	10	11
	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.
1910	6.10½	8.5½	9.4½	10.7½	12.½	13.6	14.3	14.6	15.6	16.6	17.6
1911.....	7.½	8.4	9.8	10.9	11.11	13.2	14.1	15.10	17.6	17.8	18.3
1912.....	7.	8.3½	9.7½	10.9½	11.9	12.10	14.6	15.1	17.	17.5	18.8
1913.....	8.2	9.6½	11.4½	11.8	11.5½	13.10	14.6	16.1	16.5	17.5	18.7
Increase..	1.3½	1.1	2.	1.½	.5	.4	.3	1.7	.11	.11	1.1

The increase in the average age per pupil is a surprise to me and I can find nothing to account for it unless it be that pupils are staying in school who otherwise would have dropped out after the elementary grades were finished and that parents are voluntarily holding their children until they are older. Both of these things are favorable and strengthening.

HIGH SCHOOL.

Group 1.

The number of A— pupils was 30, representing a gain of 3.69 per cent. over last year.

The number of pupils leaving school was 19, representing a gain of .37 per cent. over last year.

The number of B— pupils was 167, representing a loss of 6.15 per cent. over last year.

The number of failures was 22, representing a loss of 1.46 per cent. over last year.

CLASSES Q AND R.

	1910.				1911.			
	No. pupils		Failed.	Per cent.	No. pupils		Failed.	Per cent.
	enrolled.	Passed.		failed.	enrolled.	Passed.		failed.
Geometry,	128	112	16	12.5	115	90	25	21.73
English,	124	122	2	1.61	109	105	4	3.66
Latin,	53	49	4	7.54	35	32	3	9.37
Greek,	4	4	0	0	6	6	0	0
French,	120	107	13	10.83	121	103	18	14.05
C. Arith.,	39	35	4	10.25	42	31	11	26.19
	1912.				1913.			
	No. pupils		Failed.	Per cent.	No. pupils		Failed.	Per cent.
	enrolled.	Passed.		failed.	enrolled.	Passed.		failed.
Geometry,	122	112	10	8.19	57	46	11	19.3
English,	111	109	2	1.80	113	111	2	1.76
Latin,	36	36	0	0	21	21	0	0
Greek,	3	3	0	0	5	5	0	0
French,	113	89	24	21.23	102	97	5	4.90
C. Arith.,	44	42	2	4.54	73	68	5	6.85

The above table is made up from annual reports of the entering class. In geometry the number of failures was larger than usual which may be ascribed to the book being new both to teacher and pupils.

In English the per cent. of failures was somewhat reduced over last year.

In Latin there has not been a failure for two years. This may justly be accredited not only to efficient teaching but to the excellent preparation the pupils get in group 2.

The number of failures in French was reduced over those of last year by 16.33 per cent.

Commercial Arithmetic showed a loss of 2.31 per cent.

The showing of the last two years by classes entering this group would seem to refute any statements that may have been made about their being badly fitted for this school.

The general average of the school in scholarship was 79.90 per cent.

PARKER SCHOOL.

Group 2.

The number of A— pupils was 28, representing a loss of 2.50 per cent. over last year.

The number of B— pupils was 146, representing a gain of 3.32 per cent. over last year.

The number of pupils leaving school was 10, representing a gain of 1.14 per cent. over last year.

The number of failures was 11, representing a gain of 1.60 per cent over last year.

Classes.	No. pupils.	1910.				No. pupils.	1911.			
		A—	B—	Failed.	Left school.		A—	B—	Failed.	Left school.
O, P,	143	38	39	17	28	185	31	68	13	22

Classes.	No. pupils.	1912.				No. pupils.	1913.			
		A—	B—	Failed.	Left school.		A—	B—	Failed.	Left school.
O, P,	232	32	127	14	16	243	23	146	11	19

The work done here speaks for itself. There is little time lost to activities that do not either directly or indirectly aid the pupils in their regular work.

The general average of the school in scholarship was 84.30 per cent.

CHANDLER, WALKER, GARRISON AND EASTMAN SCHOOLS.

Group 2.

The number of A— pupils was 25, representing an increase of 4.72 per cent. over last year.

The number of B— pupils was 89, representing an increase of 7.91 per cent. over last year.

The number of pupils leaving school was 12, representing an increase of .54 per cent. over last year.

The number of failures was 17, representing a decrease of 3.50 per cent. over last year.

	Per cent. A— pupils.							
	1911.	1912.	Increase.	Decrease.	1912.	1913.	Increase.	Decrease.

I find nothing in the working of the scheme that is not desirable and economical. It is worthy of notice that there is a decided movement throughout the country along lines approximating those of our graded system. Methods of economizing school time, school expenditure and plans of keeping pupils in school longer are in process of evolution resulting from scientific experiments and legislative enactments. Along this line comes the necessity of varying the requirements in high school for those pupils who are not to take a college course. That a pupil in the commercial course or domestic arts course should be compelled to meet the requirements of college entrance courses in English is absurd. The very fact that such things are demanded causes a lack of interest, influencing many to leave school who otherwise might continue to their own advantage. The next problem should be a careful readjustment of the requirements for the various high school courses and legislation requiring the study of modern methods of teaching by the teachers of every grade.

Respectfully submitted,

L. J. RUNDLETT,
Superintendent.

REPORT OF SCHOOL NURSE.

Mr. L. J. Rundlett, Superintendent:

DEAR SIR,—I herewith submit for your approval my fourth annual report. The work has been conducted practically on the same plan as in previous years with the exception of devoting considerable time to dental hygiene.

Through the interest of Dr. Harold Plaisted three hours a week have been given by him to the care of the teeth of children unable to pay for treatment. This experiment has produced wonderful results in promoting the general health of the children.

By keeping in constant touch with the Board of Health I feel that a certain amount of contagion is eliminated from our schools; but this is not sufficient—we need expert medical supervision.

We have laws compelling parents to send their children to school and we certainly have not the right to keep them there without proper care. Not only the protection of the well child should be thought of, but the care of the child who is ill. This supervision should come through a medical inspector, assisted by a nurse. As a nurse in no sense is a diagnostician, one without the other is insufficient and should no longer be considered.

All public health workers are in a great sense social workers, and a school nurse is fast becoming a great factor in social work between the school and the home. Wonderful results could be obtained in this way if a little more time could be given. By close co-operation between the Charity Organization Society and the Visiting Nurses' Association, much good has been accomplished.

I acknowledge with gratitude and appreciation the kind-

ness of those who have so generously helped in this work, and to the physicians who have so loyally supported me in my efforts.

APPENDIX II.

GENERAL SCHOLARSHIP.

The general efficiency of school work under the prevailing plan is evidenced through personal observation and tabulated results. A careful inspection of the tabulations given herewith shows a general gain over last year and a very decided gain over 1910, the last year under the old plan.

The number of pupils attaining a mark of A— or better was .06 per cent. larger than last year.

The number of pupils attaining a mark of B— or better was .43 per cent. less than last year.

The number of failures was 25 less than last year.

The number of pupils leaving school for good was 54, the same as last year.

By comparisons from various sources I can say with the utmost confidence that general scholarship of the schools has attained a much higher standard than it did under the old scheme of grading. For instance, comparing the results attained by the school of 1909-1910, the last year under the old scheme, with that of the last year's class, 1912-1913, we find the high school (4 years) under the old scheme averaged 76.15 per cent. That of last year averaged 80.77 per cent. Assuming the pupils to be of the same ability this shows that the average scholarship has increased 4.62 per cent. If my memory serves me correctly, I believe the school of 1909-1910 was superior in native ability to last year's class.

BY CLASSES.

	1909-'10.	1912-'13.	Increase.	Decr'se.
Senior class average for year,	78.66%	81.10%	2.44%	
Junior class average for year,	77.48	76.23		1.25
Soph. class average for year,	78.56	82.09	3.53	
Fresh. class average for year,	69.91	83.69	13.78	
	—	—	—	—
	76.15	80.77	19.75	1.25

What is particularly significant in the above table is the fact that the freshman class of last year, a class inferior in natural endowment to the one of 1910, showed a gain of 13.78 per cent. in scholarship. This can be ascribed to nothing but its isolation from the upper classes, its divorced attention from athletics, and not the least to the superior teaching it was fortunate to receive.

The work of the elementary schools shows gain in some respects and a loss in others. There is a loss of .58 per cent. over last year in A— pupils and a loss of .94 per cent. in B— pupils. The number of failures is 14.42 per cent. less than last year. As a general thing the results are about average.

ATTENDANCE.

The growth in high school attendance may be ascribed to four different things. The improvement in laws regarding compulsory attendance at school, the enrichment of the courses of study, the improvement in methods of teaching, and the general effect of the system of regrading.

	1909-1910	1912-1913
Whole number attending the high school (4 yrs.),	467	615
Per cent. of whole number enrolled attending high school (4 yrs.),	16.42	21.76
Whole number attending high school (5 yrs.),	677	867
Per cent. of whole number enrolled attending high school (5 yrs.),	23.81	30.67

Another significant fact is that the number leaving school has shown a very decided decline. This may be justly ascribed largely to the present system of grading. From the following table one may note improvement in nearly every item, the greatest being shown in the freshman class,

which is segregated from the three highest years of the high school.

	No. pupils.	No. left school.	Per cent. of whole number.	In-crease.	De-crease.
High School (4 yrs.).					
1909-1910,	481	64	13.30

TABLE SHOWING VARIATIONS IN THE AVERAGE AGE OF PUPILS.

GRADES.

YEAR.	1	2	3	4	5	6	7	8	9	10	11
	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.	y. m.
1910	6.10½	8.5½	9.4½	10.7½	12.½	13.6	14.3	14.6	15.6	16.6	17.6
1911.....	7.½	8.4	9.8	10.9	11.11	13.2	14.1	15.10	17.6	17.8	18.3
1912.....	7.	8.3½	9.7½	10.9½	11.9	12.10	14.6	15.1	17.	17.5	18.8
1913.....	8.2	9.6½	11.4½	11.8	11.5½	13.10	14.6	16.1	16.5	17.5	18.7
Increase ..	1.3½	1.1	2.	1.½	.5	.4	.3	1.7	.11	.11	1.1

The increase in the average age per pupil is a surprise to me and I can find nothing to account for it unless it be that pupils are staying in school who otherwise would have dropped out after the elementary grades were finished and that parents are voluntarily holding their children until they are older. Both of these things are favorable and strengthening.

HIGH SCHOOL.

Group 1.

The number of A— pupils was 30, representing a gain of 3.69 per cent. over last year.

The number of pupils leaving school was 19, representing a gain of .37 per cent. over last year.

The number of B— pupils was 167, representing a loss of 6.15 per cent. over last year.

The number of failures was 22, representing a loss of 1.46 per cent. over last year.

CLASSES Q AND R.

	1910.				1911.			
	No. pupils		Per cent.		No. pupils		Per cent.	
	enrolled.	Passed.	Failed.	failed.	enrolled.	Passed.	Failed.	failed.
Geometry,	128	112	16	12.5	115	90	25	21.73
English,	124	122	2	1.61	109	105	4	3.66
Latin,	53	49	4	7.54	35	32	3	9.37
Greek,	4	4	0	0	6	6	0	0
French,	120	107	13	10.83	121	103	18	14.05
C. Arith.,	89	35	4	10.25	42	31	11	26.19

	1912.				1913.			
	No. pupils		Per cent.		No. pupils		Per cent.	
	enrolled.	Passed.	Failed.	failed.	enrolled.	Passed.	Failed.	failed.
Geometry,	122	112	10	8.19	57	46	11	19.3
English,	111	109	2	1.80	113	111	2	1.76
Latin,	36	36	0	0	21	21	0	0
Greek,	3	3	0	0	5	5	0	0
French,	113	89	24	21.23	102	97	5	4.90
C. Arith.,	44	42	2	4.54	73	68	5	6.85

The above table is made up from annual reports of the entering class. In geometry the number of failures was larger than usual which may be ascribed to the book being new both to teacher and pupils.

In English the per cent. of failures was somewhat reduced over last year.

In Latin there has not been a failure for two years. This may justly be accredited not only to efficient teaching but to the excellent preparation the pupils get in group 2.

The number of failures in French was reduced over those of last year by 16.33 per cent.

Commercial Arithmetic showed a loss of 2.31 per cent.

The showing of the last two years by classes entering this group would seem to refute any statements that may have been made about their being badly fitted for this school.

The general average of the school in scholarship was 79.90 per cent.

PARKER SCHOOL.

Group 2.

The number of A— pupils was 28, representing a loss of 2.50 per cent. over last year.

The number of B— pupils was 146, representing a gain of 3.32 per cent. over last year.

The number of pupils leaving school was 10, representing a gain of 1.14 per cent. over last year.

The number of failures was 11, representing a gain of 1.60 per cent over last year.

The work done here speaks for itself. There is little time lost to activities that do not either directly or indirectly aid the pupils in their regular work.

The general average of the school in scholarship was 84.30 per cent.

CHANDLER, WALKER, GARRISON AND EASTMAN SCHOOLS.

Group 2.

The number of A— pupils was 25, representing an increase of 4.72 per cent. over last year.

The number of B— pupils was 89, representing an increase of 7.91 per cent. over last year.

The number of pupils leaving school was 12, representing an increase of .54 per cent. over last year.

The number of failures was 17, representing a decrease of 3.50 per cent. over last year.

I find nothing in the working of the scheme that is not desirable and economical. It is worthy of notice that there is a decided movement throughout the country along lines approximating those of our graded system. Methods of economizing school time, school expenditure and plans of keeping pupils in school longer are in process of evolution resulting from scientific experiments and legislative enactments. Along this line comes the necessity of varying the requirements in high school for those pupils who are not to take a college course. That a pupil in the commercial course or domestic arts course should be compelled to meet the requirements of college entrance courses in English is absurd. The very fact that such things are demanded causes a lack of interest, influencing many to leave school who otherwise might continue to their own advantage. The next problem should be a careful readjustment of the requirements for the various high school courses and legislation requiring the study of modern methods of teaching by the teachers of every grade.

Respectfully submitted,

L. J. RUNDLETT,
Superintendent.

REPORT OF SCHOOL NURSE.

Mr. L. J. Rundlett, Superintendent:

DEAR SIR,—I herewith submit for your approval my fourth annual report. The work has been conducted practically on the same plan as in previous years with the exception of devoting considerable time to dental hygiene.

Through the interest of Dr. Harold Plaisted three hours a week have been given by him to the care of the teeth of children unable to pay for treatment. This experiment has produced wonderful results in promoting the general health of the children.

By keeping in constant touch with the Board of Health I feel that a certain amount of contagion is eliminated from our schools; but this is not sufficient—we need expert medical supervision.

We have laws compelling parents to send their children to school and we certainly have not the right to keep them there without proper care. Not only the protection of the well child should be thought of, but the care of the child who is ill. This supervision should come through a medical inspector, assisted by a nurse. As a nurse in no sense is a diagnostician, one without the other is insufficient and should no longer be considered.

All public health workers are in a great sense social workers, and a school nurse is fast becoming a great factor in social work between the school and the home. Wonderful results could be obtained in this way if a little more time could be given. By close co-operation between the Charity Organization Society and the Visiting Nurses' Association, much good has been accomplished.

I acknowledge with gratitude and appreciation the kind-

ness of those who have so generously helped in this work, and to the physicians who have so loyally supported me in my efforts.

Number of visits made at schools,	104

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the Inhabitants of Union School District in Concord, N. H., qualified to vote in district affairs:

You are hereby notified to meet in the Auditorium on Prince Street, in said district, on the third day of April, 1913, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years to fill vacancies arising from the expiration of the term of office of George H. Moses, Alice M. Nims, and Harry H. Dudley and to fill any other vacancies that may occur in said board.
5. To choose one or more auditors and other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year including industrial education, military drill and medical inspection.
8. To see if the district will vote to erect a new school building or to enlarge the existing building upon the lot now occupied by the Walker school building, appoint a committee with power to erect the same, to raise and appropriate money and authorize a contract with the City

of Concord for its credit as contemplated by the laws of the State of New Hampshire, and take such other or further action as may be necessary to the completion of the premises.

9. To transact any other business that may legally come before said meeting.

Given under our hands this tenth day of March, 1913.

FANNY E. MINOT,
ALICE M. NIMS,
DENNIS E. SULLIVAN,
OMAR S. SWENSON,
CARRIE E. EVANS,
EDWARD C. NILES,
WILLIAM H. SAWYER.

Board of Education of Union School District.

I certify that on the eighteenth day of March, 1913, I posted a copy of the written warrant attested by the Board of Education of said district, at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

L. J. RUNDLETT.

CONCORD, N. H., March 24, 1913.

Personally appeared before me, on this date, the said Louis J. Rundlett, and made oath that the above certificate by him signed is true.

GEORGE N. FELLOWS,
Justice of the Peace.

In accordance with the foregoing warrant, a meeting of the legal voters of Union School District was held at the Auditorium, in the city of Concord, on Thursday, April 3, at 7.30 o'clock in the evening.

In the absence of the moderator, John B. Abbott, the meeting was called to order by the clerk, Louis C. Merrill, Esq.

ARTICLE 1. Henry H. Metcalf moved, and it was seconded, that Rev. Howard F. Hill be elected moderator *pro tem*, the clerk to cast the ballot. Carried. The clerk attended to the duty assigned, and declared Mr. Hill elected clerk *pro tem*. He was sworn to the discharge of his duties by Louis C. Merrill, justice of the peace.

The moderator read the warrant and called for a ballot for moderator.

Mr. Harry H. Dudley moved and it was seconded that Howard F. Hill cast one ballot for Louis C. Merrill for moderator of the district. Carried. Mr. Hill attended to the duties assigned, and Mr. Merrill was declared elected.

He was sworn to the discharge of his duties by Henry E. Chamberlin, justice of the peace.

ART. 2. On motion of Henry H. Metcalf, duly seconded, it was voted that the moderator cast one ballot for Fred Leighton for clerk, and he was declared elected. The oath of office was administered by Louis C. Merrill, justice of the peace.

ART. 3. On motion of Henry E. Chamberlin, duly seconded, it was voted that the reports of the Board of Education, the financial agent and other officers of the district be accepted and ordered on file without reading.

ART. 4. On motion of Henry H. Metcalf, duly seconded, it was voted that the district proceed to vote for three members of the Board of Education for three years each, on one ballot, and that the polls be kept until 8.45 p. m.

To a question of George A. Wooster, of ward seven, the moderator ruled that families annexed to Union School District by act of the present legislature had a right to vote at this meeting. On motion of Mr. Henry H. Metcalf, duly

seconded, it was voted that three tellers be appointed to sort and count the votes, one by the friends of Mrs. Margaret M. Lee, one by the friends of Mrs. Lillian R. Shepard, and one by the moderator to represent the district.

Howard F. Hill was named for Mrs. Lee.

Henry E. Chamberlin was named for Mrs. Shepard.

The moderator named Arthur F. Sturtevant.

Mr. Chamberlin not appearing, Mr. A. H. Knight, of West Concord, was substituted.

On motion of Harry H. Dudley, duly seconded, it was voted to proceed to a consideration of the other articles on the warrant.

ART. 5. On motion of Edward S. Cummings, duly seconded, it was voted that the clerk cast one vote for John P. George and Henry H. Metcalf as auditors of the district.

The clerk cast the ballot, and the gentlemen named were declared elected.

ART. 6. Mr. W. T. McLam presented the following resolution: *Resolved*, That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District the sum of twelve thousand and four hundred sixty dollars (\$12,460), of which sum seven thousand dollars (\$7,000) shall be appropriated for the payment of the bonds of the district maturing October 1, 1913, and five thousand four hundred sixty dollars (\$5,460) for the payment of the interest on its bonded debt accruing during the year. Mr. McLam moved the adoption of the resolution, and on the second being recorded, it was carried unanimously.

ART. 7. Harry F. Lake, Esq., presented the following resolution and moved its adoption: *Resolved*, That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District for the support of schools for the ensuing year, such a sum as in

addition to the sum assigned to the district by the city of Concord out of its appropriation for schools will amount to the sum of ninety-six thousand seven hundred forty-eight and nine hundredths dollars (\$96,748.09). Carried unanimously.

ART. 8. Rev. George H. Reed, D. D., presented the following and moved its adoption:

Voted, That a school building be erected and equipped upon the Walker school lot with accommodations for at least four hundred and fifty pupils, either by altering and adding to the building now standing on said lot or by the erection of a new building as the Board of Education may by vote determine, and that the Board of Education of Union School District be and hereby are appointed a committee with authority to determine the location of said school building upon said Walker school lot, to erect and furnish said building, to employ architects, agents and such other assistants as they may require and in the name and on behalf of Union School District to do such other acts and enter into such contracts and agreements as may be necessary to carry this vote into effect; that the sum of fifty thousand dollars (\$50,000) be and the same is hereby appropriated for the erection and completion of said building; that the indebtedness of the district arising from the erection, equipment, and completion of said building be funded at a rate of interest not exceeding four per cent. (4%) per annum and that a sufficient sum of money be assessed upon the polls and ratable estates within Union School District on the first day of April in each year thereafter to meet the payments of the interest and the principal of said indebtedness at the date or dates of maturity of the principal and interest as the same may be fixed, as hereinafter provided; and that the money obtained by said assessments be and hereby is appropriated to make said payments; that the district request the city of Concord

to aid in funding the indebtedness of the district arising from the construction and the furnishing of said school building as the city is authorized to do by law, provided said city will borrow the money necessary for the purpose set forth in this vote and will allow the district to have the use of the money so borrowed, and further, that, if this request is complied with, the district will seasonably pay the city sufficient sums of money to enable the city to meet the payments of the principal and interest upon this indebtedness so created, as the same may fall due, and all incidental expenses, and will apply the money to be raised, as herein provided, to the payments aforesaid; and said committee is hereby further authorized to make and request of the city the date or dates when the principal of said indebtedness and the interest thereon shall mature, and do all other acts and things necessary to carry this vote into effect.

Henry H. Metcalf moved to substitute for the recommendation of the board a motion that a committee of five to consist of Harry H. Dudley, Carrie E. Evans, Dr. George M. Kimball, DeWitt C. Howe and John P. George be elected to investigate the subject contained in the report of the board and to report recommendations at an adjourned meeting to be held two weeks from to-night.

Discussion followed, at the conclusion of which the motion of Mr. Reed, duly seconded, was carried.

Mr. George W. Phillips presented the following resolution:

Resolved, That Union School District build a new school building of granite (of the rock face, broken, ashlar type, with Hammond trimmings), using the brick in the old building for interior walls, said building to be sufficiently monumental to properly mark the spot where legislature of this state ratified the constitution of the United States.

On motion of Howard F. Hill the district voted to refer the resolution to the Board of Education.

The hour of 8.45 having arrived the moderator declared the polls closed and announced the result of the balloting, as follows:

Whole number cast,	1,386
Necessary for choice,	694
Harry H. Dudley had	1,053
George H. Moses,	1,039
Lillian R. Shepard,	813
Margaret M. Lee,	326
Harry F. Lake,	1

and Harry H. Dudley, George H. Moses and Lillian R. Shepard were declared elected members of the Board of Education for a term of three years.

No further business appearing, it was voted to adjourn. Harry H. Dudley was sworn to the discharge of his duties by the moderator.

A true record. Attest:

FRED LEIGHTON, *Clerk.*

STATE OF NEW HAMPSHIRE.

To the Inhabitants of Union School District qualified to vote in district affairs:

You are hereby notified to meet at the Auditorium on Prince Street in said district on Monday, the 23d day of June, 1913, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To see if the district, by vote, will authorize the Board of Education to make the new school building to be

erected upon the Walker School lot as nearly fire proof as said Board of Education may think practicable and to raise and appropriate such further amount of money as may be necessary to carry the same into effect.

2. To transact any other business that may legally come before said meeting.

Given under our hands this second day of June, 1913.

EDWARD C. NILES,
D. E. SULLIVAN,
FANNY E. MINOT,
HARRY H. DUDLEY,
CARRIE E. EVANS,
OMAR S. SWENSON,
WILLIAM H. SAWYER,
GEORGE H. MOSES,
LILLIAN R. SHEPARD,

Board of Education of Union School District.

CONCORD, N. H., June 5, 1913.

I certify that on the fifth day of June, 1913, I posted a copy of the written warrant, attested by the Board of Education of said district, at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

L. J. RUNDLETT.

CONCORD, N. H., June 5, 1913.

Then personally appeared before me on this date the said L. J. Rundlett, and made oath that the above certificate by him signed is true.

GEORGE N. FELLOWS,
Justice of the Peace.

Pursuant to the warrant the legal voters of Union School District met in the Auditorium on Prince Street in Concord on the evening of Monday, June 23, 1913, at 7.30 p. m.

In the absence of the moderator, Mr. Louis C. Merrill, the meeting was called to order by Fred Leighton, clerk of the district. On motion of Edward C. Niles, James O. Lyford, Esq., was elected moderator *pro tem.*, the clerk casting the ballot. The oath to the moderator-elect was administered by Mr. Niles, a justice of the peace. The warrant for the meeting was read by the moderator.

ARTICLE 1. George H. Moses, Esq., presented the following, and moved its adoption by ballot.

Voted, That the sum of twenty thousand dollars (\$20,000) be and hereby is raised and appropriated additional to the sum already raised and appropriated at the last annual meeting of Union School District held Thursday, April 3, 1913, for the erection and completion of a new school building on the Walker School lot, and that the indebtedness arising from the raising and appropriating said twenty thousand dollars (\$20,000) additional to the sum already appropriated for the erection and completion of said new school building be funded at a rate of interest not exceeding four per cent. (4%) per annum, and that a sufficient sum of money be assessed upon the polls and ratable estates within Union School District on the first day of April in each year thereafter to meet the payments of the interest and principal of said indebtedness at the date or dates of the maturity of the principal and interest as the same may be fixed, as hereinafter provided; and that the money obtained by said assessments be and hereby is appropriated to make said payments; that the district requests the city of Concord to aid in funding the indebtedness of the district arising from the construction and the furnishing of said school building as the city is authorized to do by law, provided said city will borrow the money

necessary for the purposes set forth in this vote and will allow the district to have the use of the money so borrowed, and further, that if this request is complied with the district will seasonably pay the city sufficient sums of money to enable the city to meet the payments of the principal and interest upon this indebtedness so created, as the same may fall due, and all incidental expenses, and will apply the money to be raised, as herein provided, to the payments aforesaid; and said committee is hereby authorized to make and request of the city the date or dates when the principal of said indebtedness and interest thereon shall mature, and do all other acts and things necessary to carry this vote into effect.

Discussion ensued.

Edward C. Niles, Esq., presented the following and moved that it be substituted for the vote introduced by Mr. Moses.

Voted, That the sum of twenty thousand dollars be raised and appropriated, in addition to the sum of fifty thousand dollars already appropriated, to be expended by the Board of Education of Union School District in building and equipping a new schoolhouse on the Walker School lot, and that the Board of Education be authorized to hire the above money on the notes of the district, to be signed by the president of the Board of Education and the financial agent of the district, or as otherwise provided by law, such notes to be for such amounts, not exceeding twenty thousand dollars in the aggregate, on such time, and at such rate of interest, not exceeding five per cent., as may be determined by vote of the Board of Education, and that the amount of the principal and interest of said notes from time to time, as they may come due, be assessed and taxed upon the ratable polls and estates in said Union School District, all in compliance with "An Act in Amendment of Chapter 89 of the Public Statutes of New Hampshire

Relating to the Exemption of Money at Interest Loaned to School Districts," approved March 31, 1913; and that the notes so issued shall be exempt from taxation when held by citizens of Concord.

Mr. Moses accepted the vote presented by Mr. Niles as a substitute for the vote presented by him.

The question was then on the adoption of Mr. Niles' vote and on this a ballot was ordered, which resulted:

Yes,	241
No,	3

and the vote was declared adopted.

No business appearing under Article 2 of the warrant, on motion of Harry H. Dudley, Esq., the meeting adjourned.

A true record. Attest:

FRED LEIGHTON, *Clerk.*

TOWN SCHOOL DISTRICT.

Report of Superintendent.

We herewith submit this our fourth annual report to the school board and citizens of the town district of Concord.

The work of the year has, in the main, been constructive in character, without any features that can be called striking or radical. The teachers have been loyal, apparently, and faithful in their work. They have cooperated to serve the best interests of the pupils. But few changes have been made in method and these were to follow more closely the state program of studies.

Our aim has been the preparation of boys and girls for life. How to make this the best, and how to give to youth such an outlook upon life that he may be best prepared to face honestly and courageously the difficulties which he is sure to meet, is the problem which faces us to-day. Whether the schools shall follow tradition or take up the more efficient preparation for life along the manual arts and secure a greater appreciation for the work of father and mother, are the great questions to be answered.

A somewhat conservative spirit has prevented us from doing as much as we would like and is being done in the city and the other towns under our supervision. Through what we have done we have proven that we can gather the best of the new about the tried of the old and give our pupils a preparation for country life without weakening that preparation which time has proven to be essential. Our progress should be constructive and conservative, and not destructive and radical.

Much attention has been given to the improvement and the adjustment of text-books as in other years. There is still a need for more reading material that better habits

of reading may be secured and a greater cultural basis laid.

The teachers have been directed in method and helped in the solution of problems of management. Nearly all of the teachers are reading along professional lines. They are keeping in touch with the best things in the city work and general educational advancement. We are grateful for the hearty co-operation which we have received from the teachers.

Nine rural one-room schools, varying in size from four to twenty-five pupils, have been maintained thus far during the school year. Approximately 110 pupils have been generally regular in attendance. There are a few cases where there is need of the truant officer, brought to our attention by the state department.

The school buildings are generally in good condition. Some needed improvements have been made in Mr. Holland's part of the town, and in other parts such improvements as the emergencies have demanded.

We ask your support and co-operation in making the schools of Coneord town district real live institutions for the training of the youth for citizenship, by the use of methods calculated to employ the natural buoyant loyal spirit of the pupil and by introducing the substance of life and its activities into the work of the school. By this method we shall be able to demonstrate that even the isolated country school, while it shall continue to exist, may be made to merit the praise of the community in which it is found on account of the impetus and the ideals of living that the school inculcates. Work of this kind needs not only the active participation of a superintendent but the co-operation of school officials, teachers and parents.

Respectfully submitted,

E. J. BEST,
Superintendent.

Town School District Treasurer's Report.

The treasurer of the Town School District of the city of Concord respectfully submits the following report of the receipts and expenditures for the year ending March, 1914:

RECEIPTS.

Balance on hand March 22, 1913,	\$362.14
Amount required by law,	3,041.89
Additional voted by district,	2,000.00
Literary fund,	145.01

RECOMMENDATIONS.

The new traffic ordinance passed last summer by your Honorable Body has in my opinion proven to be a great success, but it necessitated taking one of our night patrolmen to assist in enforcing the rules, thereby reducing the night squad. I am of the opinion that we should have another officer appointed for night duty and a traffic officer whose duty shall be to look after that branch of the work. I would respectfully suggest that our appropriation be increased to meet the demands of the situation.

I still live in hope that this department will have a combination automobile patrol and ambulance at an early date.

CONCLUSION.

I wish to express my appreciation to His Honor the Mayor and the Honorable Board of Aldermen, County Solicitor Robert C. Murchie, Judge A. Chester Clark, City Solicitor Alexander Murchie and all who have assisted us the past year.

I extend to the officers and patrolmen of the department my hearty thanks for their loyal support in enforcing the laws and maintaining the efficiency and discipline of the department.

Respectfully submitted,

GEORGE A. S. KIMBALL,

City Marshal.

In Memory of

EX-CITY MARSHAL JAMES E. RAND.

Appointed Patrolman, April 16, 1861; Captain,

April 16, 1891; Assistant Marshal, April 16,

1894; City Marshal, January 27, 1902.

Died February 12, 1913.

CHARLES W. HALL, Died June 8, 1913.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

*To the Board of Mayor and Aldermen of the City of
Concord:*

The trustees of the Public Library herewith transmit the annual report of the librarian, from which it will appear that the library continues to perform its public function with all the efficiency possible under present conditions.

In view of the fact that another assistant is necessary to relieve the others of the over work they are obliged to do and to still further promote the usefulness of the library, the trustees voted at their annual meeting to ask that the appropriation for the library be increased to \$5,500.

REUBEN E. WALKER,
President, Board of Trustees.

February 6, 1914.

REPORT OF THE CITY LIBRARIAN FOR 1913.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN,—The first two-thirds of the year which we are reviewing were months of no unusual activities in our library. The patronage followed its annual order by rising to high-water mark in March and then sinking when spring called people out of doors and summer took them away on vacations.

We were expecting, because during each of the last four years our circulation has fallen off a few hundreds, that 1913 would see another reduction. If, as is asserted, the tendency of modern life is toward action and color, then the tendency is *not* toward a library, where quietness and restraint, both literal and figurative, are valued. Furthermore, a public library cannot legitimately draw custom by purveying the latest sensations in print; if new lights are appearing on the horizon, in drama, poetry, and so forth, the library may mark them down on its chart and buy enough to let persons know what these faddish things are which dazzle, but it cannot really steer its purchases by them; and if it cannot keep up with the public's desire to read the books that are being talked about, and if it becomes less alluring than other places of entertainment in the city, the result may well be a loss in figures of circulation.

But contrary to expectation, and owing to brisk business with schools, more books were handed over the delivery desk in 1913 than in 1912, and it was after September first that the surplus came about. Therefore the last four months have demanded of the librarian and three assistants excessive work. The help hired intermittently of high

school pupils has not been enough. Do not for a moment think that work has been speeded up, under increasingly complex conditions, in office and store and shop, and remained as easy to do in the library as it was a decade ago. It may become necessary to recommend the appointment of another assistant, for this board would not want such a *quantity* of service exacted of the library employees that it would fail in *quality*.

Eighty-seven thousand six hundred thirty books were charged out for home reading; but in the reference room, 6,426 borrowers were waited on additionally. This was against 4,476 in 1912, and is a record of which Miss Brown, who has the care of that department, may justly be proud. I should say that nowadays fewer adults frequent the room but that more pupils come to consult matter assigned by their teachers. Especially do debates send boys and girls to ask for Poole's Index, with all that that entails of further research.

The reading room fills and empties without count being made of its visitors except occasionally. On a recent Sunday, between two and five o'clock p. m., 62 males and 22 females came in to look at the seventy-five periodicals subscribed for. It seemed best, in view of the lowered standard of some magazines, not to duplicate exactly our list of previous years, and it was gratifying to hear our periodical agent say that so many subscriptions were dropping off, owing to deterioration, that publishers may be led to call a halt to the daring in their pages.

Seven hundred fifty-six new borrowers have been enrolled during 1913. The net increase to our shelves was 400 volumes. Never before have we weeded out so many hundreds of old books. It is only by so doing that it is possible to make the crowded little building still answer for the city library.

The only noteworthy change in the character of the books

taken out is in regard to those dealing with civics and sociology; the increased demand along those lines has led the reference librarian to ask for a year's trial subscriptions to the "Annals of the American Academy of Political and Social Science" and to the "Journal of Political Economy."

The art exhibits continue to interest even those who do not enter the building primarily to see them. We have many inquiries where the pictures come from: a Library Art Club, with headquarters in Massachusetts, owns 175 photographic sets. A membership fee of six dollars and part payment of transportation expenses entitles an individual or institution to receive these exhibits in rotation, each one to remain three weeks.

One new feature has been introduced into our building, and I should like you to look at the east side of our School Street hall where we have placed and labelled rows of juvenile books and set some small chairs. These are usually filled, and such daily wholesome content is evident there, that this "Young Folks' Alcove" has come to stay! The contrast is striking, however, between it and what a library should have in the way of a children's room.

When purchases of new books now arrive, instead of keeping them in the librarian's office till they can be catalogued, we put an attractive dozen where the public can sit and read. This little display is changed every few weeks and anybody with five minutes or an hour of leisure would find it worth while to take the seat before the rack and examine these books. It is intended the dozen shall always include a few to interest the intellectually blasé or critical.

The Concord collection, where behind glass doors safely stand writings by residents, has lately had additions including:

Lucy Heath's "From Christmas to Easter."

Frank W. Rollins' "Safe Deposit Box No. 4016."

John C. Thorne's "Thorne Genealogy."

E. J. Aiken's "First 100 Years of the N. H. Bible Society."

Will Cressy's "Hills o' Hampshire," his travel letters and pictures.

The librarian's second story for girls.

The memorial volume of John Kimball, edited by Frances M. Abbott, and her pamphlet collaborated with Mrs. Susan J. Woodward, giving the history of the Stratford Club.

It would surprise anybody to see how many Concordians are represented in this collection, which has been fifty years in the making, and to which every citizen is urged to contribute his writings.

No twelvemonth passes without our receiving gifts. Mrs. Armenia S. White, Mrs. H. H. Wright and Mr. S. C. Eastman have long been abundant givers of books and magazines. From the scores of organizations which send us their valuable publications, it would be invidious to single out any. Several donors wish to remain anonymous. A lady lately handed in a dollar bill for us to buy a book with, and "Pollyanna" seemed best suited to her idea of something that should do general good.

The year has brought a loss in the death of Mr. A. J. Shurtleff which the library feels keenly. Its trustee for twenty years and president of the board for seven, he was much in the building officially. Yet even more did he come because drawn by the best there is in books. He knew thoroughly what material the library contained and went straight to the needed work. But however much he took away in knowledge, he gave infinitely more by way of influence. His quiet coming and going was a blessing, little as he suspected it. There was never a hard, busy day but his serene seeking of the good, the true and the beautiful on our shelves seemed to re-dignify the place

and revive courage for our tasks; for we knew he had come from doing his own day's work admirably, and yet had not let his spirit lose its fine aloofness. He was of those who "keep in sight their ideals in order that the things which are instrumental shall not become dominant."

Was it not a tonic for us who see thousands reading the ephemeral, to have Mr. Shurtleff so often bring a half-score of classics to the desk to be charged to him? I want to testify how in those who listened to him frequently there was fanned alive something of literary judgment and taste. It was a great good for a library staff during twenty years to have as a familiar presence a man whose intellect was of exceptional catholicity, thoroughness and refinement; who sought not only the lofty truths of life but the most perfect expression of them in literature.

Yet he was wonderfully tolerant of that in which he himself was not interested,—a respecter of every man's individuality. One side of Mr. Shurtleff we were privileged to see,—the relaxing of his mind into play of wit and humor; for daily there are droll happenings in a public library and amusing things in print, and repeatedly we saw his eye, which nothing escaped, light up with enjoyment, while we waited for his comment that made a memorable thing more memorable. We never asked his help in vain, even on humble practical points, when the same painstaking reply was thought out for us as if our question had concerned a nobler subject.

He seemed as much a part of the library as the light which streams in its windows, and without him we shall be more in danger of "forgetting the glory of our goal in the distractions of our task."

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

REPORT OF CITY SOLICITOR.

To the Board of Aldermen:

The following annual report is intended to show the condition of the legal affairs in which the city was interested at the beginning of the present year and to review the progress made during the past year with the suits to which the city was a party.

The case of *Jennie P. Martin v. Concord*, a suit to recover damages for injuries to the plaintiff's real estate on the corner of South State and Downing Streets, alleged to have been caused by a defective sewer, remains in the same condition as reported a year ago. It is upon the Merrimack County docket and will, no doubt, be disposed of during the present year, perhaps at the April term of the Superior Court. *Carolyn F. Stickney v. Concord*, an appeal from an award of damages made to the plaintiff by the board of aldermen on account of the laying out and construction of a sewer from North Main Street through the plaintiff's land to Merrimack River, has been settled by the payment of \$500: \$600 having been asked.

Two personal injury cases which have been pending against the city for a considerable length of time have both been settled for small amounts during the year. One case, *Gilbert S. Hibbard v. Concord*, was entered at the October term, 1911, \$5,000 being asked for injuries received, as alleged, by reason of a defective culvert in a highway. This case was settled by the payment of \$175. The second case, *Eben Hemphill v. Concord*, a case for personal injuries, brought in Hillsborough County at the May term, 1912, in which the plaintiff asked \$6,000 damages on account of a broken leg received while working

for the city in the highway department, has been settled by the payment of \$125.

In *Concord v. Frank W. Sanborn*, the defendant having gone into bankruptcy, the city's claim for taxes, a small amount has been proved before the referee in bankruptcy.

George L. Theobald v. Concord was a suit brought against the city on account of a dispute over the legality of the teaming ordinance, so called. The plaintiff's pay for team work in excess of \$4 per team per day was held up because the plaintiff refused to sign the stipulation required by the above mentioned ordinance, agreeing to pay his teamsters \$1.75 per day while working for the city. The plaintiff, subsequent to the time of bringing suit, having signed the stipulation, the case has been settled by the releasing of the money he claimed due him.

In the matter of the petition of Elwin L. Page for construction of the will of the late Mary Darcy, I am informed that a settlement is to be made among the heirs. The city was interested because \$100 was left to the city as trustee for the purpose of caring for a cemetery lot.

Annie Taylor v. Grace O. Dutton, City of Concord, Trustee, has been settled by the payment by the defendant of the plaintiff's claim, the city having been discharged thereby.

Woodworth & Co. v. Concord is a petition for abatement of taxes. This matter has been referred to the tax commission and will probably be heard next week.

During the last session of the legislature I represented the city in a matter of considerable importance. House bill No. 510 was designed to repeal that section of the law which gives to cities and towns in this state, in addition to the one-quarter part of the railroad taxes charged against rights of way and buildings, such proportional part of the remaining three-quarters as the stock of such railroad held in the particular city or town bears to the

total issue of stock. If this bill had passed the legislature the city of Concord would have been the loser by some \$29,000 per year. I considered it my duty to state the plain facts to the committee in charge of the bill and to call the matter to the attention of such other solieitors and selectmen of towns and cities, as I thought would be interested. The result was that the bill failed of passage.

In addition to the handling of the above matters, I have performed the routine work of the office, such as drafting ordinances, resolutions, contracts, deeds, etc. During the year I have advised the tax assessors in tax matters and the heads of departments. I have also furnished the board of education with opinions at various times. I have aided the building inspector in his work, have attended meetings of the committee on accounts and claims when requested, and have prosecuted the usual number of criminal cases for the poliee department before the police court.

Respectfully submitted,

ALEXANDER MURCHIE,

City Solicitor.

January 25, 1914.

HEALTH DEPARTMENT.

BOARD OF HEALTH REPORT.

To the Mayor and Board of Aldermen:

The Board of Health submits the following report for the year ending December 31, 1913:

The first meeting was held February 3, 1913. The board was organized as follows:—Mayor French, *ex-officio*, chairman; Dr. Charles H. Cook, *ex-officio*, secretary; and Dr. Fred A. Sprague, member.

Subsequent meetings were held on the first Monday of each month and in addition to these regular monthly meetings several special meetings were held.

Dr. Charles Duncan was re-appointed milk inspector.

Owing to the generally healthy condition of the city the work of the board has been largely routine.

A mild outbreak of diphtheria made its appearance in the north section of the city in the fall. Many of those coming down with the disease were pupils at the Roman Catholic School on Bradley Street. Accordingly much time was given in an effort to locate the source of the contagion.

Whenever a child was reported sick with the disease the schoolroom attended by this pupil was fumigated by the health officer. The throats of all the children in the room were then inspected by a physician. A culture was usually taken from the throats of pupils sitting adjacent to the infected child. It is worthy of note that no case of diphtheria made its appearance in any child inspected within

a period of two weeks subsequent to such inspection. This may be taken as indicating that no case was overlooked during its initiatory stages.

If any cases were present and undetected they must have been of the "carrier" type; that is, cases carrying in their throats germs of the disease but not themselves having the disease.

The cultural method is sometimes resorted to for the detection of these cases. That is, a bit of absorbent cotton is wrapped around a wire probe and put into a glass tube, the mouth of which is plugged with a wad of cotton. As many of these tubes are prepared as there are pupils to be examined. They are then put into an oven and sterilized by intense heat, when they are ready for use. Taking one of these "swabs" the throat of each pupil is wiped over in the hope of wiping off some of the bacteria if any are present. The swab is then returned to its tube which is labelled with the name of the pupil and any other data bearing on the case. When all have been taken they are sent in to the State Laboratory of Hygiene for incubation and examination. A test tube containing a suitable culture media or "soil" is required for each swab. The material in the tube is wiped over with the swab and then placed in an incubator for a period of eight to twenty-four hours in the hope that if any bacteria have reached the culture media they will grow and start "colonies."

At the end of the period of incubation some of the material from the surface of the culture media is transferred to a glass slide and after being stained with dyes is examined through a microscope, search being made for the minute bodies known as the Klebs Loeffler bacilli, or in common parlance, diphtheria germs.

If any of these germs are found by this method it establishes the fact beyond question, that the throat of that child contains some diphtheria germs and that the child

is a menace to the community unless quarantined. However, should no such germs be found on examination of the material from the culture tube it does *not* in like manner follow that the throat of that child is free from diphtheria germs.

The examiner may not have succeeded in getting them on his swab. They may not have been transferred to the culture media. The culture media may have been faulty and growth may not have taken place. They may have been overlooked under the microscope. These are some of the reasons why the test is not conclusive when the result is negative.

Coming back to the situation in the Bradley Street School, where it was assumed that there must be carrier cases, as fresh cases were occurring from time to time among children who had attended this school.

Accordingly, a special meeting was called on November 14, 1913, to decide what further action ought to be taken to stamp out the disease. Having in mind the uncertainty of the cultural method as outlined above, together with the fact that if this method was used it would be necessary to take cultures daily from the throats of about 150 children for an indefinite period, involving an immense amount of detail work as well as considerable expense, it was decided that the interests of the community would be best served by ordering the school in question closed for a period of ten days.

This was accordingly done. No further cases have appeared traceable to that school, thus showing the wisdom of the action.

The report of the sanitary officer, Mr. Charles E. Palmer, is hereby transmitted and made a part of this report. You will note that it contains a detailed account of the work of the department as well as the always interesting vital statistics.

Your attention is also called to the report of the milk inspector, Dr. Charles Duncan. We are pleased to note that, as a result of the "Regulations for the care and sale of milk" ordinance supplemented by the campaign of education inaugurated and carried out by Dr. Duncan and Sanitary Officer Palmer, the conditions surrounding the production of milk and dairy products in the city are constantly improving.

Concord is very fortunate in having an almost unlimited supply of pure water. It is truly an asset of the greatest value. This board wishes to commend Superintendent Sanders of the Water Department for the good work he has done in cleaning up the shores of Penacook Lake. The policy of acquiring possession or control of the shore land also meets with our approval.

Respectfully submitted,

CHARLES J. FRENCH,

CHARLES H. COOK,

F. A. SPRAGUE,

Board of Health.

REPORT OF THE MILK INSPECTOR.

To the Board of Health:

GENTLEMEN,—The department report tables show the number and results of analyses of milk for the year 1913. They also show the number of farms visited and the findings of the inspectors.

The department has no excuses to offer for Concord's milk under the basis it is now produced and sold. Our relations with the producer have been exceedingly pleasant and instructive. However, there seems to be on the part of the public a tendency to blame all or nearly all sickness in their family to the milk supply. This has been particularly true in our present epidemic of sickness called acidosis. We are appealed to by the milkmen to examine their milk as protection against his customer, and that same customer of his has appealed to us to find the cause of their sickness in the milk. We set all such matters straight as best we may and always find that the milk is never at fault.

It may be put down as generally true, except for tuberculosis, that all milk-borne epidemics of disease, or individual cases of sickness from milk, for that matter, are a result of contamination of a pure milk by humans after it has left the cow.

A sick cow that produces sickness from her milk is a rare thing; besides, a sick cow is a mighty poor asset and as a business proposition does not remain long in the dairy barn.

Recently the State Board of Health has created what is known as "Inspected Milk"—milk which is the product of tubercular tested cows produced and handled under *definitely known sanitary conditions.*

All the features of this state proposition have been made known to the local men by Mr. Purrington and Professor Rasmussen, of Durham, at the annual meeting of the Concord Milk Producers' Association, held last December.

We believe that already Concord's milk meets the requirements of most of the conditions of "Inspected Milk" and if the city would meet the conditions that require all herds to be tuberculin tested our supply would be as safe as desired.

I have in previous reports had much to say on tuberculosis in cattle and the value of the tuberculin test properly applied and will not again speak of it here, only to say that its application besides assuring a tubercular-germ-free milk for our city's consumption would also bring about a condition of tubercular-free cattle. This fact would put to rest, whether true or not, the rumors that tubercular-diseased meat is both sold and offered for sale in our city.

All our citizens are entitled to a milk as safe as the State Board of Health "Inspected Milk." The few changes in our present system would enable us to have such a milk and prevent what is sure to happen if a few producers only accept the State Board of Health proposition. *Then* we will have two grades of *sanitary* milk at two prices, a safe milk for the "well to do"; a *less* safe milk for the poor.

Concord ought to guarantee all her citizens alike a safe milk, both the rich and the poor. *No* milk is safe unless produced from tuberculin-tested cows.

I wish to thank the Board of Health for their cooperation.

Respectfully submitted,

CHARLES DUNCAN,
Milk Inspector.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN,—I herewith submit the report of the sanitary officer for the year ending December 31, 1913, calling your attention to the tables which show in detail the work done by this department.

With the exception of the epidemic of measles the first half of the year we were fortunate in having so few cases of contagious diseases. Reports were made of 33 cases of diphtheria with 3 deaths, 28 cases of scarlet fever with no deaths, 10 cases of typhoid fever with 1 death, 5 cases of infantile paralysis with 1 death, and 687 cases of measles with no fatalities, making a total of 763 cases reported with 5 deaths, compared with 362 cases and 8 deaths for the previous year. Forty-one of these cases were cared for at the Foster Ward, Margaret Pillsbury General Hospital during the year.

Returns were made of 519 deaths for the year 1913, 53 more than in 1912. One hundred seventy-one non-residents and 19 still-births were excluded from this number in reckoning the death rate, which, based on the population of 21,497, was 15.3, compared with 13.25 in 1912. There were 246 deaths at the six public institutions, and 273 in the nine wards of the city. The bodies of 87 persons dying in other places were brought here to be interred, and 214 bodies were removed from Concord to other places for burial.

Samples of Penacook Lake water were analyzed by the state chemist at different times during the year and found to be satisfactory. In company with the superintendent of the water-works, I have made several inspections of the

lake shore as well as the reservoir and found conditions good.

Inspections were made of all the barber shops in the city which were found to be in good sanitary condition. Copies of the amended law relating to the sanitary management of barber shops were left at all the shops and I feel that this law will be complied with and that the shops will be kept in a cleanly condition.

Water tests were made of new plumbing and 120 permits were issued during the year. Peppermint tests were made of old work whenever requests were received.

The vaccination law was enforced in the outlying districts with the support of the town school board, and this co-operation was greatly appreciated. Very little trouble in enforcing this law is experienced when the superintendents and teachers give us their help by insisting that no child shall attend school without a vaccination certificate bearing the seal of the Board of Health.

Notices prohibiting the use of the public drinking cup, taking effect July 1, were sent to those persons having charge of public parks, streets, public institutions, hotels, theatres and public halls.

The formaldehyde-permanganate method of fumigating was used as in former years. This method should be given credit, as it has always proved efficient in controlling the spread of contagious diseases. The school books in Union School District were fumigated at the close of the June term. Articles of clothing and bedding as well as books were fumigated at our fumigating room from time to time.

In company with Dr. Duncan, I have made such inspections of milk farms as time would permit, but with the inspections of sewers, plumbing, nuisances and complaints, the care of contagious diseases and the increasing demand for fumigation, we have not been able to accomplish as much as should be done along this line, but during the

coming year we hope to be able to do more of this work, as this is a very important matter connected with this office.

The expenses of the Health Department for the year 1913 were \$2,777.70 and our appropriation was \$2,600.00, showing a deficit of \$177.70. The receipts from the sale of antitoxin and fumigation supplies, \$83.45, and milk license fees, \$190.80, offset this deficit, however.

In conclusion, I wish to express my thanks to the Mayor and the other members of the Board of Health, the city solicitor, the members of the city government and all others who have given me their advice and assistance.

Respectfully submitted,

CHARLES E. PALMER,
Sanitary Officer.

EXPENDITURES OF THE BOARD OF HEALTH OF THE CITY OF
CONCORD FOR THE YEAR ENDING DECEMBER 31, 1913.

SALARIES.

Charles E. Palmer, sanitary officer, salary,	\$1,400.00
Charles Duncan, M. D., milk inspector, salary,	300.00

FUMIGATION SUPPLIES.

A. H. Knowlton & Co., formaldehyde and per- manganate,	50.95
A. H. Britton & Co., 5 pails,	1.75

ANTITOXIN AND MEDICAL SUPPLIES.

Schieffelin & Co., diphtheria antitoxin,	120.70

NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances for the year 1913 appears below :

Accumulation of ashes and other rubbish,	1
Catch basin traps broken,	1
Catch basin traps filthy,	1
Cesspools overflowing,	2
Complaints made without cause,	7
Dead animals,	16
Dumping rubbish and odor from dumps,	5
Food suspected of being adulterated,	1
Keeping hens,	16
Keeping hogs,	8
Odor from garbage,	3
Odor from manure,	2
Odor from privy vaults,	6
Odor from stables,	8
Odor in blocks,	2
Odor in houses,	7
Odor to water,	3
Other complaints and inspections,	82
Pediculosis,	1
Plumbing done in violation of law,	2
Sewage backing into cellars,	2
Sewers obstructed,	6
Sink drains offensive,	5
Throwing out slops, swill and rubbish,	25
Uncleanly condition of and about premises,	10
Uncleanly condition of toilet rooms,	2
Uncleanly condition of water-closets,	8
Water-closets out of repair,	8
Water in cellars,	3
Total,	243

INSPECTION OF PLUMBING.

Plumbing permits granted,	120
Number of inspections made,	240
Water-closets put in,	154
Sinks put in,	77
Bath-tubs put in,	96
Wash-bowls put in,	108
Wash-trays put in,	31
Slop-sinks put in,	1
Number of sewers inspected,	44

FUMIGATION.

Rooms fumigated,	360
Schoolrooms fumigated,	44
School buildings fumigated,	1
Wards at hospitals fumigated,	17
Cellars fumigated,	9
Closets fumigated,	2
Barns fumigated,	1
Books fumigated,	72
Pieces of bedding, clothing, etc., fumigated,	22

REPORT OF MILK EXAMINATIONS AND INSPECTION OF MILK
FARMS.

Number of milk examinations made,	172
Number of examinations above standard,	172
Number of teams inspected,	13
Number of milk rooms inspected,	1
Number of milk farms inspected,	38
Conditions satisfactory,	31
Conditions fair,	7
Number of notices and recommendations given,	13

SUMMARY.

Houses placarded in cases of contagious diseases,	448
Placards removed,	448
Visits made to contagious diseases,	1,106
Burial permits issued,	519
Burial permits issued for interment of bodies brought here,	87
Transit permits issued,	214
Number of persons to whom milk licenses were issued,	191
Number of persons to whom garbage licenses were issued,	44
Number of reports of contagious diseases sent to the State Board of Health,	52
Number of reports sent to the surgeon-general, public health and marine-hospital service,	52
Number of mortuary reports issued,	972
Number of vaccination certificates issued to school children,	981
Number of permits issued for children to return to school after recovery from contagious diseases,	173
Number of samples of water collected for analysis,	6
Number of inspections of barber shops,	19
Number of notices sent ordering compliance with the rule prohibiting the use of the public drinking-cup in certain places,	18

CHARLES E. PALMER, Sanitary Officer.

REPORT OF CITY ENGINEER.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1913.

To the Board of Mayor and Aldermen:

The twenty-first annual report of the Engineering Department is herewith submitted, in compliance with the ordinance creating this department.

The expenses of the department for the year 1913 were as follows:

Paid for engineer and assistants,	\$3,043.25
car-fares and livery,	65.21
express,	2.70
supplies,	88.35
telephone service,	24.84
repairs,	19.51
services and supplies, assessors' maps,	1,120.35
convention expenses,	44.30
	<hr/>
	\$4,408.51
Appropriation,	\$4,475.00
Expended,	4,408.51
	<hr/>
Unexpended balance,	\$66.49

SEWERS.

The expenditures for construction, repairs and maintenance, together with the recommendations relating to

needed changes in the city precinct, will be found in my report to the Board of Public Works, covering the work done under its supervision.

WATER-WORKS.

The question of additional water supply from sources within the town limits, required some field work and study of natural conditions, to determine the feasibility of any attempt to utilize the suggested sources of supply. The results of these investigations are in the hands of the superintendent of the works and the Board of Water Commissioners.

FIRE DEPARTMENT.

The plans covering the city proper and the Penacook district, showing the location of fire-alarm boxes and the location of all hydrants, have been brought up to date and blue prints of the same turned over to the chief engineer of the fire department.

BUILDING PERMITS.

Together with the chief of the fire department, I have attended thirty-one hearings on petitions for new buildings, or alterations to existing structures. All petitions were granted, with such restrictions as seemed advisable to us.

CEMETERIES.

One new block has been graded in Blossom Hill cemetery and will be ready to lay out in lots the coming season. Some provision to care for the brook, in the northwesterly portion of this cemetery, should be made in order that

future laying out of blocks, in this section, may be carried on in a symmetrical and economical manner.

The deed books of Blossom Hill Cemetery have been brought up to date, covering the sale of lots during the past year.

STREETS.

Lines and grades were given for macadam roadways on North State Street, North Maine Street, South Street, Merrimack Street, Ward One and for gravel roadway on the Loudon road, also for concrete sidewalk construction, when requested.

The monthly measurements for coal-tar concrete walks and street surface repairs were made and statements of the square yards laid, cost and location of the same made and delivered to the parties ordering the same.

ASSESSORS' MAPS.

The field work for these maps was carried on during the summer and fall and the territory lying between the Soucook River, the Merrimack River, the Loudon line, westerly from the Soucook River to the Oak Hill Road, down the Oak Hill Road to the residence of the late John T. Batchelder, the Batchelder Road, the Turnpike and Pembroke Roads to the Merrimack River.

The Plains section, so called, has brought out many owners heretofore unknown, the location of whose property has entailed a vast amount of record searching and many lots located whose owners did not know where their property was situated. We now have listed and shown on the maps about five thousand three hundred separate pieces of real estate.

The special appropriation for this work was \$1,000. There has been expended on this work \$1,120.55, the overdraft for which was charged to the Engineering Department.

MISCELLANEOUS.

Grades for rough grading the ball ground, at Rollins Park, were given and the grounds partially graded with material from South Street. Much more grading should be done on these grounds before they are in proper shape for their intended use.

Lines and grades, where established, have been given to all applicants.

Meetings of your board and the Board of Public Works have been attended when information from this department has been requested.

The work of the Board of Examiners of Plumbers and the Hydrant Commissioners have been placed before you in their respective annual reports to your board.

The employees of this department during the past season were: Fred W. Lang, principal assistant; Forrest F. Owen, assistant; Orion H. Hardy, transitman; William E. Nash, Harold H. Betton, George W. Burke, Arthur McCauley and Leland P. Robinson, rodmen.

The convention of the American Society of Municipal Improvements, held at Wilmington, Delaware, in October, was one of vital interest to all municipal officers, the papers and discussions, at this session, covered the questions of water-works, sewage, its removal and treatment, garbage and street cleaning, street lighting, fire prevention, the construction and maintenance of all kinds of street surfaces and the question of financing public works. I hope that some members of this board will attend the next

meeting of this society, which will be held in Boston, in October, 1914.

To the Mayor and the Board of Aldermen I wish to express my appreciation for the privilege of attending the above mentioned convention and for the many courtesies shown this department during the past year.

Respectfully submitted,

WILL B. HOWE,
City Engineer.

REPORT OF BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1913.

To the Board of Mayor and Aldermen:

The fourteenth annual report of this board is herewith submitted.

The present membership of the board is as follows: Charles H. Cook, M. D., Patrick A. Clifford, a journeyman plumber; and Will B. Howe, city engineer.

Patrick A. Clifford is chairman of the board and Will B. Howe, clerk.

Five meetings were held. Three applicants for master's licenses and six for journeyman's licenses were examined and passed.

The total receipts from all sources were thirty-two and one-half dollars (\$32.50), for which amount the clerk of the board holds receipts of the city treasurer.

The total expenditures for the year were, one and one-half dollars (\$1.50) for postage and sixteen and thirty-eight one-hundredths dollars (\$16.38) for materials used in the practical work of the examinations.

The attached table gives the names of all plumbers authorized by this board to work at the business of plumbing for the year ending March 31, 1914, the date of renewal and expiration of said licenses, or certificates, the dates of examination, opposite the names of the men examined and the fees received.

PLUMBERS, CERTIFICATES AND LICENSES ISSUED AND RENEWED DURING 1913.

REPORT OF BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1913.

To the Board of Mayor and Aldermen:

The eighth annual report of this board, showing its recommendations to the Board of Water Commissioners and the number of hydrants set during the year 1913, is herewith submitted:

On May 26, 1913, it was voted to recommend the placing of additional hydrants in Penacook as follows: one on Washington Street, westerly side, opposite the barn near the Rolfe sawmill; one on Fowler Street, opposite number 8, and one on Fowler Street opposite number 39.

On June 9, 1913, it was voted to recommend that a hydrant be set on the northerly side of the Hopkinton Road, opposite the center of the new infirmary, at Saint Paul's School.

On September 15, 1913, it was voted to recommend the placing of a high-service hydrant on North State Street, on the northerly line of Oliver Racine's lot, and one on Merrimack Street, Penacook, near Bye Street.

All the above hydrants have been set during the season.

Respectfully submitted,

WILL B. HOWE,

W. C. GREEN,

P. R. SANDERS,

Board of Hydrant Commissioners.

Jan. 1, 1924,	3½,	15,000.00

\$497,000.00

REPORT OF BOARD OF WATER COMMISSIONERS.

To His Honor the Mayor and the Board of Aldermen:

The Board of Water Commissioners transmits herewith the reports of the superintendent and the engineer of the pumping station, exhibiting in detail the operations of this department for the year ending December 31, 1913, which are made a part of this report.

The expense of extensions has been less than in some previous years, affording an opportunity to make extensive repairs and improvements on the buildings and equipment of the system, which is now in a most satisfactory condition.

In the not distant future the cement-lined pipes supplying the St. Paul's School and the Penacook districts must be replaced with cast-iron. It is probable that the work of relaying the line to St. Paul's School will be undertaken the coming season, giving that important district a cast-iron main with an increased capacity over the present line.

Certain disinterested (?) parties have lately through the columns of one of our daily newspapers, criticized this board for its alleged failure to prevent the contamination of the water of Penacook Lake and possibly some sensitive individuals have been persuaded that in using the water supplied through our mains, their health has been endangered and that they are being poisoned by degrees.

The board avails itself of this opportunity to state its attitude on this question.

The ideal condition undoubtedly would be for the city to control the entire watershed supplying the lake. It is evident that such absolute control is impracticable if not altogether impossible.

It should be borne in mind that the present board, as well as its immediate predecessors, inherited the conditions complained of. It is no reflection upon the judgment of the honorable gentlemen and public spirited citizens who served the city upon the board at the time the system was installed, or their immediate successors, to state that they did not foresee the possibility of the location of a colony of summer cottagers near the shores of the lake.

The conditions complained of in the newspaper articles referred to have received the thoughtful consideration of the board for more than twenty years and the most objectionable features have been eliminated as rapidly as circumstances would permit.

For a detailed statement of the properties acquired by the city, you are referred to the construction account in the report of this department.

It has been the aim of the board to supply our citizens with an abundance of pure water. To accomplish our purpose, we have caused careful policing of the shores, inspection of suspected premises and frequent analyses of the water.

We have had the cordial co-operation of our local and state boards of health, whose suggestions and advice have been of great assistance and are gratefully acknowledged.

Respectfully submitted,

SOLON A. CARTER,
BURNS P. HODGMAN,
HENRY C. HOLBROOK,
FRANK P. QUIMBY,
EDSON J. HILL,
GEORGE D. B. PRESCOTT,
HARRY H. DUDLEY,
NATHANIEL E. MARTIN,
CHARLES J. FRENCH, *ex officio*,
Board of Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the forty-second annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of the extensions and improvements made during the year ending December 31, 1913.

RECEIPTS.

EXTENSIONS AND IMPROVEMENTS.

Cast-iron distribution pipes have been laid and hydrants set during the year as follows:

In Hopkinton Road,

west from Pleasant Street, 615 feet 6-inch pipe in place of 4-inch pipe discontinued.

In Dartmouth Street,

extended south, 293 feet 6-inch pipe.

In Beacon Street,

extended east, 104 feet 6-inch pipe.

In Washington Street, Penacook,

extended west from Electric Avenue, to Rolfe's saw-mill, 712 feet 6-inch pipe.

In Fowler Street, Penacook,

east from Washington Street, 1,300 feet 6-inch pipe.

On hydrant branches,

128 feet 6-inch pipe; 6 feet 6-inch pipe discontinued.

Also 132 feet 1-inch pipe.

Seven new hydrants have been set as follows:

On Hopkinton Road, near new infirmary.

On School Street, near Giles.

On North State Street, near Racine's.

On Washington Street, Penacook, at Rolfe's sawmill.

On Fowler Street, Penacook, near Elliott's.

On Fowler Street, Penacook, at Charles Holmes'.

On Merrimack Street, Penacook, at Bye.

There have been set 11 gates; discontinued, 1.

SUMMARY OF THE FOREGOING.

NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-Gates.</i>
1-inch, 132 feet.	In city, 3	6-inch, 10
6-inch, 3,152 "	In Penacook, 4	18-inch, 1
<hr/>	<hr/>	<hr/>
3,284 feet.	7	11
equal to .621 mile.		

DISCONTINUED.

<i>Pipes.</i>		<i>Hydrants.</i>	<i>Stop-Gates.</i>		
4-inch,	475 feet.	In city,	1	4-inch,	1
6-inch,	6 "				
<hr/>			<hr/>		<hr/>
	481 feet.		1		1
equal to .091 mile.					

Total length of main and distribution pipes now in use, 370,111 feet, equal to 70.09 miles.

Total number of gates now in use, 1,021.

Total number of hydrants now in use, 436.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 42 service pipes, consisting of

38	¾-inch,	948 feet.
1	1-inch,	33 feet.
1	4-inch,	18 feet.
2	8-inch,	40 feet.
<hr/>		<hr/>
42		1,039 feet.

There have been discontinued, 2; total number of service pipes at the present time, 3,792; total length of service pipes, 88,533 feet, or 16.76 miles.

We have set 76 meters during the year, total number now in use, 2,318.

There have been relaid 50 service pipes and 15 curbs have been placed on old supplies. There are still about one thousand services in the city without curb-stops and I would recommend that five hundred be placed on these old supplies the coming year.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	178.10	July,	180.45
February,	178.65	August,	179.55
March,	178.40	September,	178.60
April,	180.65	October,	178.30
May,	181.25	November,	177.80
June,	181.45	December,	177.25

The lowest point reached during the year was on December 31, being 176.85; the highest was on May 9 and June 2, and was 181.45; mean height for the year was 179.20, which was .34 foot higher than the mean height for the year 1912.

The triple expansion Worthington pumping engine which has been in operation since the high service was installed in 1892, was found to be in need of extensive repairs. The pump has been thoroughly overhauled by the manufacturers, the steam valves rebored, connecting rods renewed and the valves on the water end renewed. This engine is now in first-class condition and is capable of giving good service for many years. The No. 2 engine was also overhauled at the same time, but having been in service only since 1904 was found to be only slightly worn and with renewal of some minor parts is in as good condition as ever.

The wooden floor in the new gate-house at the dam, having rotted so as to become unsafe, was replaced with one of concrete, as was also the floor in the old gate-house.

A Winslow electrical recording indicator, which shows the height of water in the reservoir at any period of night or day and also makes a record of the same, has been installed in the pumping station. The indicator consists of a transmitter operated by diaphragm and lever at the

reservoir which is connected to the 10-inch blow-off pipe, and a register at the station. This gage is a much needed improvement at the station and a great help to the engineer in the operation of the pumps.

All of the buildings owned by the department have been painted and repaired and are in good condition.

An iron fence has been purchased to replace the present wooden fence at the pumping station, the old fence being in such condition that it was necessary to renew it. The iron fence has been received from the manufacturers but has not yet been erected, having arrived too late in the season for the work.

Thirty-one thousand pine seedlings from the state nursery at Boscawen have been set out on the pasture land owned by the city at Penacook Lake.

The growth of these pines will be watched with interest as departing from the usual custom of transplanting in the spring. These were set out in the fall after the season's growth was completed, upon the recommendation of State Forester Hirst.

I would recommend that the department purchase as many more to be set out in 1914.

A model 17 Buick touring car was purchased by the department early in the season of 1913, the tonneau removed, and converted into a service truck of about 1,200 lbs. capacity. This machine has been of great advantage, especially in carrying men and supplies to and from work and in answering the many calls which the care of the system demands.

The shores of the lake have been gone over several times during the year and all rubbish burned.

In my last report your attention was called to the presence of the gypsy moth in the woodlot on the south side of Forge Pond adjoining the Park and lots under control of the city, similarly infested, and also to the

damage that had been done by browntail moths among the white oak.

A joint meeting of the Land and Buildings Committees of the Water Board, the Park Commissioners and the City Government was held January 20, 1913, and it was voted to engage the services of an expert lumberman to examine the lots and estimate the amount of lumber on the same. The committees engaged Mr. Silas S. Wiggin, who estimated the lots at 500,000 feet.

On February 3, a meeting of the City Government was held and a resolution was passed authorizing the wood and timber on the city lot infested with gypsy moths to be cut and marketed under the direction of a committee of four consisting of the Mayor, one member of the Land and Buildings Committee of the Park Commissioners, one member of the Land and Buildings Committee of the City Government and the Superintendent of the Water-Works, and said committee was authorized to enter into a contract with responsible persons in the name of the city for the operation of said lots.

Bids were called for by this committee for cutting, sawing, sticking and marketing the hard and soft lumber.

The bids were advertised in the local papers and on February 13, the date set for opening them, the committee met and the following proposals were considered:

Albert J. Morrill, to cut, saw and stick, \$8 per M.

Knowles & Marston, to cut, saw and stick, \$8.50 per M.

Boutwell & Baker, to cut, saw and stick, \$6.50 per M.

to market, \$1 per M.

Boutwell & Baker, having made the lowest bid, the contract was awarded to that firm.

On March 24 the Board of Aldermen met and authorized the Mayor and Superintendent of Water-Works to deter-

mine the amounts due the contractors, the same to be charged to the account of incidentals and land damages.

Operations on the lot were commenced about the first of March and were completed the last of June.

As the lots under the separate control of the Water Board and the city were operated jointly, it was impossible to keep the lumber separate, so it was agreed, after looking the ground over thoroughly by the contractors and the committee, that the city's proportion of expenditures and receipts would be three-fifths, and that of the Water-Works, two-fifths, of the total.

A gang of men was put in to cut the cord wood at \$1.25 per cord; after working until July, we were obliged to raise the price per cord to \$1.60. The wood was measured by Mr. H. M. Richardson and amounted to 1124.5 cords. The cord wood will be removed from the lot during the winter and yarded where it will be convenient to handle.

A large portion of the lots has been cleared of the brush and it is our intention to clear the remainder ready to be reforested.

Following is a statement of the expenditures up to December 31, 1913:

EXPENDITURES.

Paid Boutwell & Baker,		
to sawing 874,396 ft.		
lumber at \$6.50		
per M,	\$5,683.57	
less 10% until final		
settlement,	568.35	
	—————	\$5,115.22
to sawing 15,804 ft. W. W. logs		
at \$3 per M,		47.41

Paid Boutwell & Baker,		
to operating 41,213 ft. butts at \$4.25 per M,	\$175.16

Amount collected on cord wood sold and paid into city treasury,		28.00
		<hr/>
Receipts to December 31, 1913,		\$7,587.27

Following this is the report of Mr. Rowell, the engineer, giving the operations of the pumping engines in detail.

Acknowledging the continued support and co-operation of your board, this report is

Respectfully submitted,

PERCY R. SANDERS,
Superintendent.

REPORT OF THE ENGINEER AT PUMPING STATION.

PUMPING STATION, CONCORD WATER-WORKS.

P. R. SANDERS, *Superintendent*:

SIR,—I would report that the pumping machinery at the pumping station is in a first-class condition.

Pump No. 1 has been thoroughly overhauled during the year, and is in good working order.

Pump No. 2 has had some repairs made, the air pump having new sleeves put in, also new valve stems made for the engine, and new rubber valves for the water end on both pumps.

The electrical indicator and recording gauge that was installed by your order is giving good satisfaction. It gives the exact height of the water in the reservoir at all times, day or night.

Following is a statement of coal and other supplies, used at the pumping station during the year, with a table showing the work for each month.

STATEMENT.

236 tons 1,255 pounds Pocahontas coal.

131 gallons valve oil.

15 gallons engine oil.

47 pounds of waste.

15 pounds of grease.

13 cords of wood.

AUDITOR'S STATEMENT.

I hereby certify that I have examined the books showing the receipts of the Concord Water-Works from January 1, 1913, to December 31, 1913, and find the same correct; and that the total amounts given therein correspond with the amount of receipts given by Percy R. Sanders, superintendent, in his report for the year, and also with the receipts reported by William F. Thayer, city treasurer.

HENRY E. CHAMBERLIN.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1913.

In form recommended by the New England Water-Works Association.

CONCORD WATER-WORKS.CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1910—21,497.

Date of construction—1872.

By whom owned—City of Concord.

Source of supply—Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING STATISTICS.

1. Builders of pumping machinery—Henry R. Worthington, Harrison, N. J.
2. Description of fuel used—*a.* Kind—bituminous.
 - b.* Brand of coal — Pocahontas.
 - c.* Average price of coal per gross ton delivered, \$5.154.
 - d.* Percentage ash, 9%.

3. Coal consumed for year—236.56 tons.
4. (Pounds of wood consumed) ÷ 3 = equivalent amount of coal—6,831.
5. Total equivalent coal consumed for the year for pumping purposes—239.61.
6. Total pumpage for the year without allowance for slip—281,261,395 gallons.
7. Average static head against which pump works—103.84 feet.
8. Average dynamic head against which pump works—105 feet.
9. Number of gallons pumped per pound of equivalent coal—524.
10. Duty =
$$\frac{281,261,395 \text{ gallons pumped,} \times 8.34 \text{ (lbs.)} \times 100 \times \text{dynamic head, } 105}{\text{Total fuel consumed, } 536,726 \text{ pounds.}} = 45,886.680$$
- Cost of pumping figured on pumping station expenses—\$5,484.51.
11. Per million gallons pumped—19.49.
12. Per million gallons raised one foot (dynamic)—\$0.185.

STATISTICS RELATING TO DISTRIBUTION SYSTEM.

MAINS.

1. Kind of pipe—cast iron and cement-lined.
2. Sizes—from two-inch to twenty-four-inch.
3. Extended—2,537 feet during year.
4. Renewed—615 feet during year.
5. Discontinued—481 feet during year.
6. Total now in use—70.09 miles.
7. Number of leaks per mile for year—
8. Length of pipes two inches and less diameter—3.15 miles.

9. Number of hydrants added during year—public, 6; private, 3.
10. Number of hydrants now in use—public, 436; private, 68.
11. Number of stop gates added during year—10.
12. Number of stop gates now in use—1,021.
13. Number of stop gates smaller than four-inch—
14. Number of blow-off gates—84.
15. Range of pressure on mains at center of city—88 pounds high service and 48 pounds low service.

SERVICES.

16. Kind of pipe—cement-lined.
17. Sizes—three-fourths-inch to ten-inch.
18. Extended—1,039 feet.
19. Discontinued—26 feet.
20. Total now in use—88,533 feet.
21. Number of service taps added during year—42.
22. Number now in use—3,792.
23. Average length of service—23.3 feet.
24. Average cost of service for the year—
25. Number of meters added during year—76.
26. Number now in use—2,318.
27. Percentage of services metered—61.12.
28. Percentage of receipts from metered water—79.92.
29. Number of elevators added—none.
30. Number now in use—10.
31. Number of standpipes for street watering—41.

INVENTORY

OF THE PROPERTY OF THE WATER DEPARTMENT, INCLUDING
THE PLANT AND WATER RIGHTS, AND ALL THE REAL
ESTATE AND PERSONAL PROPERTY IN THEIR POSSESSION,
JANUARY 1, 1914.

Water rights—land, etc.,	\$1,034,949.48
Water office—furniture, etc.,	975.00
Pumping station—furniture, supplies, etc.,	850.00
Shop at pumping station—machinery, tools, etc.,	2,300.00
Stable and basement at pumping station, horse, wagons, etc.,	1,200.00
Storehouse—hydrants, water gates, etc.,	2,890.00
Pipe yard—cast-iron pipe,	2,200.00
Shop at Penacook—pipe, etc.,	15.00
Shop at West Concord—pipe, etc.,	40.00
	<hr/>
	\$1,045,419.48

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1913.

The department responded to 98 bell alarms and 231 still alarms.

In addition one fire occurred in the city proper for which no alarm was given, making a total for the year of 330, an increase of 73 compared with the record of the previous year.

	Bell.	Still.	No alarm.	Total.
Precinct,	58	201	1	260
Penacook,	21	18		39
East Concord,	10	3		13
West Concord,	9	9		18
	—	—	—	—
	98	231	1	330

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance, and insurance recovered in each case.

The apparatus is in good condition and no extensive repairs were required during the year.

The fire alarm telegraph systems of the city proper and Penacook are in good condition.

Eight hundred feet of 2½-inch hose and three horses were purchased.

Three permanent men were added to the force and an auto combination piece of apparatus purchased during the year, two long steps in the line of efficiency.

The last one-horse wagon in the city proper was made a two-horse wagon carrying 200 feet more hose than formerly.

This increase, with the complement of 1,000 feet required by the auto combination, necessitated the removal from the racks of 1,200 feet.

It will be seen by this that an alarm from the business section is responded to by apparatus carrying 1,200 feet more hose than ever before on first alarm, or an aggregate of 5,000 feet. I therefore respectfully recommend the purchase of 1,200 feet of 2½-inch hose.

All of the hose wagons in the city proper and one at Penacook were provided with electric search lights during the year.

As Inspector of Wires I would report that the relations existing between this office and corporations doing business in the city are of the most pleasant character and I have reason to believe that the aim of each is to render to the public efficient service accompanied by the factor of safety. As Inspector of Buildings I would report that there has been a ready response to the requirements of the law relative to fire-escapes. Several have been already applied and plans have been drawn for others. In several instances conditions in blocks and basements have required attention.

During the month of September I had the pleasure of attending the convention of the International Association

of Fire Engineers held at New York City, a report of which I rendered at that time.

It was similar to the previous conventions, well attended and educational, and the privilege afforded me of attending was thoroughly appreciated.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

STILL. April 26, 2.40 p. m. Brush fire corner of Rumford and Penacook Streets. Extinguished by Chemical Company. No loss.

STILL. April 26, 5.30 p. m. Chimney fire in residence of

H. F. Paul, 114 South Street. Extinguished by Chemical Company. No loss.

4-4-4. April 27, 4.40 p. m. Brush fire northwest of junction of Ridge Road and Forest Street, near the W. F. Thayer lot. Detail from the department under command of Engineer W. J. Coffin sent. No loss. Labored one and one-half hours.

STILL. April 27, 7.04 p. m. Brush fire north of Penacook and west of Rumford Streets, on so-called Stone Crusher Road. Extinguished by Chemical Company. No loss.

STILL. April 28, 11.37 a. m. Chimney fire in residence of W. C. Jones, 59 Clinton Street. Extinguished by Chemical Company. No loss.

STILL. April 30, 11.04 a. m. A call to investigate cause of smoke in residence of Mrs. H. L. Wood, 6 Liberty Street. Chemical Company responded but no assistance was required. Back draft. No fire. No loss.

STILL. April 30, 12.14 p. m. Brush fire north of Penacook and west of Rumford Streets on so-called Stone Crusher Road. Extinguished by Chemical Company. No loss.

4-4-4. May 2, 10.12 a. m. Brush fire on the Plains, on land owned by Caleb Little. Detail from the department sent under command of Engineer W. J. Coffin. Needless alarm. No loss.

STILL. May 2, 8.12 p. m. Brush fire on Call Street. Detail sent in automobile with pony extinguishers. No loss.

STILL. May 3, 7.37 a. m. Chimney fire in residence of Miss Lizzie McIntire, 77 School Street. Extinguished by Chemical Company. No loss.

STILL. May 3, 11.54 a. m. A call to investigate cause of smoke at 166 North Main Street. Chemical Company responded but no assistance was required. No fire.

STILL. May 3, 12.32 p. m. Chimney fire reported in residence of F. B. Hobbs, 64 Centre Street. Chemical Company responded but no assistance was required. No loss.

STILL. May 3, 1.46 p. m. Brush fire on city lot near Penacook Lake. Detail and extinguishers sent from Central Station in auto. No loss.

STILL. May 4, 2.04 p. m. Brush fire at Abbotville, West Concord, reported to be near houses. Detail and extinguishers sent in auto. Needless alarm. See West Concord report.

STILL. May 6, 10.30 a. m. Fire in Broadway dump below Rollins Park. Chemical Company responded and succeeded in stopping it at the edge of brush land, after which a call was sent in for assistance in extinguishing the main fire.

STILL. May 6, 10.45 a. m. A call for assistance from scene of preceding fire. Detail and 200 feet of hose sent in chief's buggy. Line of hose laid and Chemical Company dismissed.

STILL. May 6, 7.30 a. m. Reserve hose wagon and another detail sent to preceding fire. Another line of hose laid. Four hundred fifty feet of hose wet. No loss.

STILL. May 6, 11.35 a. m. Chimney fire reported in residence of Caroline Rogers, 5 Green Street. Detail sent from Central Station but no assistance was required. No fire.

STILL. May 6, 6.15 p. m. A call to investigate cause of smoke at 144 North Main. Chemical Company responded but no assistance was required. No fire.

STILL. May 6, 6.30 p. m. Fire in Broadway dump. Detail sent with reserve hose wagon. Four hundred feet of hose wet. No loss.

STILL. May 7, 5.08 a. m. Chimney fire in residence of

N. Pichette, 26 Prospect Street. Extinguished by Chemical Company. No loss.

STILL. May 7, 10.49 a. m. Brush fire near the Mercer and Willcox residences, Pleasant Street. Extinguished by Chemical Company. No loss.

4-4-4. May 7, 10.52 a. m. Alarm given for preceding fire. Before barge was ready to leave the station word was received that the fire was under control and it was not sent.

STILL. May 8, 6.53 p. m. Chimney fire in residence of F. B. Gilmore, 17 Centre Street. Chemical Company responded but no assistance was required. No loss.

STILL. May 9, 10.12 a. m. Chimney fire in residence of J. Moore, 62 North Spring Street. Chemical Company responded but no assistance was required. No loss.

STILL. May 11, 10.50 a. m. Chimney fire in residence of Fred Proctor, 11 Holt Street. Extinguished by Chemical Company. No loss.

STILL. May 11, 5.32 p. m. Chimney fire in residence of Mrs. O. N. Davis, 20 Chestnut Street. Extinguished by Chemical Company. No loss.

Box 17. May 11, 11.06 p. m. Fire in waste barrel in rear of building corner of Washington and North Spring Streets, owned by the William G. Mason Association and occupied by the People's Market. Side of building scorched. Extinguished with chemicals. Recall, 11.25 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$6,000.00	\$10.00	None.	None.

STILL. May 13, 12.28 p. m. Slight fire on deck of dry bridge on Water Street near gas house. Caused probably from spark from locomotive. Extinguished by Chemical Company. No loss.

Box 191. May 13, 1.12 p. m. Fire in chicken coop in

rear of 39 Auburn Street, owned and occupied by James Burbeck. Caused by kerosene lamp attached to brooder. Extinguished with chemicals. Recall, 1.30 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Contents,	\$8.00	\$8.00	None.	None.

STILL. May 15, 8.34 a. m. Chimney fire in residence of I. A. Roby, 7 Summer Street. Extinguished by Chemical Company. No loss.

STILL. May 17, 11.20 a. m. Fire in ash barrel in rear of 47 Green Street. Extinguished by Chemical Company. No loss.

STILL. May 17, 1.49 p. m. Chimney fire in residence of Charles Byrne, 11 Washington Street. Extinguished by Chemical Company. No loss.

STILL. May 17, 4.55 p. m. A call to investigate cause of smoke in Concord Hall, 97 North Main Street. Chemical Company responded but no assistance was required. Back draft. No loss.

STILL. May 18, 11.09 a. m. Chimney fire in residence of Elwin L. Page, 12 Court Street. Chemical Company responded but no assistance was required. No loss.

STILL. May 20, 2.34 p. m. Chimney fire in residence of H. A. Bragg, 20 Stone Street. Extinguished by Chemical Company. No loss.

STILL. May 20, 5.37 p. m. Grass fire in rear of 24 South Spring Street. Extinguished by Chemical Company. No loss.

STILL. May 21, 4.21 p. m. Chimney fire in residence of W. King, 40 Concord Street. Extinguished by Chemical Company. No loss.

STILL. May 27, 8.13 a. m. Chimney fire in residence of C. A. Bicknor, 8 Pierce Street. Extinguished by Chemical Company. No loss.

STILL. May 30, 12.50 p. m. Brush fire in rear of building on Rockingham Street, between Bow Street and Broadway. Chemical Company responded and succeeded in keeping it away from buildings, but it covered such an area that it was deemed prudent to summon assistance. No loss.

STILL. May 30, 1.34 p. m. A call for assistance from scene of preceding fire. Eagle wagon sent and two lines laid, one from Rockingham Street and the other from Broadway. Five hundred and fifty feet of hose wet. No loss.

STILL. June 1, 9.58 p. m. Alarm occasioned by burning of large pile of brush on city dump near crematory. Chemical Company responded but no assistance was required. No loss.

STILL. June 2, 6.54 p. m. Slight fire in flooring of lower bridge, Water Street. Caused probably by cigarette stub thrown from automobile. Extinguished by Chemical Company. No loss.

Box 3. June 2, 7.17 p. m. Slight fire in north end of old repair shop, B. & M. R. R. yard. Cause unknown. Six hundred fifty feet of hose wet. No loss.

STILL. June 3, 6.35 a. m. Reported chimney fire at 44 Ferry Street. Chemical Company responded. No fire.

STILL. June 3, 9.31 a. m. Chimney fire in residence of E. R. Brew, 44 Perley Street. Extinguished by detail from Central Station. No loss.

STILL. June 3, 12.03 p. m. Residence, barn and shed on Weston Street, Plains District, owned by Mrs. Sumner Thompson and occupied by W. H. Ash and E. A. Ash destroyed. Cause unknown. As there is no water on the plains and the wind was blowing a gale, the buildings were doomed at the outset. Chemical Company responded but could do little outside of protecting surrounding buildings.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$1,500.00	\$1,500.00	\$1,000.00	\$1,000.00
Contents:				
W. H. Ash,	500.00	500.00	None.	None.
E. A. Ash,	400.00	400.00	None.	None.

STILL. June 8, 6.10 p. m. Chimney fire in residence of F. E. Woods, 34 Thompson Street. Extinguished by detail from Central Station. No loss.

4-4-4. June 9, 10.23 a. m. Brush fire South Pembroke Street, Plains. Detail from the department sent under command of Engineer W. J. Coffin. Labored one hour. Detail left to watch. No loss.

STILL. June 11, 1.10 p. m. Set of buildings on the Hopkinton Road owned and occupied by Frank G. Proctor destroyed. Cause unknown. As these buildings were far removed from fire protection and the wind blowing a gale, nothing could be done to save them. A detail with pony extinguishers was immediately sent by automobile and the Chemical Company followed as soon as extra horses could be procured. Upon arrival, however, the Frank W. Paige buildings located some one thousand feet southeast of the Proctor buildings and on the other side of the road had been fired by flying brands and were beyond saving, the department losing two extinguishers, axe, and roof ladder in the attempt. From here the fire leaped through the fields into the woods, endangering houses near Turkey River, and at 2 p. m. Kearsarge engine and Eagle wagon were sent for and an alarm given at the St. Paul's School calling out the firemen of that institution. At 2.22 p. m. the brush fire alarm was ordered given in the city and details were sent out in automobiles. Residence some one hundred and fifty feet south of the Proctor buildings, owned by the Kate Flint Estate and occupied by Miss Harriet Kimball, slightly damaged on roof while the Smith

buildings directly opposite the Proctor buildings escaped all loss.

STILL. June 11, 2 p. m. See alarm, 1.10 p. m., same date.

4-4-4. June 11, 2.22 p. m. See alarm, 1.10 p. m., same date.

Car,	\$500.00	\$100.00	\$200.00	\$100.00

STILL. June 23, 6.03 p. m. A call to investigate cause of smoke in basement of 9 Capitol Street. Chemical Company responded but no assistance was required. No fire.

4-4-4. June 28, 12.06 p. m. Brush fire in city lot, Penacook Lake. Detail from the department sent under command of Engineer S. T. Ford. Labored three hours.

STILL. June 28, 12.41 p. m. A call for assistance from scene of preceding fire. Kearsarge engine and reserve reel sent. Engine worked two hours. Loss, trifling.

STILL. June 30, 11.28 a. m. Fire in dump on Bridge Street near crematory. Chemical Company responded but the fire had worked so far underneath the surface that a hydrant line was necessary.

STILL. June 30, 11.45 a. m. A call for assistance from the scene of preceding fire. Reserve reel, reserve wagon, and Eagle wagon sent and line laid. Sixteen hundred fifty feet of hose wet. No loss.

4-4-4. June 30, 12.12 p. m. Brush fire near the Portsmouth bridge. Detail from the department sent under command of Engineer S. T. Ford. Labored four hours. Cause unknown. This was the beginning of a brush fire which burned until the evening of July 5, when rain came as a relief. In the meantime details were kept on duty night and day and as occasion required assistance was rushed to the scene from the city. Before it was ex-

tinguished it had crossed the Garvin's Falls Road, endangering buildings, but by hard work these were saved. No loss.

STILL. June 30, 1.18 p. m. A call to investigate cause of smoke in Exchange Block, 96 North Main Street. Chemical Company responded but no assistance was required. No fire.

4-4-4. June 30, 9.49 p. m. Continuation of the Portsmouth bridge brush fire. Detail from the department sent under command of Engineer W. J. Coffin. Labored three hours.

Box 23. July 1, 1.16 a. m. Fire in the building owned and occupied by the N. E. Granite Works north of Ferry Street and east of the Northern Railroad tracks. Cause unknown. Three thousand fifty feet of house wet. Recall, 4.49 a. m. Several cars owned by B. & M. R. R. scorched.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$7,100.00	\$3,900.00	\$7,100.00	\$3,900.00
Contents,	20,700.00	4,271.48	20,700.00	4,271.48

4-4-4. July 1, 10.52 a. m. Continuation of brush fire near the Portsmouth bridge. Detail from the department sent under command of Engineer S. T. Ford. Labored seven hours.

4-4-4. July 1, 1.04 p. m. A call for assistance from scene of preceding fire. Detail from the department sent. Labored four hours.

STILL. July 1, 1.09 p. m. Another call for help from scene of preceding fire, which at this time had reached the Garvin's Falls Road, endangering the Passaconaway Club buildings. Chemical Company responded, four horses being used to make the run. Buildings saved by ploughing and back firing.

Box 55. July 1, 8.40 p. m. Slight fire in empty oil barrels east of round-house, B. & M. R. R. yard. Cause unknown. Extinguished by employees. Seven hundred fifty feet of hose wet. Recall, 9.03 p. m. No loss.

4-4-4. July 2, 1.40 p. m. Passaconaway Club buildings again in danger from the Garvin's Falls brush fire. Detail sent from the department under command of Engineer W. J. Coffin. Labored five hours. City spraying machine also sent over but was not used.

STILL. July 2, 2.43 p. m. Alarm occasioned by kettle of fat in oven of gas stove taking fire in the residence of Robert Tucker, 6 Allison Street. Extinguished by Chemical Company. No loss.

STILL. July 3, 3.40 p. m. A call for ladders and extinguishers from the patrol on duty on the Garvin's Falls road. Fire alarm ladder gig and ponies sent by auto.

STILL. July 3, 3.55 p. m. Slight brush fire north of Bridge Street near public bath. Extinguished by detail from Central Fire Station. No loss.

STILL. July 4, 11.38 a. m. Fire in residence 6 Winter Street, owned and occupied by J. N. Bluto. Cause unknown. See next alarm.

Box 21. July 4, 11.41 a. m. Box pulled for preceding fire as a precautionary measure. Extinguished with chemicals. Recall, 12.04 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$1,500.00	\$86.00	\$1,000.00	\$86.00
Contents,	1,000.00	82.00	500.00	82.00

STILL. July 4, 4.07 p. m. A call for a small detail from the patrol on duty at the Garvin's Falls Road brush fire. Detail sent by electric car.

STILL. July 4, 8.18 p. m. Grass fire in rear of residence 75 Franklin, Street. Chemical Company responded but

no assistance was required. Extinguished by neighbors. No loss.

STILL. July 7, 12.28 p. m. Slight fire on roof of building 2 Montgomery Street, owned by Mrs. A. W. Hill. Caused by spark from chimney. See next alarm.

Box 24. July 7, 12.30 p. m. Box pulled for preceding fire as a precautionary measure. No water used. Re-alarm 12.57 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$3,000.00	\$6.00	\$2,500.00	\$6.00

4-4-4. July 7, 9.39 p. m. Brush-fire on Plains, east of South Pembroke Street and south of camp grounds. Details from the department sent under command of Engineer W. J. Coffin. No assistance was required. Extinguished by nearby residents.

STILL. July 7, 11.02 p. m. Chimney fire in residence of A. F. Cheney, 79 Rumford Street. Extinguished by Chemical Company. No loss.

4-4-4. July 8, 2.20 p. m. Brush fire on Plains, east of South Pembroke Street and south of camp grounds. Details from the department sent under command of Engineer S. T. Ford. Labored three hours. This was the beginning of another dangerous fire, as numerous buildings stood in its path, which extended over an area of four miles in length and of width varying from three-quarters of a mile to a mile and a half. Fanned by a gale it raged until the morning of the 10th inst., when rain came as a temporary relief. Patrol duty was kept up day and night. Back fires were set around the buildings and in some instances ploughing was resorted to. As occasion required help was rushed to the scene from the city. No buildings were destroyed, which was regarded as remarkably fortunate. Some hay which lay in the fields was burned but

probably would not exceed three tons, the grasshoppers having taken care of the rest before it was cut.

4-4-4. July 9, 12.46 p. m. Continuation of preceding fire. Detail from the department sent under command of Engineer W. J. Coffin. Labored eight hours.

4-4-4. July 9, 2.35 p. m. Additional detail sent to scene of preceding fire in response to a call for help. Labored eight hours.

STILL. July 9, 3.45 p. m. Continuation of preceding fire. Stearns building on the Loudon Road in danger. Chemical Company sent, four horses being used to make the run. The arrival of this contingent was most timely.

STILL. July 9, 4.16 p. m. Another call for help from the scene of the Plains brush fire. An alarm was ordered given at East Concord and a detail taken over in the Suburban Transit Company's auto. Labored four hours, when a brush fire in its own district compelled the return of the detail.

STILL. July 9, 4.20 p. m. A call for ladders from same brush fire. Prentiss buildings in danger. Ladders sent on fire alarm gig attached to auto.

4-4-4. July 9, 9.36 p. m. This alarm was given that the detail responding at 12.46 p. m. might be relieved. Detail from the department sent to State Fire Warden D. J. Adams. Labored six hours when rain came, which, while not putting the fire completely out, relieved the situation greatly.

4-4-4. July 10, 2.40 p. m. Brush fire on city lot, West Concord. Detail from the department sent under command of Engineer S. T. Ford. Labored five hours.

STILL. July 10, 4.45 p. m. A call for help from scene of preceding fire. Kearsarge engine, reserve reel, and reserve wagon sent. Seven hundred feet of hose wet. Engine worked one and one-half hours. Loss, trifling.

STILL. July 11, 10.50 a. m. Plains brush fire re-kindled. Extinguished by small detail sent in auto.

STILL. July 12, 10.55 a. m. Plains brush fire reported as burning again. Small detail sent in auto. This fire was found to be four hundred feet from the edge of the former fire. Evidently set. Detail succeeded in extinguishing it with pony extinguishers.

STILL. July 13, 2.42 p. m. Grass fire east of railroad tracks opposite Thorndike Street. Extinguished by Chemical Company. No loss.

BOX 51. July 13, 10.09 p. m. Fire in old cars in B. & M. R. R. yard below new shops. As it was the intention to burn these cars the next day, when there would have been plenty of men to take care of them, the loss was nothing. Six hundred feet of hose wet. Recall, 10.37 p. m.

STILL. July 14, 7.38 a. m. Chimney fire in residence of Isaac Bushey, South Street below Rollins Park. Extinguished by Chemical Company. No loss.

STILL. July 14, 9.25 a. m. Fire in wooden ash barrel in rear of residence 36 Mills Street. Shed slightly scorched. Extinguished by Chemical Company. Loss, trifling.

STILL. July 15, 2 p. m. Chimney fire in Priscilla Block, 8 South Main Street. Extinguished by Chemical Company. No loss.

STILL. July 16, 7.45 p. m. Fire in dump, Bridge Street. Chemical Company responded but could do nothing. Highway department left man to watch during the night.

STILL. July 17, 10.15 a. m. Fire in dump, Bridge Street. Kearsarge wagon, reserve reel and reserve wagon sent. As a line was being laid word was received from the highway department that the spraying machine with detail was on the way to take care of it. Fire department apparatus dismissed.

STILL. July 20, 11.00 a. m. Fire in dump, Bridge Street. Kearsarge engine and reserve wagon with detail sent. Engine worked four hours. Five hundred feet of hose wet. No loss.

STILL. July 20, 1.45 p. m. Grass fire reported as burning east of railroad tracks opposite Thorndike Street. Chemical Company responded but could find no fire.

Box 56. July 24, 2.59 p. m. Set of buildings owned and occupied by Forrest E. White destroyed. These buildings were located on the Fiske Road far from fire protection. Cause of fire unknown. Ten hundred fifty feet of hose wet by mistake, the end being out of sight of the hydrant man. This amount of hose was about half of the amount which would have been required to reach the buildings, besides running up a very steep hill. Taking into consideration the fact that the buildings were located some three miles from the city, the uselessness of laying a complete line became apparent. Recall, 4.44 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Buildings,	\$3,000.00	\$3,000.00	\$1,500.00	\$1,500.00
Contents,	800.00	50.00	200.00	50.00

STILL. July 29, 11.37 a. m. Chimney fire in residence of Leo Mills, 7 Hutchinson Avenue. Extinguished by Chemical Company. No loss.

STILL. July 31, 12.40 p. m. A call for assistance from West Concord. Barn full of hay burning near the John Swenson granite sheds. Eagle wagon sent but on arrival it was found that the Cataract Company had the situation well in hand and the apparatus was not used. See West Concord report.

STILL. August 2, 12.55 p. m. Fire on roof of shed used for storage purposes, owned and occupied by John Coburn. Building located on north side of Penacook Street east of

pumping station. Caused by spark from locomotive. Chemical Company responded. Before arrival a bell alarm was sent in.

Box 15. August 2, 12.58 p. m. Box pulled for preceding fire. Six hundred feet of hose wet. Recall, 1.17 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$300.00	\$30.00	\$200.00	\$30.00

STILL. August 2, 3.35 p. m. Chimney fire in residence of James Adams, 4 Foster Street. Extinguished by Chemical Company. No loss.

Box 25. August 3, 4.59 a. m. Fire in garage rear of 90 North Main Street, owned by the Franklin Low estate and occupied by Nelson Braley. Caused probably by leaky gasoline tank. Five hundred feet of hose wet. Recall, 5.40 a. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$300.00	\$100.00	None.	None.
Contents,	600.00	500.00	None.	None.

STILL. August 4, 4.55 p. m. Chimney fire in residence of John Spene, 11 Curtice Avenue. Extinguished by Chemical Company. No loss.

STILL. August 6, 5.21 p. m. Chimney fire in residence of Moses Rosendale, 27 Jackson Street. Extinguished by Chemical Company. No loss.

STILL. August 7, 5.10 p. m. Chimney fire in residence of Joseph Seymour, 43 Bradley Street. Extinguished by Chemical Company. No loss.

STILL. August 18, 7.20 p. m. Chimney fire in residence of Nora Porty, 19 Prince Street. Extinguished by Chemical Company. No loss.

4-4-4. August 21, 11.46 a. m. Brush fire on the Plains near residence of Mrs. Fleming Mozee. This was the beginning of another exceedingly dangerous fire, numerous houses lying in its path and a southerly gale prevailing. While by night it had been hemmed in by back fires and all buildings saved, it was far from safe to leave and men were kept on duty until midnight of the 22d inst., when rain came. Estimated area of ground swept by fire, 1,500 acres. Loss, unknown. Detail responding to this alarm under command of Engineer S. T. Ford.

4-4-4. August 21, 1.05 p. m. A call for assistance from scene of preceding fire. Another barge and detail immediately sent.

STILL. August 21, 2.35 p. m. A call for the Chemical Company from scene of preceding fire. Immediately sent, four horses being required to make the run.

STILL. August 21, 2.40 p. m. Another call for assistance. Twelve men sent in autos.

STILL. August 22, 1.19 p. m. Fire on roof of the N. E. Granite Works shed, north of Ferry Street. Caused from spark from hoisting engine. Chemical Company responded but no assistance was required. Extinguished by employees. Loss, trifling.

STILL. September 5, 9.06 p. m. Fire in box car in railroad yard near freight house. Car loaded with refuse. Cause unknown. Loss unknown. Extinguished by Chemical Company.

STILL. September 10, 10.46 a. m. Chimney fire in brick block 144 North Main Street, owned by Mrs. Carolyn Stickney and occupied in part by G. H. Hunter as residence. Extinguished by Chemical Company.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$40,000.00	\$15.00	\$25,000.00	\$15.00

Box 13. September 13, 5.30 p. m. Slight fire in residence 50 Franklin Street, owned and occupied by Joseph H. Ford. Caused by child, matches, and lace curtains. Extinguished by occupants. Recall, 5.36 p. m.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$1,800.00	\$15.00	\$1,500.00	\$15.00
Contents,	600.00	20.00	None.	None.

STILL. September 14, 6.51 p. m. Chimney fire in residence of Rev. I. W. Sherr, 4 Pierce Street. Extinguished by Chemical Company. No loss.

STILL. September 15, 9.56 a. m. Chimney fire in unoccupied residence, 83 Centre Street. Painters at work in building built fire in stove. Extinguished by Chemical Company. No loss.

APPARATUS AND FORCE.

The apparatus and force of the department is as follows: Precinct, located at the Central Fire Station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine Company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine Company (14 men); one second-class Amoskeag engine, "Governor Hill," relief engine, in charge of an engineer and firemen; and one auto combination car in charge of five permanent men; one ladder truck, "City of Concord," attached to Hook and Ladder Company (21 men); one house man at Central Fire Station. There are seven horses kept at this station. There are nine permanent men located at the Central Fire Station and one permanent man at each fire station within the precinct.

The Alert Hose Company (11 men), located on Washington Street, has a modern hose wagon with permanent man and two horses.

The Good Will Hose Company (11 men), located on the corner of Concord and South State Streets, has a modern hose wagon with permanent man and two horses.

Veterans' Auxiliary Company (30 men).

One hook and ladder truck, one hose reel, one chemical engine and one wagon in reserve.

The "Pioneer" Engine Company, No. 3 (28 men), at Penacook, has a third-class Metropolitan engine, with two hose wagons.

The Cataract Company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand engine and a modern hose wagon.

Old Fort (30 men), East Concord, has a 4½-inch cylinder Hunneman hand engine and hand ladder truck, and one hand-drawn chemical engine, 50-gallon, single tank.

HOSE.

FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into six districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, Box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington Streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4, 5 AND 6. Embrace all south of Pleasant street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 9. New Hampshire State Prison.
- 12. Curtice Avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. C. S. Gale's Store.
- 19. Centre and Liberty.
- 131. Franklin and Charles.
- 191. Auburn and Granite.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.

25. Main and School.
26. Centre and Union.
27. School and Merrimack.
28. School and Spring.
29. Centre and Essex.

DISTRICT No. 3.

32. Warren and Pine.
34. Central Fire Station.
35. Martin's Drug Store.
36. Pleasant and Spring.
37. Pleasant and North Fruit.
38. Orchard and Merrimack.

DISTRICT No. 4.

41. South and Thompson.
42. Good Will Hose House.
43. Main and Fayette.
45. Nelson & Durrell's Store.
46. Perley and Grove.
47. South, opposite Downing.
48. Thorndike and South.
49. West and Mills.
412. Wall and Elm.
413. Main, opposite Thorndike.
414. State and West.
471. Clinton and South Fruit.

DISTRICT No. 5.

51. Boston & Maine Railroad, new shops.
52. South Main and Allison.
53. Hall and Hammond.
54. Broadway and Pillsbury.

- 56. St. Paul's School.
- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

DISTRICT No. 6.

- 62. South Main, opposite Holt Bros.

PRIVATE BOXES.

- 5. Boston & Maine Railroad, north end passenger depot.
- 6. The Abbot & Downing Company.
- 7. New Hampshire State Hospital.
- 8. Page Belting Company.
- 9. Three boxes inside New Hampshire State Prison.
- 33. State House.
- 39. Odd Fellows' Home.
- 55. Boston & Maine Railroad, old repair shops.

 FIRE-ALARM SIGNALS.

Alarms rung in from Boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 471, 51, 52, 53, 54, 55, 56, 57, 62, 521 and 522, will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from Box 56.

Alarms rung in from Boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 131, 191, 21, 23, 26, 27, 29, 32, 37, 39 and 56 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose Companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded

to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from Boxes 12, 37, 53, 54, 57, 191, 471 and 521 will not be responded to by the Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to Box 6, on first alarm; to Boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to Boxes 7, 8, 9 and 39 on first alarm; to Boxes 5, 6, 12, 13, 14, 15, 16, 17, 18, 19, 131, 191, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 471, 52, 54, 55, 57, 62, 521 and 522, on second; to all others on third.

Combination Company will respond to all box alarms.

Veterans' Auxiliary Company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, Box 34 (Central Station) will follow.

All-out signal, three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

MILITARY SIGNAL.

Two rounds of 3-1-2.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause 15 seconds between the rounds.

The signal to close for the forenoon session will be given 8 o'clock a. m.

The signal to close for the afternoon session will be given 1 o'clock p. m.

The signal to close all schools for one session will be given 11.30 a. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH

the "Gamewell" patent. It embraces 42 miles of wire. On the lines are 46 fire-alarm boxes belonging to the city, and 10 private boxes—in all, 56. There are three alarm bells, one of 3,724 pounds (bell metal), one of 740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 10 direct action tappers, one four-circuit repeater, and six indicators.

The battery consists of 252 storage battery cells.

The alarm system was installed in 1880 by the Gamewell Fire-alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

PENACOOK FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

V. C. Green, Chief Engineer:

I herewith submit for your consideration the following report of the Penacook fire-alarm telegraph system: The system is the Gamewell patent, and consists of four and one half miles of No. 9 iron wire. On the lines are eleven boxes owned by the city, two private boxes, one 1,500-pound bell, one indicator, three mechanical gongs and three direction tappers. The battery consists of thirty-six storage battery cells. I would respectfully recommend the addition to the system of two new boxes the coming year.

Respectfully submitted,

FRED M. DODGE,
Superintendent of Fire-Alarm.

LOCATION OF BOXES.

31. Elm Street, near S. N. Brown's house.
34. Charles Street.
35. Washington Square.
37. Washington Street, near outlet.
38. Junction of West Main and South Main Streets.
39. South Main Street, near cemetery.
41. Corner of Center and East Canal Streets.
42. High Street, opposite Maple Street.
45. Summer Street, opposite Church Street.
47. Merrimack Street, opposite Hose House.
48. Corner Penacook and Rolfe Streets.

PRIVATE BOXES.

25. Hoyt Electrical Instrument Works.
62. Concord Axle Works.

ALL-OUT SIGNAL.

Three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each.

OUT OF TOWN SIGNAL.

Two rounds of eleven strokes each.

FOR FIRE ON BOSCAWEN SIDE.

Box 35, with two additional strokes.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close all schools for the forenoon session will be given at 7.30 a. m.

The signal to close for the forenoon session at the Charles Street building will be given at 8.00 a. m.

The signal to close all schools for the afternoon session will be given at 12.15 p. m.

The signal to close for the afternoon session at the Charles Street building will be given at 12.45 p. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Saturday afternoon at 12.50 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

The Penacook fire-alarm system was installed in June, 1908, under direction of the chief engineer.

REVISED ORDINANCE.

CHAPTER XVIII.

FIRE DEPARTMENT.

- SECTION
1. Fire department—how constituted.
 2. Tenure of office, vacancies.
 3. Chief engineer, salary.
 4. Chief engineer, powers and duties.
 5. Assistant engineer, powers and duties in absence of chief.
 6. Foremen, duties of inspection, etc.
 7. Foremen, duties at fires.
 8. Stewards, Alert and Good Will Hose companies.
 9. Apparatus to be cleaned, etc.
 10. Badges and uniforms.
 11. Salaries and pay.
 12. Extra services, charges for.
 13. Apparatus and firemen to be kept in city.
 14. Engineers to inspect buildings; to take means for speedy extinguishment of fires.
 15. Absence, neglect of duty.
 16. Volunteer companies.
 17. Parade, drill, and inspection.
 18. Engineers—full control at fire.
 19. Regulations concerning shavings and combustibles.
 20. Board of engineers to make regulations.

- SECTION
21. Disobedience and neglect of duty; qualifications of members.
 22. Applications for membership; officers and members not to take part in political matters.
 23. Fire alarm telegraph—chief engineer to have control.
 24. Vacation without loss of pay, when.
 25. Supplies, purchase of.
 26. Removal and protection of property endangered by fire.
 27. Hydrants to be personally examined by chief engineer.
 28. Pay-roll of department.
 29. Care and control of fire department buildings in Wards 1, 2, and 3.
 30. Stewards of companies in outside wards.
 31. Regulations concerning drivers and permanent men; chief engineer to be furnished with horse and wagon.
 32. Brush and forest fires.
 33. Veteran Firemen's Associations made auxiliary branch.
 34. Appropriation for.

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer from Ward 1, Ward 2 and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including driver; one relief steamer (company) to consist of two men; two hose companies to consist of eleven

men, including driver; [*a chemical engine company to consist of two men]; a hook and ladder company to consist of twenty-one men, including driver; a house man at Central Fire Station; steamer Pioneer, not less than twenty nor more than forty men; hand engine companies No. 1 and No. 3, not less than twenty nor more than thirty men each. Each company shall be allowed three substitutes except Hook and Ladder Company, No. 1, which shall have five, to be approved by the chief engineer. The engineers shall exercise the powers of fire-wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, unless herein otherwise provided, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services as chief, in addition to the use of said house, rent free, the sum of twelve hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for

*Displaced by Combination Company, December 9.

extinguishing fires, protecting property, preserving order and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the board of aldermen annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the public statutes. He shall visit

each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The captain of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and account of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The captain of each company shall, under the direction of the chief engineer, have charge and manage

ment of his company at fires; the lieutenant shall assist the captain in the discharge of his duties, and act as clerk of the company, and in the absence of the captain assume his authority. The captain and lieutenant shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective stations at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company, to have its engine, hose and other apparatus cleaned, washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective captain may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation uniform worn by the fire department.

SECT. 11. The pay-rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Captains and clerks of companies will forward their pay-rolls to the board of engineers for approval and after the action of said engineers and the committee on accounts and claims, said pay-rolls shall be passed over to the city tax collector, under whose direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any firemen, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, schoolhouses and asylums once in each six months and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command of the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of teams shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each captain to an engineer, and each other member to the captain of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars may be expended annually. The companies in Wards 1, 2 and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulation respecting the kindling, guarding and safe-keeping of fire and for the removal of shavings and other combustible from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of any of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined

by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the full, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the Central Station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central Station shall be obliged to understand the fire-alarm system, in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation without loss of pay of fourteen days in each year. In addition they shall be entitled to be off duty without loss of pay two days in each month, such two days not to be taken in the same week.

In the weeks that they are not off duty for a day, under the above provision, they shall be entitled to be off duty for one night without loss of pay. All vacations and absences from duty under the above to be under the direction of the chief engineer.

SECT. 25. The standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SECT. 28. The annual pay of the members of the fire

department shall be as follows, and in full for all services in said department:

Chief, twelve hundred and fifty dollars per annum and house-rent; permanent force at Central fire station, eight hundred and forty dollars each, drivers at Good Will and Alert hose houses, eight hundred and forty dollars each, the members of the chemical company nine hundred and twelve dollars each, per annum, payable semi-monthly; assistant engineers, within the precinct, one hundred and forty-five dollars each; engineers of steamers, within the precinct, one hundred and thirty-five dollars each; captains of companies, within the precinct, each one hundred and ten dollars per annum; lieutenants of companies, within the precinct, one hundred and five dollars per annum; members of steamer, hose, and hook and ladder companies, within the precinct, and house man at Central fire station one hundred dollars per annum; outside the precinct, engine companies Nos. 2 and 3, three hundred and forty dollars each, and Pioneer Steamer company No. 3 [*six hundred dollars], said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook [†twenty-five dollars]; assistant engineer at East Concord, twenty dollars; and assistant engineer at West Concord, twenty dollars.

SECT. 29. The several engineers residing in Wards 1, 2 and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls, or any other part of such

*Advanced to one thousand dollars. Effective January 1, 1913.

†Advanced to seventy-five dollars. Effective July 1, 1913.

building, shall be made. Said engineers may severally appoint janitors, at annual salaries not to exceed fifteen dollars, who shall serve under the exclusive direction of the engineer having the care and control of the building where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 30. Stewards for the Pioneer Steamer Company and Engine Companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer Company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for stewards of Engine Companies Nos. 2 and 3, thirty dollars per annum each. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire-alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief

engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except the chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, shall have power to hire the same; the chief may also increase as far as possible the number of call men who wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 32. All alarms for brush or for forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SECT. 33. The Veteran Firemen's Association is hereby constituted and made an auxiliary branch of the regular fire department of this city, the members of said association to be considered as honorary and to organize a co-operative working force to serve in emergency, without compensation, such service to be under the direction and control of the officers of the regular organization in alliance and compliance thereto.

SECT. 34. The standing committee of the board of aldermen on fire department is authorized and directed to rent, at an expense not exceeding one hundred and fifty dollars a year, suitable rooms for the accommodation of said Veteran Firemen's Association, the same to be selected by said association, the same to be charged to the regular appropriation for fire department.

ADDITIONAL REGULATIONS.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incompleated line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the captain first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of the firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked absent on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 15. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Captains will be held responsible for all lack of promptness and efficiency in their commands.

ROLL OF THE FIRE DEPARTMENT, 1913.

REPORT OF THE BOARD OF PUBLIC WORKS.

To the Board of Aldermen:

The Board of Public Works herewith submits its third annual report for the year ending December 31, 1913.

The board has held thirty-nine meetings including hearings, which have been held on the premises covered by the petitions considered.

One hundred and nine petitions have been presented to the board; ninety-three petitions have been granted; fourteen were referred to the various heads of departments and two were given leave to withdraw.

Early in January a contract was made between the city of Concord and the Concord Electric Company to light the streets with electricity for a period of ten years, using Tungsten street lamps, so called. The use of gas for street lights was discontinued March 1, 1913. New lamps were installed during the year as follows:

One on the Plains, corner of North Pembroke Road and Robinson Street.

One, corner School and Fruit Streets.

One on Gladstone Street.

For a detailed account of work on streets and highways, garbage and sprinkling precincts, including receipts and expenditures, see report of superintendent of streets, herewith appended.

For report of the work in the several sewer precincts, see report of the city engineer, herewith appended.

Respectfully submitted,

CHARLES J. FRENCH, *Mayor,*

OLA ANDERSON,

ELMER H. FARRAR,

RICHARD A. BROWN,

Board of Public Works.

REPORT OF THE HIGHWAY DEPARTMENT.

OFFICE OF SUPERINTENDENT OF STREETS,
CONCORD, N. H., January 20, 1914.

To the Board of Public Works:

GENTLEMEN,—The superintendent of streets herewith submits the annual report of the work of the highway department for the year ending December 31, 1913.

The past year was an unusually busy one for the department, especially along the line of permanent work and general repairs. In my last report, I stated that all the bridges should be painted and expected that the work could be done during the year, but it was impossible to paint any except the Horse Hill bridge. The others should be painted early next spring. The Main Street and Walnut Street bridges in Penacook and the Federal bridge will have to be replanked and the Federal bridge may need new stringers. The plank for the Federal bridge is ready and the work will be done as early as the weather permits. The town of Pembroke has not taken any action in regard to repairing the Richardson Mill bridge, but I think something should be done on it as it was necessary to restrict traffic here last season.

The usual amount of work was done on concrete walks, both new and repairs, and quite a number of gravel walks were also built. There were not so many catch basins put in as usual, not that less were needed but it was impossible to get the work done. There were a large number of iron pipe driveways put in and the calls for them are increasing on account of the automobiles.

Considerable tarvia was used as a surface treatment on the macadam last summer and the results were satisfactory. It will be necessary to give all the macadam some kind of

surface treatment early in the season as the automobile traffic makes it necessary in order to hold the macadam together. The state highway department furnished aid in resurfacing the South Pembroke and Penacook roads and no doubt will do so each year for the work on the trunk lines through the city.

The trees in the city are still infested with the browntail and gypsy moths and the elm tree beetle. There was no apparent flight as usual of the browntail in July and it looked as though the trees might not be badly infested, but later in the season we found that there were more nests than usual. I think possibly the smaller lights of the new lighting system did not attract the moths and therefore the trees became more thickly infested. The present indications are that we shall find that the gypsy moth has spread over a larger territory this year. In several previous reports I have called your attention to the number of trees that have died and been removed and recommended that new ones should be set out. I think that a large number of the trees have been killed by gas from defective gas pipes. If the department were to set out a few trees each year, taking care to plant the same kind of trees as are already on the street, we should in time do much toward improving the appearance of many of the streets. It is a deplorable fact that so many poplar trees have been set out in different sections of the city and I hope that no more will be planted in the streets.

The use of oil last summer for dust laying instead of water, while possibly a little more expensive, gave much more satisfactory results. With oil the dust is laid for the whole day and evening, while with water, if windy, the streets are soon dried up and often become very dusty soon after the sprinklers have finished for the day. I think it would be wise to use oil again next summer. We had an unusually dry season last year and it was necessary to run more sprinklers later into the fall than ever before.

It is hard to find any place for dumping garbage within easy hauling distance and I would again recommend the purchase of an auto truck for the collection of garbage. The recent extension of the precinct and the difficulty of finding proper places for disposing of the garbage, have increased the expense considerably and for that reason I think a truck would be an economy. And not only do I believe that a truck for garbage would be economical but a smaller auto for general use in the department would be a saving of time and a great convenience. During the summer the work is scattered over the city and the time necessary to go from one piece of work to another is considerable, especially when the extent of the city is taken into consideration.

The permanent improvements for 1913 were the macadamizing of a section of South Street from Fayette to Concord. This was a continuation of the work begun the year before. Tarvia was used in construction and a good piece of road was built for \$2,110.21. The work of macadamizing on North Main Street from Chapel to Pearl, which was put over from last year, was done in August. Considerable work was necessary in cutting down at Pearl and Chapel Streets on account of the grade but the work was completed for \$2,550.29. Macadam was also put in on North State Street from Calvary Cemetery to the railroad crossing. A plain water-bound macadam was built with an application of tarvia put on later. With a very little repairing in the early spring and another application of tarvia the road should be in condition to withstand heavy traffic. The section of macadam on Merrimack Street in Penacook which was put in a number of years ago was rebuilt. On account of the drainage it was thought best to carry the macadam on a little farther than the original section and the work was done for \$1,162.96. A section of the Pittsfield road was graveled for \$494.62.

In recommending permanent improvements for the com-

ing year, I am fully aware of the fact that there are many places besides those which I shall mention that need to be improved and am suggesting only such places as it seems will serve the most people and at the same time continue work which has already been begun. Therefore, I should recommend that another section of South Street be macadamized and North Main Street from Chapel to Pitman. South Main Street, which is the main thoroughfare into the city, is in very bad shape. I have recommended for several years past that the street should be macadamized but the work has been put off on account of the work that should be done on the sewer there. Now that the sewer has been relaid I hope the street may be macadamized from Thorndike to Perley. With the adoption of the new traffic rules, which confines the traffic to one side of the street, there have arisen many complaints of the condition of the paving on the east side of North Main Street from Park to Center. The granite block paving there is very rough and I think it should be taken up and concrete laid the same as on the west side of the street. The macadam on the Hopkinton road from the Eddy estate to Saint Paul's School is in bad condition and should be resurfaced as early in the season as possible. It should have been done last year and any further delay in repairing the road would be unwise. Some portions of North State Street above the railroad crossing are much in need of repair. Certain sections are fairly good stone chip road but there are a number of places that should be macadamized. Last year I recommended that Park Street be rebuilt but the work was not done and I would again suggest that it be repaired. Before any work is done there, however, the edgestone on the south side past the State House should be reset and the walks repaired. The north walk on Capitol Street past the State House is also in very bad condition and needs to be rebuilt. Possibly the state might aid in the work of reconstructing the sidewalks. The work of graveling the Pittsfield road

ould be continued next year. In Penacook, the continuation of the work on Merrimack Street would seem wise and I hope the work in Washington Square which was contemplated last year may be completed.

The subject of building roads and the maintenance of them is being more widely discussed every year and the problems arising from the conditions of traffic, etc., become more perplexing. In the opportunities afforded me at the various conventions which I have attended to meet others engaged in the same kind of work, I find that we are keeping abreast with other cities in our road building and are experiencing the same difficulties. I wish to thank the Board of Public Works for the interest with which they have considered the questions that have been brought before them in regard to highway work, for their interest and fair consideration assist greatly in the performance of the work of the department.

Respectfully submitted,

ALFRED CLARK,
Superintendent of Streets.

REPORT OF SEWER DEPARTMENT.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1913.

To the Board of Public Works:

The third annual report to this board, showing the funds available for construction and repairs, flushing, tools and maintenance, in the city precinct, the West Concord precinct, the East Concord precinct and the Saint Paul's School precinct, is herewith submitted in detail, together with a partial statement of the needs of the main sewers in the city precinct.

CITY SEWER PRECINCT.

The sewer in South Main Street, from Thorndike Street to the outlet sewer below Holt Brothers' shop, was relieved the past season by the laying of a supplementary sewer of Akron pipe from 18 inches in diameter at its southerly end to 10 inches in diameter at its upper end. This sewer will relieve the congested conditions heretofore existing in this vicinity and remove the cause of complaints from flooded premises on this line of pipe.

The amount of hard-pan encountered for one thousand feet in length of this work added about \$400 to the cost of the same.

The sewer in South State Street from Perley Street to South Main Street should be enlarged to relieve the conditions now prevalent during and immediately following sudden and heavy rainfalls. Your attention has been previously called to these conditions and you are familiar with them. Some action should be taken to remedy the existing conditions in the section served by this sewer.

The Washington Street supplementary sewer was laid

into the easterly end of Washington Street to avoid the necessity of disturbing the new street surface laid in North Main Street during the past season.

The sewers in Washington Street, Beacon Street and Rumford Street, draining through Washington Street, should be relieved in the immediate future, as many complaints come from the territory these sewers serve.

Washington Street from North Main Street to North State Street should be laid at once, and more on the same line if funds can be raised to prosecute the work. The extension of larger mains on this sewer division will afford relief to a large section of the city, which, at present, is not adequately provided with sewer accommodations. Your board are already familiar with the claims presented for flooded premises and you have seen the conditions existing after heavy showers or protracted storms.

A new sewer was laid in Durgin Street and extensions were made to the sewers in Carter Street, Stone Street, Oak Street and Ridge Road.

Work on the Palm Street sewer was started at the North State Street main and about forty feet of pipe was laid to enable the street to be surfaced with macadam and avoid disturbing the new roadway when completed. Lack of funds prohibited the completion of this sewer. The northerly end of Palm Street should be brought to grade before any attempt is made to lay a sewer therein.

The macadam on North State Street required the raising of man-holes and lamp-holes, which were changed to fit the new conditions at an expense of \$194.75.

On South Street the expense of changing lamp-holes was \$5.10.

On North Main Street the expense of changing man-holes was \$4.57.

The usual spring and fall flushings were given the entire system and minor repairs made where needed at the time of flushing.

NEW WORK, 1913.

SOUTH MAIN STREET.

850 feet of 18-inch pipe laid.

676 feet of 15-inch pipe laid.

534 feet of 10-inch pipe laid.

Paid for labor,	\$2,705.93
pipe,	1,141.91
cement,	77.40
brick,	115.50
trucking,	96.25
castings,	67.50
wrought-iron,	3.92

	<hr/>
	\$4,378.44

Average cost per lineal foot, \$2.125+.

Material excavated, gravel, clay and hard-pan.

WASHINGTON STREET.

62.5 feet of 30-inch pipe laid.

Paid for labor,	\$145.50
pipe,	184.00
cement,	8.60
brick,	9.75
trucking,	12.25
crushed stone,	2.00
oil,	.60
	<hr/>
	\$362.70

Average cost per lineal foot, \$5.803+.

Material excavated, sand and gravel.

PALM STREET.

30 feet of 10-inch pipe laid.

Paid for labor,	\$36.16
pipe,	7.70
cement,	2.15
brick,	10.50
trucking,	4.75
wrought-iron,	.45
	<hr/>
	\$61.71

Average cost per lineal foot, \$2.057, including man-hole.
Material excavated, sand and gravel.

OAK STREET.

68 feet of 8-inch pipe laid.

Paid for labor,	\$28.50
pipe,	18.26
trucking,	3.00
oil,	.60
	<hr/>
	\$50.36

Average cost per foot, \$0.740+.
Material excavated, gravel and hard-pan.

STONE STREET.

148 feet of 10-inch pipe laid.

Paid for labor,	\$34.69
pipe,	53.12
trucking,	1.00
	<hr/>
	\$88.81

Average cost per lineal foot, \$0.600+.
Material excavated, sand.

CARTER STREET.

108 feet of 10-inch pipe laid.

Paid for labor,	\$33.65
pipe,	37.12
trucking,	4.00
	<hr/>
	\$74.77

Average cost per lineal foot, \$0.692+.

Material excavated, sand.

RIDGE ROAD.

110 feet of 8-inch pipe laid.

Paid for labor,	\$90.72
pipe,	25.52
trucking,	2.00
	<hr/>
	\$118.24

Average cost per lineal foot, \$1.074+.

Material excavated, hard-pan.

DURGIN STREET.

249 feet of 10-inch pipe laid.

Paid for labor,	\$142.25
pipe,	88.01
cement,	8.60
brick,	21.90
trucking,	12.50
castings,	26.85
wrought-iron,	.45
coal-tar concrete,	9.89
	<hr/>
	\$310.45

Average cost per lineal foot, \$1.246+.

Material excavated, sand and gravel.

42-inch brick and concrete,	246 "
60-inch brick and concrete,	1,450 "
Total to date,	186,196.5 ft.

Total miles in city precinct to date, 35.264+.

WEST CONCORD SEWER PRECINCT.

The usual spring and fall flushing of the sewer system in this precinct was made at an expense of \$26.19. No repairs or extensions were made during the past season.

Cash on hand for construction and repairs,	\$153.26
Expended,	26.19
Unexpended balance December 31, 1913,	\$127.07

EAST CONCORD SEWER PRECINCT.

No repairs were needed and no extensions were built in this precinct the past season, leaving the balance on hand the same as last season, viz.: \$127.53.

SAINT PAUL'S SCHOOL SEWER PRECINCT.

No repairs or extensions were made to the system in this precinct during 1913. The only charge against the precinct was the usual annual charge of the water-works for the use of water in the flush-tanks.

Balance for 1913,	\$62.55
Expended, 1913,	45.00
	<hr/>
Balance December 31, 1913,	\$17.55

Late in the fall a cast-iron relief sewer was built across the New Hampshire Spinning Mills' canal in Penacook and extended to the river with Akron pipe. This sewer should afford relief to the East Canal Street sewer in times of excessive flow in it. The cost of same will be shown in the Penacook sewer precinct report.

For the many courtesies extended to this department, I wish to express my appreciation.

Respectfully submitted,

WILL B. HOWE,
City Engineer.

PUBLIC PARKS.

REPORT OF PARK COMMISSIONERS.

To the City Council:

The Park Commissioners present herewith their report for the year ending December 31, 1913:

RECEIPTS.

General appropriation,	\$3,500.00

Paid for labor,		4.00
-----------------	--	------

\$3,677.45

Not much that is new can be said of the parks for the past year. The superintendent has continued his good work and maintained the character of former years. The commissioners hope to extend the iron fence around White Park during the coming year.

The sanitary drinking fountain has thus far been a success and we shall hope to install others. A new swan has been purchased during the last summer. In June, at White Park, the schools continued the folk dances which were inaugurated last year. The large number present showed the interest of parents and others in these delightful dances. The commissioners will gladly add their cooperation in making this a success year after year.

The continued encroachment of the moth pest, and this year of the gypsy moths, which have infested the oak grove on the west side of the park, calls for a larger expenditure of money and possibly a sacrifice of the trees.

At Rollins Park the rustic work will practically all have to be renewed this year. The bridge and pavilion have become of no account. A new buck deer was purchased of the Blue Mountain Forest Association. The superintendent gives much care and cultivation to plantations of laurel and rhododendrons and it is most distressing to find that people who do not know any better mutilate the plants and carry them away from the grounds. The superintendent has had charge of the plants and flowers at Memorial Arch during the summer.

CHARLES J. FRENCH, *Mayor, ex officio*,
WILLIS D. THOMPSON,
GARDNER B. EMMONS,
BENJAMIN C. WHITE,
WILLIAM P. FISKE,
WILLIS G. C. KIMBALL,

Commissioners.

REPORT OF COMMITTEE ON THE JOHN KIMBALL PLAYGROUND.

To the Board of Mayor and Aldermen:

The committee respectfully submits the following report for the year 1913:

The four hundred dollars (\$400) appropriated for the current expenses of the playground has been expended in as judicious a manner as the committee could direct. The appearance of this playground has been a constant reproach to the interested citizens of Concord and efforts have been expended on improving conditions. Grading—a necessary but expensive process—and new apparatus in accordance with modern ideas are certainly steps toward making this place more attractive and useful.

It is a long and costly proceeding to transform an unsightly vacant lot into a civic playground worthy of the name.

The playground has been enjoyed by the children of the neighborhood and interest in its success was shown by the enthusiastic groups that witnessed the games and sports of its closing day. The committee gratefully acknowledges the kindness of Miss Kent and her associates in the games.

There is an opportunity for civic betterment in the playgrounds unequalled in any department in the city, and the opportunity should not be overlooked.

REPORT OF THE PUBLIC BATH.

CONCORD, N. H., September 6, 1913.

Mayor C. J. French.

DEAR SIR,—The season of 1913 which just closed has been one of the most successful seasons since the public bath was instituted.

The daily attendance was up to the average except during the hot spell of July when it surpassed all expectations.

A pleasing feature of this year's season at the public bath was allowing the use of the public bath to women bathers on Wednesday afternoons. The experiment proved most successful, as the young women of the city took advantage of the opportunity to learn to swim and came over to the river in great numbers.

Following the custom of every year, a water carnival was run off for the benefit of the boys on Labor Day. Suitable prizes, contributed by the merchants of the city, were awarded for each event.

The following data is a record of the attendance, etc.:

Opened June 14,	73
Week ending June 21,	1,318
28,	1,403
July 5,	1,822
12,	1,612
19,	1,561
26,	1,628
Aug. 2,	1,463
9,	1,342
16,	1,410

REPORT OF PUBLIC BATH.

455

Week ending Aug. 23,	1,207
30,	1,036
Sept. 5 (closed),	632
	<hr/>
Total attendance,	16,507

Total attendance of women bathers:

July 16,	41
23,	102
30,	98
Aug. 6,	71
13,	137
20,	186
27,	146
Sept. 3,	153
	<hr/>
Total,	934

Number of boys saved from probable drowning, 6.
(Cause, in each case, going beyond their depth.)

Number of boys who have learned to swim this season, 26.

Number of girls who have learned to swim this season, 34.

RECOMMENDATIONS.

1. A suitable bath house be built for the use of girl bathers. (The city owns plenty of rough lumber and this can easily be accomplished, the only cost being for the labor.)

2. A new boat be secured. (The present one has outlived its usefulness.)

Respectfully submitted,

TIMOTHY REARDON,

Instructor.

REPORT OF THE CEMETERY COMMISSIONERS.

To the Board of Aldermen:

The amount placed at our disposal for the year 1913 for the Old North Cemetery was \$651.10 and we have expended \$647.02, and for Blossom Hill Cemetery we received \$6,980.36 and expended \$7,800.19, for a detailed account of which we refer you to the report of the city treasurer. The large expenditures at Blossom Hill Cemetery were occasioned by the filling and grading of a new plot which we were obliged to do on account of the demand for more lots, the sale of which will soon return the extra expense incurred. The burials for the past year have been: In Blossom Hill Cemetery, one hundred and eighty-five (185); and in the Old North, seventeen (17). The chapel has been used seven (7) times.

GEORGE A. FOSTER,
Secretary.

To His Honor the Mayor and City Council:

Your committee on West Concord Cemetery respectfully submit the following report for 1913:

1913.

Jan.	1.	Cash on hand,	\$5.57

Committee.

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The board of assessors submits to your consideration the following facts and figures showing the valuation of the city and its school districts and special precincts, with the amount of taxes raised in each and returned to the tax collector for collection.

More inventories were filed than were filed in any previous year, involving much clerical work, but they were of great aid to this department.

The valuation placed on property by this board has been contested in three instances: The Boston & Maine Railroad, Woodworth & Co., and Roselle M. Day, and these cases are now before the court for adjudication.

The total valuation of the city was materially increased by property taxable to the estate of Mary Baker G. Eddy. A large part of this property may be removed from the city during the coming year.

TREASURY DEPARTMENT.

TRUST FUNDS.

CITY TREASURER'S ACCOUNTS AS CUSTODIAN OF TRUST FUNDS.

ABIAL WALKER TRUST.

For the benefit of the school fund.

Capital,	\$1,000.00
Income received, 1913,	40.00
Paid into the city treasury,	40.00

Deposited in Merrimack County Savings Bank.

COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital,	\$2,000.00
Income received, 1913,	80.00
Paid Grace E. Foster, treasurer of the society,	80.00
Invested in Union Trust Company,	\$1,000.00
Deposited in New Hampshire Savings Bank,	1,000.00

MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the superintendent of cemeteries for the preservation, care and embellishment of the burial lots known as the Minot enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital,	\$3,000.00
Income received, 1913,	105.00
Paid H. H. Dudley, treasurer,	105.00

Deposited (at 3½ per cent.) with city of Concord, in general account.

DAVID OSGOOD TRUST.

The purpose of the donor of this trust was that the income should be used for the purchase of school-books for poor children; but since the bequest was made, a state law has been enacted that requires the town and cities to buy all the school-books; consequently the beneficiary of the fund, \$200, and accumulations, amount to \$555.03, and same will continue to accumulate forever without any benefit to any object, unless some legal action can be taken to divert the income from the specified purpose of the donor.

Capital,		\$200.00
Balance income from last year,	\$355.03	
Income received, 1913,	22.12	
	—————	377.15

Capital, \$200, deposited in New Hampshire Savings Bank.

Income deposited in the Union Trust Company.

COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a biographical, geographical, historical and scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons from year to year.

Capital,	\$2,145.00
Income received, 1913,	85.90
Paid into the city treasury,	85.90
Deposited in Union Trust Company,	\$1,500.00
Deposited in New Hampshire Savings Bank,	500.00
Deposited in Loan and Trust Savings Bank,	145.00

G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1913,	35.00
Paid into city treasury,	35.00

Invested in City of Concord 3½ per cent. bond.

FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00

	<hr/>	\$651.39

Capital and unexpended income deposited in New Hampshire Savings Bank.

WEST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord sewer precinct and authorizing loans on the credit of the city to construct the system, also created a sinking fund the conditions of which have already been fulfilled. There is still outstanding five bonds of \$500 each and one of \$300. One of the \$500 bonds matures each year until 1919, when the \$300 bond is payable. The presumption is that these bonds will be paid each year from taxes assessed upon the property of the precinct.

Balance on hand January 1, 1913,	\$450.42	
Income received, 1913,	18.00	
	<hr/>	\$468.42
Deposited in Union Trust Company.		\$468.42

PENACOOK SEWER PRECINCT SINKING FUND.

The city ordinance establishing the Penacook sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the following amounts should be raised annually upon the taxable property of the precinct for the purpose of paying the bonds as they mature, viz.:

- \$100 annually for fifteen years from October 1, 1900.
- \$1,000 annually for five years from May 1, 1908.
- \$500 annually for six years from July 1, 1914.
- \$500 annually for three years from October 1, 1915.

TREASURY DEPARTMENT.

481

Balance on hand January 1, 1913,	\$5,754.65	
Income received, 1913,	230.16	
Received from city of Concord,	1,100.00	
	—————	\$7,084.81
Transferred to city of Concord general account to pay bonds maturing 1913,	\$5,000.00	
Balance on hand January 1, 1914,	2,084.81	
	—————	\$7,084.81
Deposited in Union Trust Company,		\$2,084.81

EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the sum of one hundred dollars (\$100) should be raised annually for twenty years from July 1, 1895, upon the taxable property of the precinct for the purpose of paying the bonds as they mature.

Balance on hand January 1, 1913,	\$328.64	
Income received, 1913,	13.12	
Received from city of Concord,	100.00	
	—————	\$441.76
Balance on hand January 1, 1914,		\$441.76
Deposited in Union Trust Company.		

SETH K. JONES TRUST.

Bequest to the city of Concord to be invested in some New England city bond, the income to be applied as follows: Twelve dollars each year to keeping lot in Blossom Hill Cemetery in neat and orderly condition; six dollars each year to be deposited in some savings institution to create a monument fund; and the balance of the income to be expended each year in purchasing books for the Concord public library.

Capital,	\$1,000.00
Income received, 1913,	35.00

Transferred to Seth K. Jones monument fund,	\$6.00	
Transferred to city of Concord general account for public library,	17.00	
Paid for care of lot,	12.00	
	—————	\$35.00

Capital invested in City of Concord 3½% bond.

•
SETH K. JONES MONUMENT FUND.

Increased six dollars each year from the income of the Seth K. Jones trust. The entire accumulation to be expended every fifty years in erecting a new monument on his lot in Blossom Hill Cemetery.

Accumulations to January 1, 1913,	\$398.47	
From S. K. Jones trust,	6.00	
Income received, 1913,	15.78	
	—————	\$420.25

Deposited in Loan and Trust Savings Bank.

BLOSSOM HILL CEMETERY RECEIPTS.

One half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

I hereby certify that I have examined the foregoing account of William F. Thayer, city treasurer, for the year 1913, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be seventy-seven thousand fifty-one dollars and fifteen cents (\$77,051.15), and as treasurer of the city water department, cash balance to be thirty-two thousand five hundred eighty-two dollars and forty-six cents (\$32,582.46).

I have also verified the account of the trust and sinking funds of the city and find such trust and sinking funds invested, and the income thereof for the year 1913, accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN,

City Clerk.
